Statement 15 Form 990-PF, Part IX-B, Line 1 Summary of Program-Related Investments

On September 20, 2016, the Foundation made an unsecured loan to another not-for-profit in the amount of \$2,500,000 for its Affordable Multi-Family Lending Program. This program funds the construction of rental properties that serve identified low-income residents in Santa Clara, San Francisco and Alameda Counties. The loan bears interest of 2% per annum and is payable quarterly. The outstanding principal and any accrued interest is due in full on September 10, 2026.

Background

The Cisco Systems Foundation (Foundation) and Cisco Systems Inc.'s Public Benefit Investment (PBI) group apply the same overall strategic approach, guidelines and processes to Investment Areas, Eligibility Criteria, Grant making Guidelines, and Application procedures. Cisco Systems Inc. screens proposals at no cost to the Foundation and presents possible funding opportunities to the Foundation, which the Foundation then evaluates and approves if appropriate. The Foundation only provides funding that is appropriate given its status as a Section 501(c)(3) charity and as a private foundation, and only when the proposed project is in furtherance of its established policies and charitable purposes.

Within this document, references to Cisco apply to both the Cisco Systems Foundation and Cisco Systems Inc. The programs described below reflect Foundation activities that may be subsidized in part, or carried out with the assistance of, Cisco Systems Inc. While Cisco Systems Inc. provides various services free of charge to the Foundation, the Foundation never subsidizes programs or activities of Cisco Systems Inc.

Cisco believes that in a digitally connected world anyone can be a Global Problem Solver. By combining the power of the network with innovative, entrepreneurial, and passionate people, we accelerate solutions that create positive change.

The Foundation's grant expenditures fall into the following major programs: Global Impact Cash Grants, Silicon Valley Impact Grants, Habitat for Humanity Grants, as well employee Matching Gifts. Cisco's cash grants programs support non-profit and non-government organizations working in the investment areas specified under each program. In order to maximize the impact of investments, Cisco supports innovative organizations that serve the underserved, and leverage technology solutions to improve the efficiency, reach, and social impact of their services. Carefully selected organizations that meet Cisco's grant making criteria and policies, and serve at least one of Cisco's investment areas may be eligible for cash grants.

Cisco's grant programs, grant guidelines, eligibility criteria, and investment portfolios are outlined below Further details can be found on our website: Cisco Grant Programs

Global Impact Cash Grants

By investing in and developing scalable technology-based solutions, we enable nonprofits and social enterprises to create and sustain long-term positive social change. In the spirit of Cisco's vision of Global Problem Solvers, Global Impact Cash Grants are awarded by Cisco to US-based and non-US based non-profit organizations around the globe, with national or multinational operations. Eligible organizations must align with our grant-making criteria and policies.

Cisco's overall approach is to partner with non-profit organizations to identify, incubate, and develop innovative solutions that solve challenging socioeconomic conditions in at least one of the investment areas: critical human needs, access to education, and economic empowerment. In order to maximize the impact of investments, Cisco supports programs that fit within its

Statement 19
Form 990-PF, Part XV, Question 2
Information Regarding Contributions, Grant, Gift, Loan, Scholarship, etc Programs

Foundation

investment areas, serve the underserved, and leverage technology solutions to improve the reach, efficiency, and impact of services. Programs must also have high potential for replication and scale in multiple environments, and a clear path for long-term sustainability.

Critical Human Needs

Cisco seeks to help overcome the cycle of poverty and dependence through strategic investments that enhance the capacity of organizations that successfully address basic needs of underserved communities. The rationale behind this strategy and approach is that families who have access to clean water, food, and a place to call home are better equipped to learn. Cisco's investments support programs with innovative solutions which increase capacity, allowing the grantee organization to deliver its products and/or services more effectively and efficiently. Cisco also supports the design and implementation of technology-based solutions which increase the availability of, or improve access to, products and/or services that are necessary for people to survive and thrive.

Within Cisco's framework, the critical human needs investment area includes clean water, food security, and shelter. Cisco investments support programs that provide these and other essential prerequisites to self-sufficiency. Cisco Foundation's partnerships with organizations Mercy Corps, Ushahidi, Feeding America, and Akvo Foundation are examples of some of our partners in the Critical Human Needs portfolio.

In addition, when appropriate, Cisco makes cash grants in response to natural disasters and humanitarian crises. In the past, for example, Cisco has provided support through organizations such as the American Red Cross, Save the Children, World Food Programme, and NetHope, to provide relief to people affected by the earthquakes in Mexico, Hurricanes Irma and Harvey and Maria, floods in California, and other disasters. On a case-by-case basis, the Foundation may provide support for global pandemics, such as Ebola.

Access to Education

Cisco's strategy is to support the creation and deployment of technology-based solutions which enable students to master a baseline of educational knowledge in mathematics, literacy, science, engineering, and technology. The rationale behind this approach is that children that have mastered core curriculum in primary school have the foundation to succeed in secondary school and beyond. In line with Cisco's overall grant-making philosophy, Cisco focuses particularly on underserved populations.

Cisco investments support innovative solutions which increase capacity, allowing grantee organizations to deliver, administer, and track education development more effectively and efficiently. To this end, Cisco funds the design and development of tools which increase the availability of, or improve access to, products and/or services for curriculum development, student centricity, and teacher development - Cisco does not provide direct funding to schools. The Foundation has funded organizations such as the MIND Research Institute to develop a fully web-deliverable platform to enable scale-up of their education programming, which aims to improve the math proficiency rates and problem-solving skills of K-8th grade students. The Foundation is also supporting organizations like Science Buddies and Gooru, which support both students and teachers.

Foundation

Economic Empowerment

Cisco's strategy is to encourage employment success, entrepreneurship, and financial inclusion by providing access to skills, knowledge, and financial products and services via technology-based solutions. Target beneficiaries are underserved populations to enable them to gain the skills they need to get jobs and develop a career, start/maintain small businesses, and have access to effective and affordable financial products and services. Cisco's investments in technology solutions facilitate widespread and equitable access to resources that people in poverty need to achieve sustained economic self-sufficiency, and participate in socioeconomic development in their communities.

The Foundation has supported organizations like Opportunity International, Kiva, and Innovations for Poverty Action as part of the Economic Empowerment portfolio.

Global Impact Cash Grants - Grantmaking Criteria

When Cisco evaluates grant proposals, our goal is to partner with nonprofit organizations that maximize the impact of the assets we have to offer, thereby nurturing the development of successful, self-sustaining individuals and vibrant communities around the globe. To that end, we give highest priority for consideration and funding to proposals that can clearly articulate the planned impact of their efforts, as well as the metrics by which that impact would be measured.

Provided below are the criteria we use to evaluate a grant proposal. We believe these values are the key to maximizing our positive impact on the community.

Addresses a Significant Social Problem with Unmet Need

The program addresses a problem that affects a large number of lives within the target area, and which has severe effects on the lives of individuals and communities within the target area. The significant unmet need exists due to a gap between current and required funding, and/or the need for innovative approaches.

Serves the Underserved

The target audience is greater than 65% economically underserved, relative to the average standards of the target geography.

Utilizes and Leverages the Internet

The program uses the internet and/or internet-based communications technology to improve the efficiency and reach of program services.

Employs an Innovative Approach with Potential for Broad Impact

The program provides an innovative solution that creates an opportunity for significant impact beyond the direct benefits of specific Cisco-funded activities. For example:

Market effects due to major shift in economics, productivity, and effectiveness.

Foundation 1

 Ability to catalyze behavior of other key agents or partners in ecosystem to achieve an order of magnitude more together than apart.

Has Appropriate Attributes to be Replicable

The design of the program allows for it to be easily and cost effectively reproduced/duplicated for use in local environments around the globe.

Has Appropriate Attributes to be Scalable

The design of the program allows it to expand to meet the needs of the target population without a nearly equivalent investment of resources for each individual or group.

Has Appropriate Attributes to be Sustainable

The long-term plan for the program includes mechanisms by which it can flourish significantly beyond the resources which will be provided by Cisco.

Incorporates Metrics to Measure Program Impact

The program defines and utilizes SMART (Specific, Measurable, Achievable, Realistic, Timely) metrics in order to help Cisco and the grantee measure progress towards success.

- Specific: Specific Metrics are clear and well-defined. This helps both the grantee and the grantor, as the grantee knows what is expected of them and the grantor is able to monitor and assess actual performance against the specific Metrics.
- Measurable: Progress toward Metrics often needs to be to be monitored while work is underway. It is important to know when that work has been done as the Metrics are completed. A measurable metric achieves this end.
- Achievable: Achievable Metrics ensure that everything is in place and that if the grantee does not reach the goals they cannot reasonably point the finger elsewhere.
- Realistic: Metrics should be realistic. A metric will often fail for a number of reasons including a lack of skill, not having enough resources (computers, tools, etc.), not having access to key people and not having management support.
- Timely: Descriptions of Metrics should include timescales of what is required by when. This may also include details of delivery, stating (if relevant) where Metrics are to be completed. Giving a time scale adds appropriate sense of urgency and ensures that the Metrics do not dribble out over an unreasonably long timescale.

Possesses Outstanding Leadership

The organization has an outstanding leader and/or management team with qualities such as vision, execution ability, passion, ethical approach, expertise, external relationships, and credible track record in the relevant area.

Aligns with Foundation Goals and Values

Program meets basic criteria, guidelines, requirements of Cisco grant programs

- Program fits into at least one investment area: Critical Human Needs, Access to
- Program leverages the internet

Education, Economic Empowerment

- Program serves the underserved
- Program has the potential to leverage the breadth of Cisco resources and assets (i.e., Cisco employee volunteerism, partner ecosystems, etc.) for maximum value added

Overall, Cisco will not consider incomplete proposals or programs that do not meet our grant-making criteria.

Global Impact Cash Grants – Eligibility Requirements & Policies

Following are the basic eligibility requirements and policies for Cisco Global Impact Cash Grants:

Organization Classification

- 1. U.S. organizations must provide evidence that the IRS has recognized them as tax exempt under the Internal Revenue Code Section 501 (c)(3), AND has classified them as a public charity.
- 2. Organizations from outside the U.S. must (a) provide information and documents to determine whether the organization is the equivalent of a U.S. public charity, or (b) agree to sign and comply with an expenditure responsibility contract. Cisco will determine whether (a) or (b) is appropriate for a particular organization.

First-Time Global Impact Cash Grant Applicants

Note that for first-time global grant applicants, the maximum request amount Cisco will consider is US \$75,000.

Overhead Percentage

As a rule, Cisco does not fund organizations or programs whose overhead expenses exceed 25%. Organizations or programs whose overhead costs exceed our stated limit are occasionally exempt from this requirement; however, they must be exceptionally aligned with Cisco's values and criteria, and they must clearly explain and justify their overhead costs. Exemptions to the requirement on overhead expenses are determined on a case-by-case basis.

Ineligible Programs and/or Activities

• Miscellaneous exclusions: general operating expenses, other than directly associated with the program itself; individuals; research programs; membership-based activities; programs that promote or serve one culture, race, religion, population group, or political viewpoint - rather than the community at large;

- religious, political, or sectarian organizations (some exceptions apply. See our "Policy on Religious Proselytizing" below).
- Hospitals: Private or public hospitals; hospital foundations; medical centers, research centers, etc. (Programs based in a hospital may be eligible; however, grant funds must go exclusively to direct service in the community, not to general hospital operating expenses.)
- Schools and scholarships: Private, public, or charter schools; school foundations, booster clubs, and/or fundraising organizations affiliated with a particular school; colleges/universities; scholarships, stipends or loans within a program; and/or school- related activities such as field trips, research programs, etc.
- Events: athletic events, competitions, tournaments; conferences, seminars, workshops; festivals, field trips, or other recreational events; fundraising events or sponsorships (benefit dinners, walks/runs, concerts, sports teams, etc.)
- Philanthropic: capital building funds, challenge grants, certain grant-making organizations (i.e., company foundations, family foundations, etc.)

Policy on the Funding of Equipment

In general, Cisco does not fund the purchase of computer hardware or software, but may consider doing so only in cases where: 1) such resources are leveraged in a strategically innovative manner, thereby extending their impact well beyond everyday/staff use; AND 2) such resources are not available through other, more cost-effective means such as in-kind donation. Applicants must demonstrate that they have thoroughly explored such avenues without success.

Policy on Non-Discrimination

Cisco does not promote or discriminate against any person, population group, or organization with regard to categories protected by applicable United States law, as well as other categories identified by Cisco in alignment with our own Human Resources policies. These include, but are not limited to race, color, religion, sex, gender expression, physical appearance, language, education background, national origin, age, disability, and veteran status.

Cisco seeks to support public benefit organizations that are substantially in alignment with our non-discrimination policy. Organizations that are found to discriminate in their provision of services and/or their hiring practices based on any of these or other criteria may be deemed ineligible for funding support and/or required to return any grant awards, and may be rendered ineligible for future support.

Policy on Religious Proselytizing

Cisco is committed to providing an open, diverse, and nondenominational working environment. Cisco will not support any program which requires exposure, adherence to, or conversion to any religious doctrine in order to be a beneficiary of the program. To clarify, a direct service program run by a faith-based organization may be eligible, provided that the program's beneficiaries are not encouraged or required to learn

about, adhere to, or convert to that organization's religious doctrine as a condition of receiving service from the program.

Policy on Non-Support of Violence and Terrorism

It is Cisco's mission to fund nonpartisan service organizations that adhere rigorously to fundamental human rights principles. Cisco does not knowingly support grantee organizations that endorse, support, or promote violence, terrorist activity, or related training, whether through their own activities or indirectly through their support of, support by, or cooperation with, other persons and organizations engaged in such activities. Cisco requires our grantees to confirm that they do not engage in or support such activities, and we vet potential grantees with care. If a grantee appears to be in violation of this policy, Cisco will suspend funding immediately and require the grantee to freeze grant funds until Cisco has investigated the matter. If the investigation discloses violations of this policy, Cisco will require the grantee to return all grant funds; Cisco will classify the grantee as ineligible for future funding; and Cisco will take such other steps as the law may require.

Policy on Advocacy, Lobbying, and Other Political Activity

Cisco's policy with respect to providing grant support to organizations that engage in advocacy and/or lobbying is subject to our diversity policy. This policy states that Cisco does not promote or discriminate against any person, population group, or organization with regard to race, color, religion, sex, gender expression, national origin, age, disability, veteran status, or other categories protected by applicable United States law. In accordance with this policy, Cisco will not provide grant support to any organization that advocates or lobbies against any such protected category.

Furthermore, in order to avoid actual or apparent preferences for any protected or non-protected category over another, Cisco may reject grant support to any organization that lobbies or advocates for or against any single person, population group, organization, or cause/issue (e.g., political position, policy, law/legislation, etc.).

In addition, grantees that are classified as charitable organizations under the U.S. Internal Revenue Code must certify to Cisco that they comply with applicable law regarding limits on their lobbying activity and that they do not engage in prohibited electioneering activity. Finally, Cisco does not permit its grant funds to be applied to any individual program of a grantee that involves any type of lobbying or political activity.

Note: "Lobbying" is defined in Section 4945(e) of the U.S. Internal Revenue Code to mean attempts to influence legislation through grassroots lobbying of the public or direct lobbying of government officials. Certain exceptions exist (e.g., for nonpartisan analysis or invited testimony). "Legislation" includes all matters that may be voted upon by the U.S. Senate or House of Representations, a state legislature, a local city or county council, an Indian tribal body, or a legislative body in a foreign nation, including votes taken by a committee of such body. Such matters may include votes to approve executive or judicial appointments of public officials as well as new laws or repeal of existing laws. "Legislation" also includes laws voted upon by

Statement 19
Form 990-PF, Part XV, Question 2
Information Regarding Contributions, Grant, Gift, Loan, Scholarship, etc Programs

the people in an initiative, referendum or other vote taken within a national, state, or local area.

"Political" refers to any payment made or action taken, directly or indirectly, to influence the outcome of any political campaign on behalf of, or in opposition to, any candidate for elective public office, including oral or written statements. Such activity is prohibited for tax-exempt organizations under Section 501(c)(3) of the U.S. Internal Revenue Code.

Policy on Board Review and Approval

Cisco requires applicants to certify that the chairperson or at least one officer of the organization's Board of Directors has reviewed the grant proposal and that the organization's board is aware of the application and supports its submission. Cisco also requires applicants to certify the accuracy of the proposal and to confirm that the organization complies with the policies stated on this web site.

Policy on Reviews of Accuracy/Compliance

All applicants are subject to reviews of their representations in their grant applications, their compliance with the policies stated above, and, if applicable, their adherence to the terms of the grant contract. If such a review reveals significant inaccuracies or violations of the policies stated above, or if an organization does not cooperate with the review, the organization may be required to return any granted assets and forfeit future funding eligibility.

Written Grant Contract

Grantee organizations are required to sign a written grant contract before payments can be made.

Reporting and Performance Tracking

As noted in the Grant-Making Criteria section of our program overview, Cisco looks for grant proposals in which concrete measures of success can be used to assess performance. Organizations that receive funding will be required to register with an online system that will enable them to customize performance metrics for their project and measure their progress over the life of the grant award. Meaningful participation in this process is a requirement for continued funding eligibility.

Global Impact Cash Grants - Application Process

Cisco now accepts unsolicited applications to the Global Impact Cash Grant program. Our new application process is open year-round; therefore, an organization may begin the application process at any time. Please note that all grant applications must be submitted using our online grant application tool. Cisco does not accept applications submitted via postal mail or email attachment.

Silicon Valley Impact Cash Grants

Silicon Valley Impact Cash Grants support qualifying health and K-8 education programs run by nonprofits that operate within 50 miles of our corporate headquarters in San Jose, California. Under this program, Cisco seeks to invest in programs that promote wellness and positive health habits, especially in the areas of obesity and violence prevention, as these epidemics affect children. Aligned with our overall focus on access to education, Cisco seeks to invest in programs that make it possible for every child to attain a quality education. This is demonstrated by improved student attendance; behavior; and increased math, science, or literacy course performance.

Silicon Valley Impact Cash Grants – Application Process

The Foundation will continue to accept grant proposals through an alternative Open Application Process for Silicon Valley that is available for an identified period annually. During this time, organizations may submit a grant proposal to Cisco for consideration based on targeted Community Impact Cash Grants - Investment Areas.

Habitat for Humanity Grant Program

Cisco employees have been participating with Habitat for Humanity since the 1990's. Cisco supports Habitat for Humanity affiliates around the globe by providing Build, Partner and Internet grants in addition to matching employee contributions of both time and money. The Cisco Habitat for Humanity grant program aims to further encourage and support employee engagement with Habitat for Humanity around the globe.

The Habitat Grants Program is a special program that combines resources from both the Foundation and Cisco Systems, Inc. The Foundation portion only covers the Build Grant portion and this is only offered based on employee level of participation. Cisco volunteers must donate at least 15% domestically and 10% internationally of the total volunteer hours needed to build a Habitat house in order for it to qualify for a Habitat Build Grant. The Habitat affiliate then applies to Cisco for a Build Grant to help pay for a portion of the house.

Habitat for Humanity - Basic Requirements

- The grant program has some basic requirements. A group of employees must be willing to commit to building a significant portion of any one house in order to recommend the HFH affiliate for the grant program.
- Domestically, employees must be willing to commit to building 15% of the total build hours required to complete the house. So if the HFH affiliate estimates that it will take 1000 unskilled labor hours to build a house, then the employees must commit to building 150 hours.
- Internationally, employees must be willing to commit to building 10% of the total build hours required to complete the house. So if the HFH affiliate estimates that it will take 1000 unskilled labor hours to build a house, then the employees must commit to building 100 hours.

Foundation 1

Limitations

- Grants must be recommended at least 8 weeks prior to the start of the build.
- Grants are independent from matching gifts and volunteer match those are available regardless of the number of volunteer hours committed.
- Grants will be processed throughout the fiscal year so long as funds are available.
- When the budget is expired, the grants program will close until the beginning of the new fiscal year.
- Each HFH Affiliate may receive a limit of up to two Build grants per year.

Employee Volunteer Match

The Foundation will match employee volunteer time by donating \$10 per hour per employee worked with a maximum team event match of \$10,000 to the local Habitat affiliate.

Foundation Matching Gifts/Volunteerism Program

The Foundation will match direct contributions by all regular Cisco employees made to nonprofit organizations which conform to the current program criteria and guidelines. Employees can request matching funds for qualified 501(c)(3) nonprofit organizations, qualified US K-12 public & private schools, and qualified US Colleges and Universities. Gifts of cash and volunteer hours are currently matched in this program. Both individuals and teams are eligible.

Supplemental Statement
Form 990-PF, Part VII-B, Question 1(a)(3)

During the fiscal year ending July 31, 2017, Cisco Systems, Inc. (the Corporation) provided the full-time equivalent of two employees to Cisco Systems Foundation (the Foundation). The Foundation did not reimburse the Corporation for these employees. Moreover, the Corporation provided the Foundation with space rent free. The corporation is a disqualified person with respect to the Foundation under U.S. Treasury Regulation Section 53.4941(d)-2(d)(3). The furnishing of goods and services by a disqualified person free of charge is not an act of self-dealing.
