

# Business Advantage at the Edge

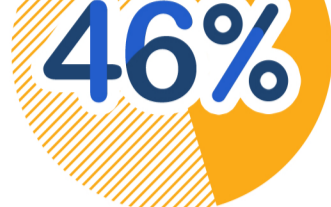

## Want your business to be able to thrive?

We do too. We provide you with the infrastructure it needs—not just to compete, but to win. Here's how.

## THE NETWORK: YOUR FOUNDATION FOR DIGITAL TRANSFORMATION.

The network is the foundation for current and evolving business models. It enables you to quickly connect to more cloud-enabled apps and deliver new services to more customers. But you can't depend only on the traditional WAN. For hybrid environments, you need to automate and optimize your network using software-defined WAN (SD-WAN).

Global SD-WAN market share **owned by Cisco:**

### With Cisco SD-WAN, customers win.

**38%**

5-year lower cost of WAN operations

**58%**

faster to implement policy or configuration changes

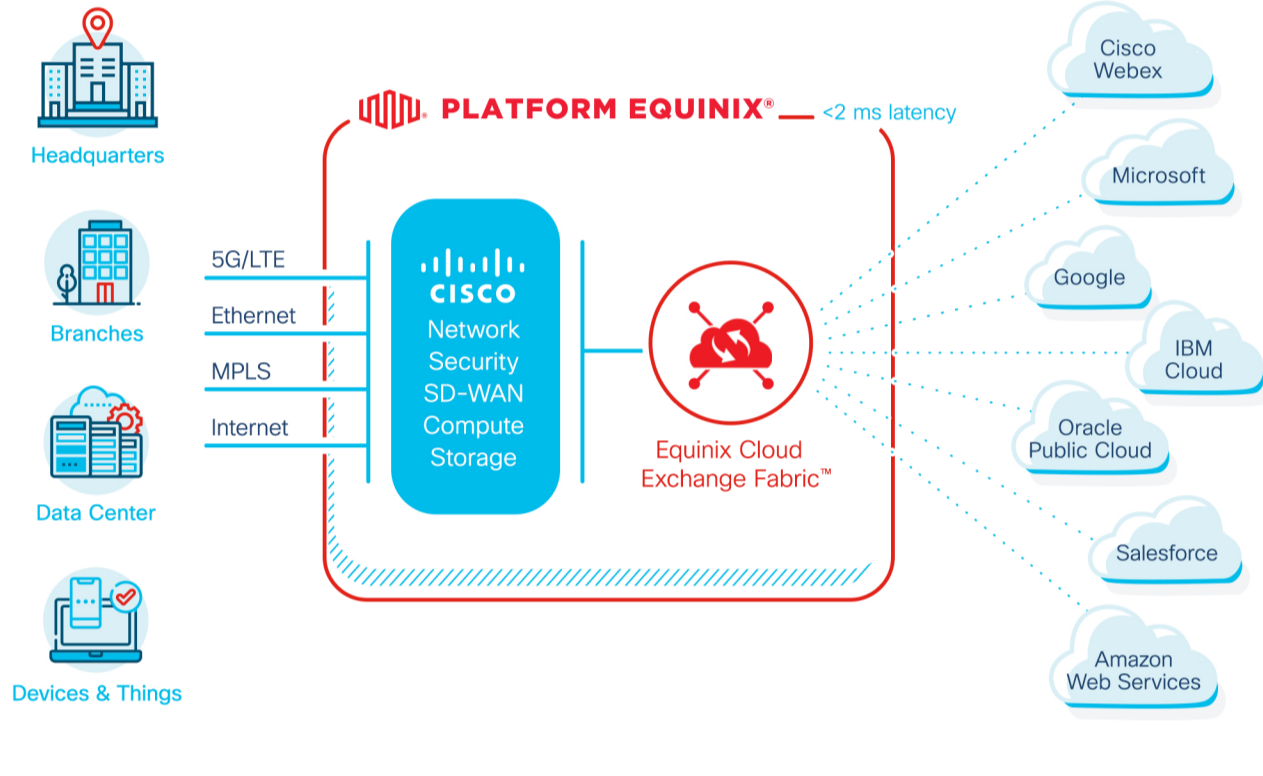

**94%**

less unplanned downtime

## CHOICE. FLEXIBILITY. YOUR COMPETITIVE EDGE.

With Cisco and Equinix, you can choose the physical and virtual deployment models that suit your needs. You can also choose the location and cloud provider that works best for you.

### All the options you want with Platform Equinix and Cisco SD-WAN.

### Together, we give you a competitive edge.

#### What you get:

- Insights into app performance
- A full edge security stack from branch to cloud and colocations
- Automation of SD-WAN connectivity to the cloud

## GLOBAL REACH LIKE NO OTHER.

With Equinix and Cisco, you can **efficiently scale, bring your users closer to services they need, and offer the app experience they demand.**

**Cisco SD-WAN** → Securely routed traffic from every endpoint to Equinix facilities in the region and around the globe.

**Platform Equinix** → A global integration platform with the largest ecosystem of clouds, networks and industry leaders—all interconnecting.
