

Service Description

Cisco Inspection Service – High Complexity Equipment

This Service Description is part of the Services Agreement (as defined in the [Services Guide](#)) and describes various Services that Cisco will provide to You. Capitalized terms, unless defined in this document, have the meaning in the Services Guide.

1. Summary

The Cisco Inspection Service – High Complexity Equipment (Advanced Service Fixed SKU: ASF-CEI-G-INSP-HC) provides inspection of the Product to determine whether or not the Product can be placed under a Cisco maintenance contract. Cisco has no obligation to provide support services under a maintenance contract for any Product that does not pass inspection. The Service consists of an inspection of 1 quantity of Product from the list below and any additional inspections will require purchase of additional quantities of this Service. Cisco may, at its sole option, offer a webex inspection as an alternative to an on-site inspection at the same cost as an onsite inspection.
