

Migrate from Android-based software to CE software

Cisco DX70 and Cisco Webex DX80

Until September 2016 the DX70 and DX80 were shipped with Android-based software. From September 2016 onwards they shipped with Collaboration Endpoint software (CE software).

The methods how to convert between CE and Android-based software described in earlier versions of this document are no longer supported. However, you can still convert from Android-based software to CE software by following the instructions below.

Note that we no longer support converting back from CE software to Android-based software.

Conversion from Android-based software to CE software

If you have a DX70 or DX80 with Android-based software you can convert it to CE software.

1. Go to the Cloud Upgrader at <https://upgrade.cisco.com/>
2. Select *Upgrade DX Android to CE* in the left pane.
3. Follow the instructions on this page.

Conversion from CE software to Android-based software

We no longer support conversion from CE software to Android-based software.
