irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmer's express Statement of Purpose.

4. Limitations and Disclaimers.

- a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
- b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.

- c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
- d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

layout: default

title: "The List View"

---

## # The List View

The List view displays a list of records fetched from the API, and allows users to filter, sort, select, and paginate the records. You can display the list as a Datagrid, a list of images, a calendar, or using a component of your own.

![The List View](./img/list-view.jpg)

The entry point for this view is the `<List>` component, which takes care of fetching the data. Then, it puts that data in a `ListContext` so that it's available for its descendants - usually `<Datagrid>`, which then delegates the rendering of each record property to [`<Field>`](./Fields.md) components.

## ## The `<List>` Component

The `<List>` component fetches the list of records from the data provider, and renders the default list layout (title, buttons, filters, pagination). It delegates the rendering of the list of records to its child component. Usually, it's a `<Datagrid>`, responsible for displaying a table with one row for each record.

Here is the minimal code necessary to display a list of posts using a `<Datagrid>`:

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, DateField, BooleanField } from 'react-admin';

export const PostList = (props) => (
  <List {...props}>
    <Datagrid>
      <TextField source="id" />
      <TextField source="title" />
      <DateField source="published_at" />
      <TextField source="category" />
      <BooleanField source="commentable" />
    </Datagrid>
  </List>
);

// in src/App.js
import * as React from "react";
import { Admin, Resource } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

import { PostList } from './posts';

const App = () => (
  <Admin dataProvider={jsonServerProvider('https://jsonplaceholder.typicode.com')}>
```

```

    <Resource name="posts" list={PostList} />
  </Admin>
);

export default App;
...

```

That's enough to display a basic post list, with functional sort and pagination:

![Simple posts list](./img/simple-post-list.png)

Here are all the props accepted by the ``<List>`` component:

- * `[actions`](#actions)`
- * `[aside`](#aside-aside-component)`
- * `[bulkActionButtons`](#bulkactionbuttons)`
- * `[component`](#component)`
- * `[empty`](#empty-empty-page-component)`
- * `[exporter`](#exporter)`
- * `[filter`](#filter-permanent-filter)` (the permanent filter used in the REST request)
- * `[filterDefaultValues`](#filterdefaultvalues)` (the default values for `alwaysOn`` filters)
- * `[filters`](#filters-filter-inputs)` (a React element used to display the filter form)
- * `[pagination`](#pagination-pagination-component)`
- * `[perPage`](#perpage-pagination-size)`
- * `[sort`](#sort-default-sort-field--order)`
- * `[title`](#title)`
- * `[syncWithLocation`](#synchronize-with-url)`

`title`

The default title for a list view is "[resource] list" (e.g. "Posts list"). Use the `title`` prop to customize the List view title:

```

```jsx
// in src/posts.js
export const PostList = (props) => (
 <List { ...props } title="List of posts">
 ...
 </List>
);
...

```

The title can be either a string or an element of your own.

### `actions`

![Actions Toolbar](./img/actions-toolbar.png)

You can replace the list of default actions by your own elements using the `actions` prop:

```
```jsx
import * as React from 'react';
import { cloneElement } from 'react';
import { List, ListActions, Button, FilterButton } from 'react-admin';
import IconEvent from '@material-ui/icons/Event';

const ListActions = (props) => (
  <TopToolbar>
    <FilterButton/>
    <CreateButton/>
    <ExportButton/>
    { /* Add your custom actions */ }
    <Button
      onClick={() => { alert('Your custom action'); }}
      label="Show calendar"
    >
      <IconEvent/>
    </Button>
  </TopToolbar>
);

export const PostList = (props) => (
  <List {...props} actions={ <ListActions/> }>
    ...
  </List>
);
```
```

Note that in order to add the `<FilterButton>` component among your custom actions, either the parent `List` must have its `filters` prop set up or you must pass the filters to the button itself.

This allows you to further control how the default actions behave. For example, you could disable the `<ExportButton>` when the list is empty:

```
{% raw %}
```jsx
import * as React from 'react';
import { cloneElement, useMemo } from 'react';
import PropTypes from 'prop-types';
import {
  useListContext,
  TopToolbar,
  CreateButton,
  ExportButton,
  FilterButton,
  Button,
  sanitizeListRestProps

```

```

} from 'react-admin';
import IconEvent from '@material-ui/icons/Event';

const ListActions = (props) => {
  const {
    className,
    maxResults,
    ...rest
  } = props;
  const { total } = useListContext();

  return (
    <TopToolbar className={className} {...sanitizeListRestProps(rest)}>
      <FilterButton />
      <CreateButton />
      <ExportButton disabled={total === 0} maxResults={maxResults} />
      /* Add your custom actions */
      <Button
        onClick={() => { alert('Your custom action'); }}
        label="Show calendar"
      >
        <IconEvent />
      </Button>
    </TopToolbar>
  );
};

export const PostList = (props) => (
  <List {...props} actions={<ListActions />}>
    ...
  </List>
);
...
{% endraw %}

```

You can also use such a custom `<ListActions>` component to omit or reorder buttons based on permissions. Just pass the `permissions` down from the `List` component:

```

```jsx
export const PostList = ({ permissions, ...props }) => (
 <List {...props} actions={<PostActions permissions={permissions} {...props} />}>
 ...
 </List>
);
...

`exporter`

```

![Export Button](./img/export-button.gif)

Among the default list actions, react-admin includes an `<ExportButton>`. This button is disabled when there is no record in the current `<List>`.

By default, clicking this button will:

1. Call the `dataProvider` with the current sort and filter (but without pagination),
2. Transform the result into a CSV string,
3. Download the CSV file.

The columns of the CSV file match all the fields of the records in the `dataProvider` response. That means that the export doesn't take into account the selection and ordering of fields in your `<List>` via `Field` components. If you want to customize the result, pass a custom `exporter` function to the `<List>`. This function will receive the data from the `dataProvider` (after step 1) and replace steps 2-3 (i.e. it's in charge of transforming, converting, and downloading the file).

**\*\*Tip\*\*:** For CSV conversion, you can import `[jsonexport](https://github.com/kauegimenes/jsonexport#browser-import-examples)`, a CSV to JSON converter which is already a react-admin dependency. And for CSV download, take advantage of react-admin's `downloadCSV` function.

Here is an example for a Posts exporter, omitting, adding, and reordering fields:

```
```jsx
// in PostList.js
import { List, downloadCSV } from 'react-admin';
import jsonExport from 'jsonexport/dist';

const exporter = posts => {
  const postsForExport = posts.map(post => {
    const { backlinks, author, ...postForExport } = post; // omit backlinks and author
    postForExport.author_name = post.author.name; // add a field
    return postForExport;
  });
  jsonExport(postsForExport, {
    headers: ['id', 'title', 'author_name', 'body'] // order fields in the export
  }, (err, csv) => {
    downloadCSV(csv, 'posts'); // download as 'posts.csv' file
  });
};

const PostList = props => (
  <List {...props} exporter={exporter}>
    ...
  </List>
)
```
```

In many cases, you'll need more than simple object manipulation. You'll need to *augment* your objects based on relationships. For instance, the export for comments should include the title of the related post - but the export only exposes a `post_id` by default. For that purpose, the exporter receives a `fetchRelatedRecords` function as the second parameter. It fetches related records using your `dataProvider.getMany()` method and returns a promise.

Here is an example for a Comments exporter, fetching related Posts:

```
```jsx
// in CommentList.js
import { List, downloadCSV } from 'react-admin';
import jsonExport from 'jsonexport/dist';

const exporter = (records, fetchRelatedRecords) => {
  // will call dataProvider.getMany('posts', { ids: records.map(record => record.post_id) }), ignoring duplicate and
  // empty post_id
  fetchRelatedRecords(records, 'post_id', 'posts').then(posts => {
    const data = records.map(record => ({
      ...record,
      post_title: posts[record.post_id].title,
    }));
    jsonExport(data, {
      headers: ['id', 'post_id', 'post_title', 'body'],
    }, (err, csv) => {
      downloadCSV(csv, 'comments');
    });
  });
};

const CommentList = props => (
  <List {...props} exporter={exporter}>
    ...
  </List>
)
```
```

**\*\*Tip\*\*:** If you need to call another verb in the exporter, take advantage of the third parameter passed to the function: it's the `dataProvider` function.

**\*\*Tip\*\*:** The `<ExportButton>` limits the main request to the `dataProvider` to 1,000 records. If you want to increase or decrease this limit, pass a `maxResults` prop to the `<ExportButton>` in a custom `<ListActions>` component, as explained in the previous section.

**\*\*Tip\*\*:** React-admin also provides a `<BulkExportButton>` component that depends on the `exporter`, and that you can use in the `bulkActionButtons` prop of the `<List>` component.

**\*\*Tip\*\*:** For complex (or large) exports, fetching all the related records and assembling them client-side can be slow. In that case, create the CSV on the server side, and replace the `<ExportButton>` component by a custom one, fetching the CSV route.

**\*\*Tip\*\*:** You may also remove the `<ExportButton>` by passing `false` to the `exporter` prop: `exporter={false}`

**\*\*Tip\*\*:** Looking for an `<ImportButton>`? React-admin doesn't provide this feature, but the community has an excellent third-party module for CSV import: [benwinding/react-admin-import-csv](https://github.com/benwinding/react-admin-import-csv).

### ### `bulkActionButtons`

![Bulk Action Buttons](./img/bulk-actions-toolbar.gif)

Bulk action buttons are buttons that affect several records at once, like mass deletion for instance. In the `<Datagrid>` component, the bulk actions toolbar appears when a user ticks the checkboxes in the first column of the table. The user can then choose a button from the bulk actions toolbar. By default, all list views have a single bulk action button, the bulk delete button. You can add other bulk action buttons by passing a custom element as the `bulkActionButtons` prop of the `<List>` component:

```
```jsx
import * as React from 'react';
import { Fragment } from 'react';
import Button from '@material-ui/core/Button';
import { BulkDeleteButton } from 'react-admin';
import ResetViewsButton from './ResetViewsButton';

const PostBulkActionButtons = props => (
  <Fragment>
    <ResetViewsButton label="Reset Views" {...props} />
    { /* default bulk delete action */ }
    <BulkDeleteButton {...props} />
  </Fragment>
);

export const PostList = (props) => (
  <List {...props} bulkActionButtons={ <PostBulkActionButtons /> }>
    ...
  </List>
);
```
```

**\*\*Tip\*\*:** React-admin provides three components that you can use in `bulkActionButtons`: `<BulkDeleteButton>`, `<BulkUpdateButton>`, and `<BulkExportButton>`.

**\*\*Tip\*\*:** You can also disable bulk actions altogether by passing `false` to the `bulkActionButtons` prop. When using a `Datagrid` inside a `List` with disabled bulk actions, the checkboxes column won't be added.

Bulk action button components receive several props allowing them to perform their job:

\* `resource`: the currently displayed resource (eg `posts`, `comments`, etc.)

- \* `basePath`: the current router base path for the resource (eg `/posts`, `/comments`, etc.)
- \* `filterValues`: the filter values. This can be useful if you want to apply your action on all items matching the filter.
- \* `selectedIds`: the identifiers of the currently selected items.

Here is an example of `BulkUpdateButton` usage, which sets the `views` property of all posts to `0` optimistically:

```

```jsx
// in ./ResetViewsButton.js
import * as React from 'react';
import { VisibilityOff } from '@material-ui/icons';
import { BulkUpdateButton } from 'react-admin';

const views = { views: 0 };

const ResetViewsButton = (props) => (
  <BulkUpdateButton
    {...props}
    label="Reset Views"
    data={views}
    icon={<VisibilityOff/>}
  />
);

export default ResetViewsButton;
```

```

You can also implement the same `ResetViewsButton` behind a confirmation dialog by using the `[mutationMode](./CreateEdit.md#mutationmode)` prop:

```

```diff
// in ./ResetViewsButton.js
import * as React from 'react';
import { VisibilityOff } from '@material-ui/icons';
import { BulkUpdateButton } from 'react-admin';

const views = { views: 0 };

const ResetViewsButton = (props) => (
  <BulkUpdateButton
    {...props}
    label="Reset Views"
    data={views}
    icon={VisibilityOff}
+   mutationMode="pessimistic"
  />
);

export default ResetViewsButton;
```

```

...

But let's say you need a customized bulkAction button, here is an example leveraging the `useUpdateMany` hook, which sets the `views` property of all posts to `0`:

```
```jsx
// in ./CustomResetViewsButton.js
import * as React from "react";
import {
  Button,
  useUpdateMany,
  useRefresh,
  useNotify,
  useUnselectAll,
} from 'react-admin';
import { VisibilityOff } from '@material-ui/icons';

const CustomResetViewsButton = ({ selectedIds }) => {
  const refresh = useRefresh();
  const notify = useNotify();
  const unselectAll = useUnselectAll();
  const [updateMany, { loading }] = useUpdateMany(
    'posts',
    selectedIds,
    { views: 0 },
    {
      onSuccess: () => {
        refresh();
        notify('Posts updated');
        unselectAll('posts');
      },
      onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
    }
  );

  return (
    <Button
      label="simple.action.resetViews"
      disabled={loading}
      onClick={updateMany}
    >
      <VisibilityOff />
    </Button>
  );
};

export default CustomResetViewsButton;
```
```

But most of the time, bulk actions are mini-applications with a standalone user interface (in a Dialog). Here is the same `CustomResetViewsAction` implemented behind a confirmation dialog:

```
``jsx
// in ./CustomResetViewsButton.js
import * as React from 'react';
import { Fragment, useState } from 'react';
import {
 Button,
 Confirm,
 useUpdateMany,
 useRefresh,
 useNotify,
 useUnselectAll,
} from 'react-admin';

const CustomResetViewsButton = ({ selectedIds }) => {
 const [open, setOpen] = useState(false);
 const refresh = useRefresh();
 const notify = useNotify();
 const unselectAll = useUnselectAll();
 const [updateMany, { loading }] = useUpdateMany(
 'posts',
 selectedIds,
 { views: 0 },
 {
 onSuccess: () => {
 refresh();
 notify('Posts updated');
 unselectAll('posts');
 },
 onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
 }
);
 const handleClick = () => setOpen(true);
 const handleDialogClose = () => setOpen(false);

 const handleConfirm = () => {
 updateMany();
 setOpen(false);
 };

 return (
 <Fragment>
 <Button label="Reset Views" onClick={handleClick} />
 <Confirm
 isOpen={open}

```

```

 loading={loading}
 title="Update View Count"
 content="Are you sure you want to reset the views for these items?"
 onConfirm={handleConfirm}
 onClose={handleDialogClose}
 />
 </Fragment>
);
}

```

```

export default CustomResetViewsButton;
...

```

**\*\*Tip\*\*:** `<Confirm>` leverages material-ui's `<Dialog>` component to implement a confirmation popup. Feel free to use it in your admins!

**\*\*Tip\*\*:** `<Confirm>` text props such as `title` and `content` are translatable. You can pass translation keys in these props. Note: `content` is only translatable when value is `string`, otherwise it renders the content as a `ReactNode`.

**\*\*Tip\*\*:** You can customize the text of the two `<Confirm>` component buttons using the `cancel` and `confirm` props which accept translation keys. You can customize the icons by setting the `ConfirmIcon` and `CancelIcon` props, which accept a `SvgIcon` type.

**\*\*Tip\*\*:** React-admin doesn't use the `<Confirm>` component internally, because deletes and updates are applied locally immediately, then dispatched to the server after a few seconds, unless the user chooses to undo the modification. That's what we call optimistic rendering. You can do the same for the `ResetViewsButton` by setting `undoable: true` in the last argument of `useUpdateMany()`, as follows:

```

```diff
// in ./CustomResetViewsButton.js
import * as React from "react";
import {
  Button,
  Confirm,
  useUpdateMany,
  useRefresh,
  useNotify,
  useUnselectAll,
} from 'react-admin';
import { VisibilityOff } from '@material-ui/icons';

const CustomResetViewsButton = ({ selectedIds }) => {
  const refresh = useRefresh();
  const notify = useNotify();
  const unselectAll = useUnselectAll();
  const [updateMany, { loading }] = useUpdateMany(
    'posts',
    selectedIds,

```

```

    { views: 0 },
    {
      onSuccess: () => {
        refresh();
-       notify('Posts updated');
+       notify('Posts updated', { undoable: true }); // the last argument forces the display of 'undo' in the
notification
        unselectAll('posts');
      },
      onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
+     mutationMode: 'undoable'
    }
  );

  return (
    <Button
      label="simple.action.resetViews"
      disabled={loading}
      onClick={updateMany}
    >
      <VisibilityOff />
    </Button>
  );
};
```

```

### ### `filters`: Filter Inputs

![List Filters](./img/list\_filter.gif)

You can add an array of filter Inputs to the List using the `filters` prop:

```

```jsx
const postFilters = [
  <TextInput label="Search" source="q" alwaysOn />,
  <TextInput label="Title" source="title" defaultValue="Hello, World!" />,
];

export const PostList = (props) => (
  <List {...props} filters={postFilters}>
    ...
  </List>
);
```

```

**\*\*Tip\*\*:** Don't mix up this `filters` prop, expecting an array of `` elements, with the `filter` props, which expects an object to define permanent filters (see below).

Filter Inputs are regular inputs. `<List>` hides them all by default, except those that have the `alwaysOn` prop.

You can also display filters as a sidebar:

(./img/filter-sidebar.gif)

For more details about customizing filters, see the [Filtering the List](#filtering-the-list) section.

### ### `filter`: Permanent Filter

You can choose to always filter the list, without letting the user disable this filter - for instance to display only published posts. Write the filter to be passed to the data provider in the `filter` props:

```
{% raw %}
```jsx
// in src/posts.js
export const PostList = (props) => (
  <List {...props} filter={{ is_published: true }}>
    ...
  </List>
);
```
{% endraw %}
```

The actual filter parameter sent to the data provider is the result of the combination of the `user` filters (the ones set through the `filters` component prop), and the `permanent` filter. The user cannot override the permanent filters set by way of `filter`.

### ### `filterDefaultValues`

To set default values to filters, you can either pass an object literal as the `filterDefaultValues` prop of the `<List>` element, or use the `defaultValue` prop of any input component.

There is one exception: inputs with `alwaysOn` don't accept `defaultValue`. You have to use the `filterDefaultValues` for those.

```
{% raw %}
```jsx
// in src/posts.js
const postFilters = [
  <TextInput label="Search" source="q" alwaysOn />,
  <BooleanInput source="is_published" alwaysOn />,
  <TextInput source="title" defaultValue="Hello, World!" />,
];

export const PostList = (props) => (
  <List {...props} filters={postFilters} filterDefaultValues={{ is_published: true }}>
    ...
  </List>
);
```
{% endraw %}
```

```
</List>
);
...
{% endraw %}
```

**\*\*Tip\*\***: The `filter` and `filterDefaultValues` props have one key difference: the `filterDefaultValues` can be overridden by the user, while the `filter` values are always sent to the data provider. Or, to put it otherwise:

```
```js
const filterSentToDataProvider = { ...filterDefaultValues, ...filterChosenByUser, ...filter };
...

```

`perPage`: Pagination Size

By default, the list paginates results by groups of 10. You can override this setting by specifying the `perPage` prop:

```
```jsx
// in src/posts.js
export const PostList = (props) => (
 <List {...props} perPage={25}>
 ...
 </List>
);
...

```

### ### `sort`: Default Sort Field & Order

Pass an object literal as the `sort` prop to determine the default `field` and `order` used for sorting:

```
{% raw %}
```jsx
// in src/posts.js
export const PostList = (props) => (
  <List {...props} sort={{ field: 'published_at', order: 'DESC' }}>
    ...
  </List>
);
...
{% endraw %}
```

`sort` defines the *default* sort order ; the list remains sortable by clicking on column headers.

For more details on list sort, see the [\[Sorting The List\]\(#sorting-the-list\)](#) section below.

`pagination`: Pagination Component

The `pagination` prop allows to replace the default pagination controls by your own.

```

```jsx
// in src/MyPagination.js
import { Pagination, List } from 'react-admin';

const PostPagination = props => <Pagination rowsPerPageOptions={[10, 25, 50, 100]} {...props} />;

export const PostList = (props) => (
 <List {...props} pagination={<PostPagination />}>
 ...
 </List>
);
```

```

See [Paginating the List](#paginating-the-list) below for details.

`aside`: Aside Component

You may want to display additional information on the side of the list. Use the `aside` prop for that, passing the component of your choice:

```

{% raw %}
```jsx
const Aside = () => (
 <div style={{ width: 200, margin: '1em' }}>
 <Typography variant="h6">Post details</Typography>
 <Typography variant="body2">
 Posts will only be published once an editor approves them
 </Typography>
 </div>
);

const PostList = props => (
 <List aside={<Aside />} {...props}>
 ...
 </List>
);
```
{% endraw %}

```

The `aside` component can call the `useListContext()` hook to receive the same props as the `List` child component, including the following:

- * `basePath`,
- * `currentSort`,
- * `data`,
- * `defaultTitle`,
- * `filterValues`,
- * `ids`,

```
* `page`,
* `perPage`,
* `resource`,
* `selectedIds`,
* `total`,
* `version`,
```

That means you can display additional details of the current list in the aside component:

```
{% raw %}
```jsx
const Aside = () => {
 const { data, ids } = useListContext();
 return (
 <div style={{ width: 200, margin: '1em' }}>
 <Typography variant="h6">Posts stats</Typography>
 <Typography variant="body2">
 Total views: {ids.map(id => data[id]).reduce((sum, post) => sum + post.views, 0)}
 </Typography>
 </div>
);
};
```
{% endraw %}
```

`empty`: Empty Page Component

When there is no result, and there is no active filter, and the resource has a create page, react-admin displays a special page inviting the user to create the first record.

You can use the `empty` prop to replace that page by a custom component:

```
{% raw %}
```jsx
import Box from '@material-ui/core/Box';
import Button from '@material-ui/core/Button';
import Typography from '@material-ui/core/Typography';
import { CreateButton, List, useListContext } from 'react-admin';

const Empty = () => {
 const { basePath, resource } = useListContext();
 return (
 <Box textAlign="center" m={1}>
 <Typography variant="h4" paragraph>
 No products available
 </Typography>
 <Typography variant="body1">
 Create one or import from a file
 </Typography>
 </Box>
);
};
```
{% endraw %}
```

```

    </Typography>
    <CreateButton basePath={basePath} />
    <Button onClick={/* ... */}>Import</Button>
  </Box>
);
};

const ProductList = props => (
  <List empty={<Empty />} {...props}>
    ...
  </List>
);
...

{% endraw %}

```

The `empty` component can call the `useListContext()` hook to receive the same props as the `List` child component, including the following:

- `basePath`,
- `currentSort`,
- `data`,
- `defaultTitle`,
- `filterValues`,
- `ids`,
- `page`,
- `perPage`,
- `resource`,
- `selectedIds`,
- `total`,
- `version`,

You can also set the `empty` props value to `false` to bypass the empty page display and render an empty list instead.

```

...
import { List } from 'react-admin';

const ProductList = props => (
  <List empty={false} {...props}>
    ...
  </List>
);
...

### `component`

```

By default, the List view renders the main content area inside a material-ui `` element. The actual layout of the list depends on the child component you're using (`<Datagrid>`, `

Some List layouts display each record in a ``, in which case the user ends up seeing a card inside a card, which is bad UI. To avoid that, you can override the main area container by passing a `component` prop:

```
```jsx
// use a div as root component
const PostList = props => (
 <List component="div" {...props}>
 ...
 </List>
);

// use a custom component as root component
const PostList = props => (
 <List component={MyComponent} {...props}>
 ...
 </List>
);
```
```

The default value for the `component` prop is `Card`.

Synchronize With URL

When a `

` based component (eg: ``) is passed as a ``, react-admin synchronizes its parameters (sort, pagination, filters) with the query string in the URL (using `react-router` location). It does so by setting the `

` prop by default.

When you use a `

` component anywhere else than as ``, `syncWithLocation` isn't enabled, and so `

` doesn't synchronize its parameters with the URL - the `

` parameters are kept in a local state, independent for each `

` instance. This allows to have multiple lists on a single page. The drawback is that a hit on the "back" button doesn't restore the previous list parameters.

You may, however, wish to enable `syncWithLocation` on a `

` component that is not a ``. For instance, you may want to display a `

` of Posts in a Dashboard, and allow users to use the "back" button to undo a sort, pagination, or filter change on that list. In such cases, set the `syncWithLocation` prop to `true`:

```
{% raw %}
```jsx
const Dashboard = () => (
 <div>
 // ...
 <ResourceContextProvider value="posts">
 <List syncWithLocation basePath="/posts" >
 <SimpleList
 primaryText={record => record.title}
 secondaryText={record => `${record.views} views`}
 tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
 >
 </List>
 </ResourceContextProvider>
 </div>
);
```
```

```

    />
  </List>
</ResourceContextProvider>
</div>
)
...
{% endraw %}

```

CSS API

The `List` component accepts the usual `className` prop but you can override many class names injected to the inner components by React-admin thanks to the `classes` property (as most Material UI components, see their [documentation about it](https://v4.mui.com/customization/components/#overriding-styles-with-classes)). This property accepts the following keys:

| Rule name | Description |
|------------------------|--|
| `root` | Alternative to using `className`. Applied to the root element |
| `actions` | Applied to the actions container |
| `main` | Applied to the main container |
| `content` | Applied to the child component inside the main container |
| `bulkActionsDisplayed` | Applied to the child component inside the main container when there are selected records |
| `noResults` | Applied to the component shown when there is no result |

You can customize the `

` styles by passing a `classes` object as prop, through `useStyles()`. Here is an example:

```

{% raw %}
```jsx
import * as React from 'react';
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles({
 actions: {
 backgroundColor: '#ccc',
 },
});

const PostList = props => {
 const classes = useStyles(props);
 return (
 <List {...props} classes={{ actions: classes.actions }}>
 <Datagrid>
 ...
 </Datagrid>
 </List>
);
}

```

```
}
```

```
export default PostList;
```

```
...
```

```
{% endraw % }
```

**\*\*Tip\*\*:** The `List` component `classes` can also be customized for all instances of the component with its global css name `"RaList"` as [describe here](https://marmelab.com/blog/2019/12/18/react-admin-3-1.html#theme-overrides)

## ## Filtering The List

```
<table><tbody><tr style="border:none">
<td style="width:50%;border:none;">

</td>
<td style="width:50%;border:none;">

</td>
</tr></tbody></table>
```

One of the most important features of the List page is the ability to filter the results. React-admin does its best to offer a powerful filter functionality, and to get out of the way when you want to go further.

The next sections explain how to use the filter functionality. And first, a few explanations about the inner workings of filters:

- [Filter Query Parameter](#filter-query-parameter)
- [Linking To A Pre-Filtered List](#linking-to-a-pre-filtered-list)

React-admin proposes several UI components to let users see and modify filters, and gives you the tools to build custom ones.

- The Filter Button/Form Combo
  - [Usage](#the-filter-buttonform-combo)
  - [Full-Text Search](#full-text-search)
  - [Quick Filters](#quick-filters)
- The `FilterList` Sidebar
  - [Usage](#the-filterlist-sidebar)
  - [Full-Text Search](#live-search)
- [Saved Queries: Let Users Save Filter And Sort](#saved-queries-let-users-save-filter-and-sort)
- [Building A Custom Filter](#building-a-custom-filter)

### ### Filter Query Parameter

React-admin uses the `filter` query parameter from the URL to determine the filters to apply to the list. To change the filters, react-admin simply changes this `filter` query parameter, and the `List` components fetches `dataProvider.getList()` again with the new filters.

Here is a typical List URL:

```
>
https://myadmin.dev/#/posts?displayedFilters=%7B%22commentable%22%3Atrue%7D&filter=%7B%22commentable%22%3Atrue%2C%22q%22%3A%22lorem%20%22%7D&order=DESC&page=1&perPage=10&sort=published_at
```

Once decoded, the `filter` query parameter reveals as a JSON value:

```
...
filter={"commentable":true,"q":"lorem "}
...
```

You can change the filters by updating the query parameter, e.g. using the ``<Link>`` component or the ``history.push()`` method from `react-router`.

**\*\*Tip\*\*:** Once a user sets a filter, react-admin persists the filter value in the application state, so that when the user comes back to the list, they should see the filtered list. That's a design choice.

### ### Linking To A Pre-Filtered List

As the filter values are taken from the URL, you can link to a pre-filtered list by setting the `filter` query parameter.

For instance, if you have a list of tags, you can display a button for each category to link to the list of posts filtered by that tag:

```
{% raw %}
```jsx
import * as React from "react";
import Button from '@material-ui/core/Button';
import { Link } from 'react-router-dom';

const LinkToRelatedProducts = ({ record }) => {
  const translate = useTranslate();
  return record ? (
    <Button
      color="primary"
      component={Link}
      to={{
        pathname: '/posts',
        search: `filter=${JSON.stringify({ category_id: record.id })}`,
      }}
    >
      All posts with the category {record.name} ;
    </Button>
  ) : null;
};
```

```
...
{% endraw % }
```

You can use this button e.g. as a child of `<Datagrid>`. You can also create a custom Menu button with that technique to link to the unfiltered list by setting the filter value to `{}`.

The Filter Button/Form Combo

![List Filters](./img/list_filter.gif)

The default appearance for filters is an inline form displayed on top of the list. Users also see a dropdown button allowing to add more inputs to that form. This functionality relies on the `filters` prop:

```
```jsx
import { TextInput } from 'react-admin';

const postFilters = [
 <TextInput label="Search" source="q" alwaysOn />,
 <TextInput label="Title" source="title" defaultValue="Hello, World!" />,
];
...
```
```

Elements of the `filters` array are regular inputs. That means you can build sophisticated filters based on references, array values, etc. `<List>` hides all inputs in the filter form by default, except those that have the `alwaysOn` prop.

****Tip**:** For technical reasons, react-admin does not accept Filter inputs having both a `defaultValue` and `alwaysOn`. To set default values for always on filters, use the `[filterDefaultValues](#filterdefaultvalues)` prop of the `<List>` component instead.

To inject the filter form in a `<List>`, use the `filters` prop:

```
```jsx
export const PostList = (props) => (
 <List {...props} filters={postFilters}>
 ...
 </List>
);
...
```
```

`<List>` uses the elements passed as `filters` twice:

- once to render the filter *form*
- once to render the filter *button* (using each element `label`, falling back to the humanized `source`)

Full-Text Search

![<SearchInput>](./img/search_input.gif)

In addition to [the usual input types](./Inputs.md) (`<TextInput>`, `<SelectInput>`, `<ReferenceInput>`, etc.), you can use the `<SearchInput>`, which is designed especially for the filter form. It's like a `<TextInput resettable>` with a magnifier glass icon - exactly the type of input users look for when they want to do a full-text search.

```
```jsx
import { SearchInput, TextInput } from 'react-admin';

const postFilters = [
 <SearchInput source="q" alwaysOn />
];
...

```

In the example given above, the `q` filter triggers a full-text search on all fields. It's your responsibility to implement the full-text filtering capabilities in your `dataProvider`, or in your API.

#### #### Quick Filters

![`<QuickFilter>`](./img/quick\_filters.gif)

Users usually dislike using their keyboard to filter a list (especially on mobile). A good way to satisfy this user requirement is to turn filters into \*quick filter\*. A Quick filter is a filter with a non-editable `defaultValue`. Users can only enable or disable them.

Here is how to implement a generic `<QuickFilter>` component:

```
```jsx
import { SearchInput } from 'react-admin';
import { makeStyles, Chip } from '@material-ui/core';

const useQuickFilterStyles = makeStyles(theme => ({
  chip: {
    marginBottom: theme.spacing(1),
  },
}));

const QuickFilter = ({ label }) => {
  const translate = useTranslate();
  const classes = useQuickFilterStyles();
  return <Chip className={classes.chip} label={translate(label)} />;
};

const postFilters = [
  <SearchInput source="q" alwaysOn />,
  <QuickFilter source="commentable" label="Commentable" defaultValue={true} />,
  <QuickFilter source="views_lte" label="Low views" defaultValue={150} />,
  <QuickFilter source="tags" label="Tagged Code" defaultValue={['3']} />,
];
...

```

****Tip**:** It's currently not possible to use two quick filters for the same source.

The `` Sidebar

![Filter Sidebar](./img/filter-sidebar.gif)

An alternative UI to the Filter Button/Form Combo is the FilterList Sidebar. Similar to what users usually see on e-commerce websites, it's a panel with many simple filters that can be enabled and combined using the mouse. The user experience is better than the Button/Form Combo, because the filter values are explicit, and it doesn't require typing anything in a form. But it's a bit less powerful, as only filters with a finite set of values (or intervals) can be used in the ``.

Basic usage

The `` component expects a list of `` as children. Each `` defines a filter `label` and a `value`, which is merged with the current filter value when enabled by the user. Here is an example usage for a list of customers:

```
{% raw %}
```jsx
import * as React from 'react';
import AccessTimeIcon from '@material-ui/icons/AccessTime';
import MonetizationOnIcon from '@material-ui/icons/MonetizationOnOutlined';
import MailIcon from '@material-ui/icons/MailOutline';
import LocalOfferIcon from '@material-ui/icons/LocalOfferOutlined';
import { FilterList, FilterListItem } from 'react-admin';
import {
 endOfYesterday,
 startOfWeek,
 subWeeks,
 startOfMonth,
 subMonths,
} from 'date-fns';

import segments from '../segments/data';

const LastVisitedFilter = () => (
 <FilterList label="Last visited" icon={<AccessTimeIcon />}>
 <FilterListItem
 label="Today"
 value={{
 last_seen_gte: endOfYesterday().toISOString(),
 last_seen_lte: undefined,
 }}
 />
 <FilterListItem
 label="This week"
 value={{
```

```

 last_seen_gte: startOfWeek(new Date()).toISOString(),
 last_seen_lte: undefined,
 }}
/>
<FilterListItem
 label="Last week"
 value={{
 last_seen_gte: subWeeks(startOfWeek(new Date()), 1).toISOString(),
 last_seen_lte: startOfWeek(new Date()).toISOString(),
 }}
/>
<FilterListItem
 label="This month"
 value={{
 last_seen_gte: startOfMonth(new Date()).toISOString(),
 last_seen_lte: undefined,
 }}
/>
<FilterListItem
 label="Last month"
 value={{
 last_seen_gte: subMonths(startOfMonth(new Date()),1).toISOString(),
 last_seen_lte: startOfMonth(new Date()).toISOString(),
 }}
/>
<FilterListItem
 label="Earlier"
 value={{
 last_seen_gte: undefined,
 last_seen_lte: subMonths(startOfMonth(new Date()),1).toISOString(),
 }}
/>
</FilterList>
);
const HasOrderedFilter = () => (
 <FilterList
 label="Has ordered"
 icon={<MonetizationOnIcon />}
 >
 <FilterListItem
 label="True"
 value={{
 nb_commands_gte: 1,
 nb_commands_lte: undefined,
 }}
 />
 <FilterListItem
 label="False"

```

```

 value={{
 nb_commands_gte: undefined,
 nb_commands_lte: 0,
 }}
 />
 </FilterList>
);
 const HasNewsletterFilter = () => (
 <FilterList
 label="Has newsletter"
 icon={<MailIcon />}
 >
 <FilterListItem
 label="True"
 value={{ has_newsletter: true }}
 />
 <FilterListItem
 label="False"
 value={{ has_newsletter: false }}
 />
 </FilterList>
);
 const SegmentFilter = () => (
 <FilterList
 label="Segment"
 icon={<LocalOfferIcon />}
 >
 {segments.map(segment => (
 <FilterListItem
 label={segment.name}
 key={segment.id}
 value={{ groups: segment.id }}
 />
))}
 </FilterList>
);
 ...
 {% endraw %}

```

#### #### Placing Filters In A Sidebar

You can place these `<FilterList>` anywhere inside a `<List>`. The most common case is to put them in a sidebar that is on the left-hand side of the `<Datagrid>`. You can use the `aside` property for that:

```

```jsx
import * as React from 'react';
import { Card as MuiCard, CardContent, withStyles } from '@material-ui/core';

```

```
import { LastVisitedFilter, HasOrderedFilter, HasNewsletterFilter, SegmentFilter } from './filters';
```

```
const Card = withStyles(theme => ({
  root: {
    [theme.breakpoints.up('sm')]: {
      order: -1, // display on the left rather than on the right of the list
      width: '15em',
      marginRight: '1em',
    },
    [theme.breakpoints.down('sm')]: {
      display: 'none',
    },
  },
}))(MuiCard);
```

```
const FilterSidebar = () => (
  <Card>
    <CardContent>
      <LastVisitedFilter />
      <HasOrderedFilter />
      <HasNewsletterFilter />
      <SegmentFilter />
    </CardContent>
  </Card>
);
```

```
const CustomerList = props => (
  <List aside={<FilterSidebar />}>
    // ...
  </List>
)
...
```

****Tip**:** The `<FilterList>` Sidebar is not a good UI for small screens. You can choose to hide it on small screens (as in the previous example). A good tradeoff is to use `<FilterList>` on large screens, and the Filter Button/Form combo on Mobile.

Live Search

```
![Filter Live Search](./img/filter-live-search.gif)
```

The filter sidebar is not a form. Therefore, if your users need to enter complex filters, you'll have to recreate a filter form using react-final-form (see the [Building a custom filter](#building-a-custom-filter) section below for an example). However, if you only need one text input with a filter-as-you-type behavior, you'll find the `<FilterLiveSearch>` component convenient.

It outputs a form containing a single `<SearchInput>`, which modifies the page filter on change. That's usually what users expect for a full-text filter. `<FilterLiveSearch>` only needs a `source` field.

So for instance, to add a search filter on the customer full name, add the following line to the Sidebar:

```
```diff
+import { FilterLiveSearch } from 'react-admin';

const FilterSidebar = () => (
 <Card>
 <CardContent>
+ <FilterLiveSearch source="full_name" />
 <LastVisitedFilter />
 <HasOrderedFilter />
 <HasNewsletterFilter />
 <SegmentFilter />
 </CardContent>
</Card>
);
```
```

Saved Queries: Let Users Save Filter And Sort

[![Saved Queries in FilterList](https://marmelab.com/ra-enterprise/modules/assets/ra-preferences-SavedQueriesList.gif)](https://marmelab.com/ra-enterprise/modules/assets/ra-preferences-SavedQueriesList.gif)

Saved Queries are an [Enterprise Edition](https://marmelab.com/ra-enterprise) feature letting users save a combination of filters and sort parameters into a new, personal filter. Saved queries persist between sessions, so users can find their custom queries even after closing and reopening the admin. Saved queries are available both for the Filter Button/Form combo and for the `<FilterList>` Sidebar:

- `<FilterWithSave>` is a drop-in replacement for react-admin's `<Filter>` component

```
```diff
import {
- Filter,
 SelectInput,
 DateInput,
 List,
 Datagrid,
 TextField,
 NumberField,
 DateField
} from 'react-admin';
+import { FilterWithSave } from '@react-admin/ra-preferences';

const SongFilter = props => (
- <Filter {...props}>
+ <FilterWithSave {...props}>

```

```

<SelectInput
 choices={[
 { id: 'Apple', name: 'Apple' },
 { id: 'Atlantic', name: 'Atlantic' },
 { id: 'Capitol', name: 'Capitol' },
 { id: 'Chess', name: 'Chess' },
 { id: 'Columbia', name: 'Columbia' },
 { id: 'DGC', name: 'DGC' },
 { id: 'London', name: 'London' },
 { id: 'Tamla', name: 'Tamla' },
]}
 source="recordCompany"
/>
<DateInput source="released_gte" label="Released after" />
<DateInput source="released_lte" label="Released before" />
- </Filter>
+ </FilterWithSave>
);

```

```

const SongList = props => (
 <List {...props} filters={}<SongFilter />>
 <Datagrid rowClick="edit">
 <TextField source="title" />
 <TextField source="artist" />
 <TextField source="writer" />
 <TextField source="producer" />
 <TextField source="recordCompany" />
 <NumberField source="rank" />
 <DateField source="released" />
 </Datagrid>
 </List>
);
```

```

- `<SavedFilterList>` is a complement to `<FilterList>` sections for the filter sidebar

```

```diff
import { FilterList, FilterListItem, List, Datagrid } from 'react-admin';
import { Card, CardContent } from '@material-ui/core';

+import { SavedQueriesList } from '@react-admin/ra-preferences';

const SongFilterSidebar = () => (
 <Card>
 <CardContent>
+ <SavedQueriesList />
 <FilterList label="Record Company" icon={}<BusinessIcon />>
 ...

```

```

 </FilterList>
 <FilterList label="Released" icon={<DateRangeIcon />}>
 ...
 </FilterList>
 </CardContent>
</Card>
);

const SongList = props => (
 <List {...props} aside={<SongFilterSidebar />}>
 <Datagrid>
 ...
 </Datagrid>
 </List>
);
...

```

For more details about Saved Queries, check the [ `ra-preferences` module ](<https://marmelab.com/react-admin/enterprise/modules/ra-preferences#savedquerieslist-and-filterwithsave-store-user-queries-in-preferences>) in React-Admin Enterprise Edition.

### ### Building a Custom Filter

! [Filters with submit button] (./img/filter\_with\_submit.gif)

If neither the Filter button/form combo nor the `<FilterList>` sidebar match your need, you can always build your own. React-admin provides shortcuts to facilitate the development of custom filters.

For instance, by default, the filter button/form combo doesn't provide a submit button, and submits automatically after the user has finished interacting with the form. This provides a smooth user experience, but for some APIs, it can cause too many calls.

In that case, the solution is to process the filter when users click on a submit button, rather than when they type values in form inputs. React-admin doesn't provide any component for that, but it's a good opportunity to illustrate the internals of the filter functionality. We'll actually provide an alternative implementation to the Filter button/form combo.

To create a custom filter UI, we'll have to override the default List Actions component, which will contain both a Filter Button and a Filter Form, interacting with the List filters via the ListContext.

#### #### Filter Callbacks

The new element can use the `useListContext()` hook to interact with the URI query parameter more easily. The hook returns the following constants:

- `filterValues`: Value of the filters based on the URI, e.g. `{ "commentable": true, "q": "lorem " }`
- `setFilters()`: Callback to set the filter values, e.g. `setFilters({ "commentable": true })`
- `displayedFilters`: Names of the filters displayed in the form, e.g. `[ 'commentable', 'title' ]`

- `showFilter()`: Callback to display an additional filter in the form, e.g. `showFilter('views')`
- `hideFilter()`: Callback to hide a filter in the form, e.g. `hideFilter('title')`

Let's use this knowledge to write a custom `<List>` component that filters on submit.

#### #### Custom Filter Button

The `<PostFilterButton>` shows the filter form on click. We'll take advantage of the `showFilter` function:

```

```jsx
import { useListContext } from 'react-admin';
import { Button } from "@material-ui/core";
import ContentFilter from "@material-ui/icons/FilterList";

const PostFilterButton = () => {
  const { showFilter } = useListContext();
  return (
    <Button
      size="small"
      color="primary"
      onClick={() => showFilter("main")}
      startIcon={<ContentFilter />}
    >
      Filter
    </Button>
  );
};
```

```

Normally, `showFilter()` adds one input to the `displayedFilters` list. As the filter form will be entirely hidden or shown, we use `showFilter()` with a virtual "main" input, which represents the entire form.

#### #### Custom Filter Form

Next is the filter form component, displayed only when the "main" filter is displayed (i.e. when a user has clicked the filter button). The form inputs appear directly in the form, and the form submission triggers the `setFilters()` callback passed as parameter. We'll use `react-final-form` to handle the form state:

```

{% raw %}
```jsx
import * as React from 'react';
import { Form } from 'react-final-form';
import { Box, Button, InputAdornment } from '@material-ui/core';
import SearchIcon from '@material-ui/icons/Search';
import { TextInput, NullableBooleanInput, useListContext } from 'react-admin';

const PostFilterForm = () => {
  const {

```

```

displayedFilters,
filterValues,
setFilters,
hideFilter
} = useListContext();

if (!displayedFilters.main) return null;

const onSubmit = (values) => {
  if (Object.keys(values).length > 0) {
    setFilters(values);
  } else {
    hideFilter("main");
  }
};

const resetFilter = () => {
  setFilters({}, []);
};

return (
  <div>
    <Form onSubmit={onSubmit} initialValues={filterValues}>
      {{{ handleSubmit }} => (
        <form onSubmit={handleSubmit}>
          <Box display="flex" alignItems="flex-end" mb={1}>
            <Box component="span" mr={2}>
              /* Full-text search filter. We don't use <SearchFilter> to force a large form input */
              <TextInput
                resettable
                helperText={false}
                source="q"
                label="Search"
                InputProps={{
                  endAdornment: (
                    <InputAdornment>
                      <SearchIcon color="disabled" />
                    </InputAdornment>
                  )
                }}
              />
            </Box>
            <Box component="span" mr={2}>
              /* Commentable filter */
              <NullableBooleanInput helperText={false} source="commentable" />
            </Box>
            <Box component="span" mr={2} mb={1.5}>
              <Button variant="outlined" color="primary" type="submit">

```

```

        Filter
      </Button>
    </Box>
    <Box component="span" mb={1.5}>
      <Button variant="outlined" onClick={resetFilter}>
        Close
      </Button>
    </Box>
  </Box>
</form>
  )}
</Form>
</div>
);
};
...
{% endraw %}

```

Using The Custom Filters in The List Actions

To finish, create a `<ListAction>` component and pass it to the `<List>` component using the `actions` prop:

```

```jsx
import { TopToolbar, ExportButton } from 'react-admin';
import { Box } from '@material-ui/core';

const ListActions = () => (
 <Box width="100%">
 <TopToolbar>
 <PostFilterButton />
 <ExportButton />
 </TopToolbar>
 <PostFilterForm />
 </Box>
);

export const PostList = (props) => (
 <List {...props} actions={<ListActions />}>
 ...
 </List>
);
...

```

**\*\*Tip\*\*:** No need to pass any `filters` to the list anymore, as the `<PostFilterForm>` component will display them.

You can use a similar approach to offer alternative User Experiences for data filtering, e.g. to display the filters as a line in the datagrid headers.

### ### Global Search

Although list filters allow to make precise queries using per-field criteria, users often prefer simpler interfaces like full-text search. After all, that's what they use every day on search engines, email clients, and in their file explorer.

If you want to display a full-text search allowing to look for any record in the admin using a single form input, check out [\[ra-search\]](https://marmelab.com/ra-enterprise/modules/ra-search)(https://marmelab.com/ra-enterprise/modules/ra-search), an [\[Enterprise Edition\]](https://marmelab.com/ra-enterprise)(https://marmelab.com/ra-enterprise)  module.

![\[ra-search basic\]](https://marmelab.com/ra-enterprise/modules/assets/ra-search-overview.gif)(https://marmelab.com/ra-enterprise/modules/assets/ra-search-overview.gif)

``ra-search`` can plug to any existing search engine (ElasticSearch, Lucene, or custom search engine), and lets you customize the search results to provide quick navigation to related items, turning the search engine into an "Omnibox":

![\[ra-search demo\]](https://marmelab.com/ra-enterprise/modules/assets/ra-search-demo.gif)(https://marmelab.com/ra-enterprise/modules/assets/ra-search-demo.gif)

For more details about the global search, check the `[`ra-search` module]`(https://marmelab.com/ra-enterprise/modules/ra-search) in React-Admin Enterprise Edition.

### ## Sorting The List

```
<table><tbody><tr style="border:none">
<td style="width:55%;border:none;">
<a title="<Datagrid> column sort" href="/img/sort-column-header.gif">
</td>
<td style="width:45%;border:none;">
<a title="<SortButton> Component" href="/img/sort-button.gif">
</td>
</tr></tbody></table>
```

React-admin does its best to offer a powerful sort functionality, and to get out of the way when you want to go further.

The next sections explain how to use the sort functionality. And first, a few explanations about the inner workings of sorting in react-admin:

- [\[Sort Query Parameter\]](#)(#sort-query-parameter)
- [\[Linking To A Pre-Sorted List\]](#)(#linking-to-a-pre-sorted-list)

React-admin proposes several UI components to let users see and modify sort parameters, and gives you the tools to build custom ones.

- The `<Datagrid>` Column Headers
- [\[Usage\]](#)(#using-datagrid-headers-to-modify-list-sort)
- [\[Disabling Sorting\]](#)(#disabling-sorting)
- [\[Specifying A Sort Field\]](#)(#specifying-a-sort-field)

- [Specifying The Sort Order](#specifying-the-sort-order)
- The `` Component
- [Usage](#the-sortbutton-component)
- [Building A Custom Sort Control](#building-a-custom-sort-control)

### ### Sort Query Parameter

Just like for the filters, the List view uses the `sort` and `order` query parameters to determine the sort field and order passed to `dataProvider.getList`.

Here is a typical List URL:

```
>
https://myadmin.dev/#/posts?displayedFilters=%7B%22commentable%22%3Atrue%7D&filter=%7B%22commentable%22%3Atrue%2C%22q%22%3A%22lorem%20%22%7D&order=DESC&page=1&perPage=10&sort=published_at
```

Once decoded, this URL reveals the intended sort:

```
...
sort=published_at
order=DESC
...
```

### ### Linking to a Pre-Sorted List

As the sort values are taken from the URL, you can link to a pre-sorted list by setting the `sort` and `order` query parameters.

For instance, if you have a list of posts ordered by publication date, and you want to provide a button to sort the list by number of views descendent:

```
{% raw %}
```jsx
import * as React from "react";
import Button from '@material-ui/core/Button';
import { Link } from 'react-router-dom';
import { stringify } from 'query-string';
```

```
const SortByViews = () => (
  <Button
    color="primary"
    component={Link}
    to={{
      pathname: '/posts',
      search: stringify({
        page: 1,
        perPage: 25,
```

```

        sort: 'nb_views',
        order: 'DESC',
        filter: {},
    }},
  }},
  >
  Sort by views
</Button>
);
...
{% endraw %}

```

****Tip**:** You have to pass **all** the query string parameters - not just `sort` and `order`. That's a current limitation of react-admin.

Using Datagrid Headers To Modify List Sort

![Sort Column Header](./img/sort-column-header.gif)

If you're using a `<Datagrid>` inside the List view, then the column headers are buttons allowing users to change the list sort field and order. This feature requires no configuration and works out of the box. The next sections explain how you can disable or modify the field used for sorting on a particular column.

Disabling Sorting

It is possible to disable sorting for a specific `<Field>` by passing a `sortable` property set to `false`:

```

{% raw %}
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <TextField source="id" sortable={false} />
 <TextField source="title" />
 <TextField source="body" />
 </Datagrid>
 </List>
);
...
{% endraw %}

```

### ### Specifying A Sort Field

By default, a column is sorted by the `source` property. To define another attribute to sort by, set it via the `<Field`

sortBy>` property:

```
{% raw %}
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
  <List {...props}>
    <Datagrid>
      <ReferenceField label="Post" source="id" reference="posts" sortBy="title">
        <TextField source="title" />
      </ReferenceField>
      <FunctionField
        label="Author"
        sortBy="last_name"
        render={record => `${record.author.first_name} ${record.author.last_name}`}
      />
      <TextField source="body" />
    </Datagrid>
  </List>
);
...
{% endraw %}
```

Specifying The Sort Order

By default, when the user clicks on a column header, the list becomes sorted in the ascending order. You change this behavior by setting the `sortByOrder` prop to `DESC` in a `<Datagrid>` `<Field>`:

```
```jsx
// in src/posts.js
import * as React from 'react';
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <ReferenceField label="Post" source="id" reference="posts" sortByOrder="DESC">
 <TextField source="title" />
 </ReferenceField>
 <FunctionField
 label="Author"
 sortBy="last_name"
 sortByOrder="DESC"
 render={record => `${record.author.first_name} ${record.author.last_name}`}
 />
 </Datagrid>
 </List>
);
...
{% endraw %}
```

```

 <TextField source="body" />
 </Datagrid>
</List>
);
...

```

### ### The `<SortButton>` Component

![Sort Button](./img/sort-button.gif)

Some List views don't have a natural UI for sorting - e.g. the `<SimpleList>`, or a list of images, don't have column headers like the `<Datagrid>`. For these cases, react-admin offers the `<SortButton>`, which displays a dropdown list of fields that the user can choose to sort on.

`<SortButton>` expects one prop: `fields`, the list of fields it should allow to sort on. For instance, here is how to offer a button to sort on the `reference`, `sales`, and `stock` fields:

```

```jsx
import * as React from 'react';
import { TopToolbar, SortButton, CreateButton, ExportButton } from 'react-admin';

const ListActions = () => (
  <TopToolbar>
    <SortButton fields={['reference', 'sales', 'stock']} />
    <CreateButton basePath="/products" />
    <ExportButton />
  </TopToolbar>
);
...

```

Building a Custom Sort Control

When neither the `<Datagrid>` or the `<SortButton>` fit your UI needs, you have to write a custom sort control. As with custom filters, this boils down to grabbing the required data and callbacks from the `ListContext`. Let's use the `<SortButton>` source as an example usage of `currentSort` and `setSort`:

```

```jsx
import * as React from 'react';
import { Button, Menu, MenuItem, Tooltip, IconButton } from '@material-ui/core';
import SortIcon from '@material-ui/icons/Sort';
import ArrowDropDownIcon from '@material-ui/icons/ArrowDropDown';
import { useListSortContext, useTranslate } from 'react-admin';

const SortButton = ({ fields }) => {
 // currentSort is an object { field, order } containing the current sort
 // setSort is a callback (field, order) => void allowing to change the sort field and order
 const { currentSort, setSort } = useListSortContext();
 // rely on the translations to display labels like 'Sort by sales descending'

```

```

const translate = useTranslate();
// open/closed state for dropdown
const [anchorEl, setAnchorEl] = React.useState(null);

// mouse handlers
const handleClick = (event) => {
 setAnchorEl(event.currentTarget);
};
const handleClose = () => {
 setAnchorEl(null);
};
const handleChangeSort = (event) => {
 const field = event.currentTarget.dataset.sort;
 setSort(
 field,
 field === currentSort.field
 ? inverseOrder(currentSort.order)
 : 'ASC'
);
 setAnchorEl(null);
};

// English stranslation is 'Sort by % {field} % {order}'
const buttonLabel = translate('ra.sort.sort_by', {
 field: translate(`resources.products.fields.${currentSort.field}`),
 order: translate(`ra.sort.${currentSort.order}`),
});

return (<>
 <Button
 aria-controls="simple-menu"
 aria-haspopup="true"
 color="primary"
 onClick={handleClick}
 startIcon={<SortIcon />}
 endIcon={<ArrowDropDownIcon />}
 size="small"
 >
 {buttonLabel}
 </Button>
 <Menu
 id="simple-menu"
 anchorEl={anchorEl}
 keepMounted
 open={Boolean(anchorEl)}
 onClose={handleClose}
 >
 {fields.map(field => (

```

```

 <MenuItem
 onClick={handleChangeSort}
 // store the sort field in the element dataset to avoid creating a new click handler for each item (better for
performance)
 data-sort={field}
 key={field}
 >
 {translate(`resources.products.fields.${field}`)}{' '}
 {translate(
 `ra.sort.${
 currentSort.field === field
 ? inverseOrder(currentSort.order)
 : 'ASC'
 }`
)}
 </MenuItem>
)}
</Menu>
</>;
};

```

```
const inverseOrder = sort => (sort === 'ASC' ? 'DESC' : 'ASC');
```

```
export default SortButton;
```

```

Paginating the List

The `` Component

![Pagination buttons](./img/pagination-buttons.gif)

By default, the `

` uses the `` component for pagination. This component displays buttons to navigate between pages, including buttons for the surrounding pages.

By decorating this component, you can create your own variant with a different set of `perPage` options.

```

```jsx
// in src/MyPagination.js
import { Pagination } from 'react-admin';

const PostPagination = props => <Pagination rowsPerPageOptions={[10, 25, 50, 100]} {...props} />;
```

```

Then, to use this component instead of the default ``, use the `

` prop:

```

```jsx
import { List } from 'react-admin';

```

```
import PostPagination from './PostPagination';

export const PostList = (props) => (
 <List {...props} pagination={<PostPagination />}>
 ...
 </List>
);
...

```

**\*\*Tip\*\*:** Pass an empty array to `rowsPerPageOptions` to disable the rows per page selection.

### ### Building a Custom Pagination Control

The `<Pagination>` component gets the following constants from [the `useListContext` hook](#uselistcontext):

- \* `page`: The current page number (integer). First page is `1`.
- \* `perPage`: The number of records per page.
- \* `setPage`: `Function(page: number) => void`. A function that set the current page number.
- \* `total`: The total number of records.
- \* `actions`: A component that displays the pagination buttons (default: `<PaginationActions>`)
- \* `limit`: An element that is displayed if there is no data to show (default: `<PaginationLimit>`)

If you want to replace the default pagination by a "<previous - next>" pagination, create a pagination component like the following:

```
```jsx
import { useListContext } from 'react-admin';
import { Button, Toolbar } from '@material-ui/core';
import ChevronLeft from '@material-ui/icons/ChevronLeft';
import ChevronRight from '@material-ui/icons/ChevronRight';

const PostPagination = () => {
  const { page, perPage, total, setPage } = useListContext();
  const nbPages = Math.ceil(total / perPage) || 1;
  return (
    nbPages > 1 &&
    <Toolbar>
      {page > 1 &&
        <Button color="primary" key="prev" onClick={() => setPage(page - 1)}>
          <ChevronLeft />
          Prev
        </Button>
      }
      {page !== nbPages &&
        <Button color="primary" key="next" onClick={() => setPage(page + 1)}>
          Next
          <ChevronRight />
        </Button>
      }
    </Toolbar>
  )
}
```
```

```

 }
 </Toolbar>
);
}

export const PostList = (props) => (
 <List {...props} pagination={<PostPagination />}>
 ...
 </List>
);
...

```

But if you just want to change the color property of the pagination button, you can extend the existing components:

```

```jsx
import {
  List,
  Pagination as RaPagination,
  PaginationActions as RaPaginationActions,
} from 'react-admin';

export const PaginationActions = props => <RaPaginationActions {...props} color="secondary" />;

export const Pagination = props => <RaPagination {...props} ActionsComponent={PaginationActions} />;

export const UserList = props => (
  <List {...props} pagination={<Pagination />} >
    //...
  </List>
);
...

```

The `<ListGuesser>` Component

Instead of a custom `List`, you can use the `ListGuesser` to determine which fields to use based on the data returned by the API.

```

```jsx
// in src/App.js
import * as React from "react";
import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const App = () => (
 <Admin dataProvider={jsonServerProvider('https://jsonplaceholder.typicode.com')}>
 <Resource name="posts" list={ListGuesser} />
 </Admin>
);

```

...

Just like `<List>`, `<ListGuesser>` fetches the data. It then analyzes the response, and guesses the fields it should use to display a basic `<Datagrid>` with the data. It also dumps the components it has guessed in the console, so you can copy it into your own code. Use this feature to quickly bootstrap a `<List>` on top of an existing API, without adding the fields one by one.

![Guessed List](./img/guessed-list.png)

React-admin provides guessers for the List view (`<ListGuesser>`), the Edit view (`[<EditGuesser>]` (`./CreateEdit.md#the-editguesser-component`)), and the Show view (`[<ShowGuesser>]` (`./Show.md#the-showguesser-component`)).

**\*\*Tip\*\*:** Do not use the guessers in production. They are slower than manually-defined components, because they have to infer types based on the content. Besides, the guessers are not always perfect.

### ## The `<ListBase>` Component

In addition to fetching the list data, the `<List>` component renders the page title, the actions, the content and aside areas. You may want to display a record list in an entirely different layout, i.e. use only the data fetching part of `<List>` and not the view layout. In that case, you should use `<ListBase>`.

`<ListBase>` fetches the data and puts it in a `ListContext`, then renders its child.

You can use `ListBase` to create your own custom List component, like this one:

```
``jsx
import * as React from 'react';
import { cloneElement } from 'react';
import {
 Datagrid,
 ListBase,
 ListToolbar,
 BulkActionsToolbar,
 Pagination,
 Title,
 useListContext,
} from 'react-admin';
import Card from '@material-ui/core/Card';

const PostList = props => (
 <MyList {...props} title="Post List">
 <Datagrid>
 ...
 </Datagrid>
 </MyList>
);
```

```

const MyList = ({children, actions, bulkActionButtons, filters, title, ...props}) => (
 <ListBase {...props}>
 <Title title={title}/>
 <ListToolbar
 filters={filters}
 actions={actions}
 />
 <Card>
 <BulkActionsToolbar>
 {bulkActionButtons}
 </BulkActionsToolbar>
 {cloneElement(children, {
 hasBulkActions: bulkActionButtons !== false,
 })}
 <Pagination />
 </Card>
 </ListBase>
);
...

```

This custom List component has no aside component - it's up to you to add it in pure React.

**\*\*Tip\*\*:** You don't have to clone the child element. If you can't reuse an existing list view component like `<Datagrid>` or `<SimpleList>`, feel free to write the form code inside your custom `MyList` component.

The `<ListBase>` component accepts a subset of the props accepted by `<List>` - only the props that change data fetching, and not the props related to the user interface:

- \* `[`exporter`](#exporter)`
- \* `[`filter`](#filter-permanent-filter)` (the permanent filter used in the REST request)
- \* `[`filterDefaultValues`](#filterdefaultvalues)` (the default values for `alwaysOn` filters)
- \* `[`perPage`](#perpage-pagination-size)`
- \* `[`sort`](#sort-default-sort-field--order)`
- \* `[`pagination`](#pagination-pagination-component)`

### `useListContext`

The List components (`<List>`, `<ListGuesser>`, `<ListBase>`) take care of fetching the data, and put that data in a context called `ListContext` so that it's available for their descendants. This context also stores filters, pagination, sort state, and provides callbacks to update them.

Any component can grab information from the `ListContext` using the `useListContext` hook. As a matter of fact, react-admin's `<Datagrid>`, `<FilterForm>`, and `<Pagination>` components all use the `useListContext` hook. Here is what it returns:

```

```jsx
const {
  // fetched data

```

```

    data, // an id-based dictionary of the list data, e.g. { 123: { id: 123, title: 'hello world' }, 456: { ... } }
    ids, // an array listing the ids of the records in the list, e.g [123, 456, ...]
    total, // the total number of results for the current filters, excluding pagination. Useful to build the pagination
controls. e.g. 23
    loaded, // boolean that is false until the data is available
    loading, // boolean that is true on mount, and false once the data was fetched
    // pagination
    page, // the current page. Starts at 1
    setPage, // a callback to change the current page, e.g. setPage(3)
    perPage, // the number of results per page. Defaults to 10
    setPerPage, // a callback to change the number of results per page, e.g. setPerPage(25)
    // sorting
    currentSort, // a sort object { field, order }, e.g. { field: 'date', order: 'DESC' }
    setSort, // a callback to change the sort, e.g. setSort('name', 'ASC')
    // filtering
    filterValues, // a dictionary of filter values, e.g. { title: 'lorem', nationality: 'fr' }
    setFilters, // a callback to update the filters, e.g. setFilters(filters, displayedFilters)
    displayedFilters, // a dictionary of the displayed filters, e.g. { title: true, nationality: true }
    showFilter, // a callback to show one of the filters, e.g. showFilter('title', defaultValue)
    hideFilter, // a callback to hide one of the filters, e.g. hidefilter('title')
    // row selection
    selectedIds, // an array listing the ids of the selected rows, e.g. [123, 456]
    onSelect, // callback to change the list of selected rows, e.g. onSelect([456, 789])
    onToggleItem, // callback to toggle the selection of a given record based on its id, e.g. onToggleItem(456)
    onUnselectItems, // callback to clear the selection, e.g. onUnselectItems();
    // misc
    basePath, // deduced from the location, useful for action buttons
    defaultTitle, // the translated title based on the resource, e.g. 'Posts'
    resource, // the resource name, deduced from the location. e.g. 'posts'
    refetch, // a callback to refresh the list data
  } = useListContext();
  ...

```

You can find many usage examples of `useListContext` in this page, including:

- [Building a Custom Actions Bar](#actions)
- [Building an Aside Component](#aside-aside-component)
- [Building a Custom Empty Page](#empty-empty-page-component)
- [Building a Custom Filter](#building-a-custom-filter)
- [Building a Custom Sort Control](#building-a-custom-sort-control)
- [Building a Custom Pagination Control](#building-a-custom-pagination-control)
- [Building a Custom Iterator](#using-a-custom-iterator)

****Tip**:** [[<ReferenceManyField>](#)](./Fields.md#referencemanyfield), as well as other relationship-related components, also implement a `ListContext`. That means you can use a `` of a `` inside these components!

`useListController`

As explained above, `<ListBase>` fetches the data and puts it in a `ListContext`, then renders its child. In fact, the `<ListBase>` code is super simple:

```
```jsx
import * as React from 'react';
import { useListController, ListContextProvider } from 'react-admin';

const ListBase = ({ children, ...props }) => (
 <ListContextProvider value={useListController(props)}>
 {children}
 </ListContextProvider>
);

export default ListBase;
```
```

As you can see, the controller part of the List view is handled by a hook called `useListController`. If you don't want to use the `ListContext` in your custom List view, you can call `useListController` directly to access the list data. It returns the same object as the one documented in `[useListContext](#uselistcontext)` above.

****Tip**:** If your custom List view doesn't use a `ListContextProvider`, you can't use `<Datagrid>`, `<SimpleList>`, `<Pagination>`, etc. All these components rely on the `ListContext`.

`useList`

The `useList` hook allows to apply the list features such as filtering, sorting and paginating on an array of records you already have.

Thanks to it, you can display your data inside a `[<Datagrid>](#the-datagrid-component)`, a `[<SimpleList>](#the-simplelist-component)` or an `[<EditableDatagrid>](#the-editabledatagrid-component)`. For example:

```
```jsx
const data = [
 { id: 1, name: 'Arnold' },
 { id: 2, name: 'Sylvester' },
 { id: 3, name: 'Jean-Claude' },
]
const ids = [1, 2, 3];

const MyComponent = () => {
 const listContext = useList({
 data,
 ids,
 basePath: '/resource',
 resource: 'resource',
 });
 return (
```

```

 <ListContextProvider value={listContext}>
 <Datagrid>
 <TextField source="id" />
 <TextField source="name" />
 </Datagrid>
 </ListContextProvider>
);
};
...

```

## The `<Datagrid>` component

![[The `<Datagrid>` component](./img/tutorial\_post\_list\_less\_columns.png)]

The `<Datagrid>` component renders a list of records as a table. It is usually used as a descendant of the [`<List>`](#the-list-component) and [`<ReferenceManyField>`](./Fields.md#referencemanyfield) components. Outside these components, it must be used inside a `ListContext`.

Here are all the props accepted by the component:

- \* [`body`](#body-element)
- \* [`header`](#header-element)

Additional props are passed down to [the material-ui `<Table>` element](https://v4.mui.com/api/table/).

`<Datagrid>` renders as many columns as it receives `<Field>` children. It uses the field `label` as column header (or, for fields with no `label`, the field `source`).

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, EditButton } from 'react-admin';

export const PostList = (props) => (
  <List {...props}>
    <Datagrid>
      <TextField source="id" />
      <TextField source="title" />
      <TextField source="body" />
      <EditButton />
    </Datagrid>
  </List>
);

```

```
</List>
```

```
);
```

```
...
```

****Tip****: To let users hide or show columns at will, check the [`<SelectColumnsButton>`](<https://marmelab.com/ra-enterprise/modules/ra-preferences#selectcolumnsbutton-store-datagrid-columns-in-preferences>) ``, an [Enterprise Edition](<https://marmelab.com/ra-enterprise>) component.

The `<Datagrid>` is an ****iterator**** component: it gets an array of ids and a data store from the `ListContext`, and iterates over the ids to display each record. Other examples of iterator component are [`<SimpleList>`]([#the-simplelist-component](#)) and [`<SingleFieldList>`]([#the-singlefieldlist-component](#)).

Body element

By default, `<Datagrid>` renders its body using `<DatagridBody>`, an internal react-admin component. You can pass a custom component as the `body` prop to override that default. And by the way, `<DatagridBody>` has a `row` prop set to `<DatagridRow>` by default for the same purpose. `<DatagridRow>` receives the row `record`, the `resource`, and a copy of the `<Datagrid>` children. That means you can create custom `<Datagrid>` logic without copying several components from the react-admin source.

For instance, the `<Datagrid isRowSelectable>` prop allows to hide the selection checkbox for some records. To show a *disabled* checkbox instead of hiding it, you can override `<DatagridRow>` and `<DatagridBody>` as follows:

```
```jsx
// in src/PostList.js
import * as React from "react";
import { Datagrid, DatagridBody, List, TextField } from 'react-admin';
import TableCell from '@material-ui/core/TableCell';
import TableRow from '@material-ui/core/TableRow';
import Checkbox from '@material-ui/core/Checkbox';

const MyDatagridRow = ({ record, resource, id, onToggleItem, children, selected, selectable, basePath }) => (
 <TableRow key={id}>
 { /* first column: selection checkbox */ }
 <TableCell padding="none">
 <Checkbox
 disabled={selectable}
 checked={selected}
 onClick={event => onToggleItem(id, event)}
 />
 </TableCell>
 { /* data columns based on children */ }
 { React.Children.map(children, field => (
 <TableCell key={`-${id}-${field.props.source}`}>
 {React.cloneElement(field, {
 record,
 basePath,

```

```

 resource,
 })}
 </TableCell>
))}
</TableRow>
);

const MyDatagridBody = props => <DatagridBody {...props} row={<MyDatagridRow />} />;
const MyDatagrid = props => <Datagrid {...props} body={<MyDatagridBody />} />;

const PostList = props => (
 <List {...props}>
 <MyDatagrid>
 <TextField source="title" />
 ...
 </MyDatagrid>
 </List>
)

export default PostList;
...

```

### ### Header Element

By default, `<Datagrid>` renders its header using `<DatagridHeader>`, an internal react-admin component. You can pass a custom component as the `header` prop to override that default. This can be useful e.g. to add a second header row, or to create headers spanning multiple columns.

For instance, here is a simple datagrid header that displays column names with no sort and no "select all" button:

```

````jsx
import { TableHead, TableRow, TableCell } from '@material-ui/core';

const DatagridHeader = ({ children }) => (
  <TableHead>
    <TableRow>
      <TableCell></TableCell> { /* empty cell to account for the select row checkbox in the body */}
      {Children.map(children, child => (
        <TableCell key={child.props.source}>
          {child.props.source}
        </TableCell>
      ))}
    </TableRow>
  </TableHead>
);

const PostList = props => (
  <List {...props}>

```

```

    <Datagrid header={ <DatagridHeader /> }>
      { /* ... */ }
    </Datagrid>
  </List>
);
...

```

****Tip**:** To handle sorting in your custom Datagrid header component, check out the [Building a custom sort control](#building-a-custom-sort-control) section.

Row Style Function

You can customize the `<Datagrid>` row style (applied to the `<tr>` element) based on the record, thanks to the `rowStyle` prop, which expects a function. React-admin calls this function for each row, passing the current record and index as arguments. The function should return a style object, which react-admin uses as a `<tr style>` prop.

For instance, this allows to apply a custom background to the entire row if one value of the record - like its number of views - passes a certain threshold.

```

```jsx
const postRowStyle = (record, index) => ({
 backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',
});
export const PostList = (props) => (
 <List { ...props }>
 <Datagrid rowStyle={ postRowStyle }>
 ...
 </Datagrid>
 </List>
);
...

```

### ### `rowClick`

You can catch clicks on rows to redirect to the show or edit view by setting the `rowClick` prop:

```

```jsx
export const PostList = (props) => (
  <List { ...props }>
    <Datagrid rowClick="edit">
      ...
    </Datagrid>
  </List>
);
...

```

`rowClick` accepts the following values:

- * "edit" to redirect to the edition vue
- * "show" to redirect to the show vue
- * "expand" to open the `expand` panel
- * "toggleSelection" to trigger the `onToggleItem` function
- * a function `(id, basePath, record) => path` to redirect to a custom path

****Tip**:** If you pass a function, it can return `edit`, `show` or a router path. This allows to redirect to either `edit` or `show` after checking a condition on the record. For example:

```
```js
const postRowClick = (id, basePath, record) => record.editable ? 'edit' : 'show';
```
```

****Tip**:** If you pass a function, it can also return a promise allowing you to check an external API before returning a path. For example:

```
```js
import fetchUserRights from './fetchUserRights';

const postRowClick = (id, basePath, record) => fetchUserRights().then(({ canEdit }) => canEdit ? 'edit' : 'show');
```
```

`expand`

![expandable panel](./img/datagrid_expand.gif)

To show more data from the resource without adding too many columns, you can show data in an expandable panel below the row on demand, using the `expand` prop. For instance, this code shows the `body` of a post in an expandable panel:

```
{% raw %}
```jsx
const PostPanel = ({ id, record, resource }) => (
 <div dangerouslySetInnerHTML={{ __html: record.body }} />
);

const PostList = props => (
 <List {...props}>
 <Datagrid expand={<PostPanel />}>
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
 </List>
)
```
```

The `expand` prop expects a component as value. When the user chooses to expand the row, the Datagrid renders the component and passes the current `record`, `id`, and `resource`.

Tip: Since the `expand` element receives the same props as a detail view, you can actually use a `<Show>` view as component for the `expand` prop:

```
```jsx
const PostShow = props => (
 <Show
 {...props}
 /* disable the app title change when shown */
 title=" "
 >
 <SimpleShowLayout>
 <RichTextField source="body" />
 </SimpleShowLayout>
 </Show>
);

const PostList = props => (
 <List {...props}>
 <Datagrid expand={<PostShow />}>
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
 </List>
)
```
```

The result will be the same as in the previous snippet, except that `<Show>` encloses the content inside a material-ui `<Card>`.

Tip: You can go one step further and use an `<Edit>` view as `expand` component:

```
```jsx
const PostEdit = props => (
 <Edit
 {...props}
 /* disable the app title change when shown */
 title=" "
 >
 <SimpleForm>
 <RichTextInput source="body" />
 </SimpleForm>
 </Edit>
);
```
```

```

    </Edit>
  );

  const PostList = props => (
    <List {...props}>
      <Datagrid expand={<PostEdit />}>
        <TextField source="id" />
        <TextField source="title" />
        <DateField source="published_at" />
        <BooleanField source="commentable" />
        <EditButton />
      </Datagrid>
    </List>
  )
  ...

```

`isRowExpandable`

You can customize which rows will allow to show an expandable panel below them using the `isRowExpandable` prop. It expects a function that will receive the record of each `<DatagridRow>` and returns a boolean expression. For instance, this code shows an expand button only for rows that has a detail to show:

```

```jsx
const PostPanel = ({ id, record, resource }) => (
 <div dangerouslySetInnerHTML={{ __html: record.body }} />
);

const PostList = props => (
 <List {...props}>
 <Datagrid
 expand={<PostPanel />}
 isRowExpandable={row => row.has_detail}
 >
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
 </List>
)
...

```

### ### `isRowSelectable`

You can customize which rows will show a selection checkbox using the `isRowSelectable` prop. It expects a function that will receive the record of each `<DatagridRow>` and returns a boolean expression. For instance, this code shows a checkbox only for rows with an id greater than 300:

```

```jsx
export const PostList = props => (
  <List {...props}>
    <Datagrid isRowSelectable={ record => record.id > 300 }>
    ...
  </Datagrid>
</List>
);
```
{% endraw %}

```

### ### Performance

When displaying large pages of data, you might experience some performance issues. This is mostly due to the fact that we iterate over the `` children and clone them.

In such cases, you can opt-in for an optimized version of the `` by setting its `optimized` prop to `true`. Be aware that you can't have dynamic children, such as those displayed or hidden by checking permissions, when using this mode.

```

```jsx
const PostList = props => (
  <List {...props}>
    <Datagrid optimized>
      <TextField source="id" />
      <TextField source="title" />
      <TextField source="views" />
    </Datagrid>
  </List>
);

export default withStyles(styles)(PostList);
```

```

### ### Empty

It's possible that a Datagrid will have no records to display. If the Datagrid's parent component handles the loading state, the Datagrid will return `null` and render nothing.

Passing through a component to the `empty` prop will cause the Datagrid to render the `empty` component instead of `null`.

### ### Datagrid CSS API

The `` component accepts the usual `className` prop but you can override many class names injected to the inner components by React-admin thanks to the `classes` property (as most Material UI components, see their [documentation about it](https://v4.mui.com/customization/components/#overriding-styles-with-classes)). This property accepts the following keys:

| Rule name                     | Description                                                                 |
|-------------------------------|-----------------------------------------------------------------------------|
| <code>`table`</code>          | Alternative to using <code>`className`</code> . Applied to the root element |
| <code>`thead`</code>          | Applied to the header of the <code>`Datagrid`</code>                        |
| <code>`tbody`</code>          | Applied to the <code>tbody</code>                                           |
| <code>`headerCell`</code>     | Applied to each header cell                                                 |
| <code>`headerRow`</code>      | Applied to each header row                                                  |
| <code>`row`</code>            | Applied to each row                                                         |
| <code>`rowEven`</code>        | Applied to each even row                                                    |
| <code>`rowOdd`</code>         | Applied to each odd row                                                     |
| <code>`rowCell`</code>        | Applied to each row cell                                                    |
| <code>`expandHeader`</code>   | Applied to each expandable header cell                                      |
| <code>`clickableRow`</code>   | Applied to each row if <code>`rowClick`</code> prop is truthy               |
| <code>`expandIconCell`</code> | Applied to each expandable cell                                             |
| <code>`expandIcon`</code>     | Applied to each expand icon                                                 |
| <code>`expanded`</code>       | Applied to each expanded icon                                               |
| <code>`expandedPanel`</code>  | Applied to each expandable panel                                            |
| <code>`checkbox`</code>       | Applied to each checkbox cell                                               |

You can customize the `<Datagrid>` styles by passing a ``classes`` object as prop, through ``useStyles()``. Here is an example:

```
{% raw %}
```jsx
import * as React from 'react';
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles({
  row: {
    backgroundColor: '#ccc',
  },
});

const PostList = props => {
  const classes = useStyles();
  return (
    <List {...props}>
      <Datagrid classes={{ row: classes.row }}>
        ...
      </Datagrid>
    </List>
  );
}

export default PostList;
```
{% endraw %}
```

**\*\*Tip\*\***: The `Datagrid` component `classes` can also be customized for all instances of the component with its global css name `"RaDatagrid"` as [describe here](https://marmelab.com/blog/2019/12/18/react-admin-3-1.html#theme-overrides)

**\*\*Tip\*\***: If you want to override the `header` and `cell` styles independently for each column, use the `headerClassName` and `cellClassName` props in `<Field>` components. For instance, to hide a certain column on small screens:

```
``jsx
import * as React from "react";
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles(theme => ({
 hiddenOnSmallScreens: {
 [theme.breakpoints.down('md')]: {
 display: 'none',
 },
 },
}));

const PostList = props => {
 const classes = useStyles();
 return (
 <List {...props}>
 <Datagrid>
 <TextField source="id" />
 <TextField source="title" />
 <TextField
 source="views"
 headerClassName={classes.hiddenOnSmallScreens}
 cellClassName={classes.hiddenOnSmallScreens}
 />
 </Datagrid>
 </List>
);
};

export default PostList;
...

```

This feature has a limit, though. `Datagrid` inspects its children for `headerClassName` and `cellClassName` props. This means you can't use these props in a *wrapped* component:

```
``jsx
const useStyles = makeStyles({
 priceCell: { backgroundColor: 'blue' },
});

```

```

const PriceField = props => {
 const classes = useStyles();
 return <TextField cellClassName={classes.priceCell} {...props} />;
};

// the cell class name won't be applied here because Datagrid doesn't see it in its children
export const ProductList = (props) => (
 <List {...props}>
 <Datagrid>
 <PriceField source="price" />
 </Datagrid>
 </List>
);
...

```

For this kind of use case, you need to use a [custom datagrid body component](#body-element).

### ## The `<SimpleList>` component

```

` component">

```

For mobile devices, a `<Datagrid>` is often unusable - there is simply not enough space to display several columns. The convention in that case is to use a simple list, with only one column per row. The `<SimpleList>` component serves that purpose, leveraging [material-ui's `<List>` and `<ListItem>` components](https://v4.mui.com/components/lists/). `<SimpleList>` is an **iterator** component: it gets an array of ids and a data store from the `<ListContext>`, and iterates over the ids to display each record.

### ### Properties

| Prop                        | Required | Type                                                           | Default            | Description                                                                                                                                                                                          |
|-----------------------------|----------|----------------------------------------------------------------|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <code>primaryText`</code>   | Required | <code>`Function`</code>                                        | -                  | Passed as <code>&lt;ListItemText primary&gt;</code> prop                                                                                                                                             |
| <code>secondaryText`</code> | Optional | <code>`Function`</code>                                        | -                  | Passed as <code>&lt;ListItemText secondary&gt;</code> prop                                                                                                                                           |
| <code>tertiaryText`</code>  | Optional | <code>`Function`</code>                                        | -                  | Passed as a complement to <code>&lt;ListItemText primary&gt;</code> with a custom style                                                                                                              |
| <code>linkType`</code>      | Optional | <code>`string` &amp;#124; `Function` &amp;#124; `false`</code> | <code>edit`</code> | Target of the <code>&lt;ListItem&gt;</code> link. Set to <code>false`</code> to disable the link. Set to a function <code>(record, id) =&gt; string`</code> to have the link target vary per record. |
| <code>leftAvatar`</code>    | Optional | <code>`Function`</code>                                        | -                  | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemAvatar&gt;</code> before the <code>&lt;ListItemText&gt;</code>                                                           |
| <code>leftIcon`</code>      | Optional | <code>`Function`</code>                                        | -                  | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemIcon&gt;</code> before the <code>&lt;ListItemText&gt;</code>                                                             |
| <code>rightAvatar`</code>   | Optional | <code>`Function`</code>                                        | -                  | When present, the <code>&lt;ListItem&gt;</code> renders a                                                                                                                                            |

|                                               |   |                                                                                                                                                                      |
|-----------------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| `<ListItemAvatar>` after the `<ListItemText>` |   |                                                                                                                                                                      |
| `rightIcon`   Optional   `Function`           | - | When present, the `<ListItem>` renders a                                                                                                                             |
| `<ListItemIcon>` after the `<ListItemText>`   |   |                                                                                                                                                                      |
| `className`   Optional   `string`             | - | Applied to the root element                                                                                                                                          |
|                                               |   |                                                                                                                                                                      |
| `rowStyle`   Optional   `Function`            | - | Applied to the `<ListItem>` styles prop. The function gets called for each row. Receives the current record and index as arguments and should return a style object. |

### ### Usage

You can use `<SimpleList>` as `<List>` or `<ReferenceManyField>` child:

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

const postRowStyle = (record, index) => ({
  backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',
});

export const PostList = (props) => (
  <List {...props}>
    <SimpleList
      primaryText={record => record.title}
      secondaryText={record => `${record.views} views`}
      tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
      linkType={record => record.canEdit ? "edit" : "show"}
      rowStyle={postRowStyle}
    />
  </List>
);
```

```

For each record, `<SimpleList>` executes the `primaryText`, `secondaryText`, `linkType`, `rowStyle`, `leftAvatar`, `leftIcon`, `rightAvatar`, and `rightIcon` props functions, and creates a `<ListItem>` with the result.

The `primaryText`, `secondaryText` and `tertiaryText` functions can return a React element. This means you can use any react-admin field, including reference fields:

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

const postRowStyle = (record, index) => ({
  backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',

```

```

});

export const PostList = (props) => (
  <List {...props}>
    <SimpleList
      primaryText={<TextField source="title" />}
      secondaryText={record => `${record.views} views`}
      tertiaryText={
        <ReferenceField reference="categories" source="category_id">
          <TextField source="name" />
        </ReferenceField>
      }
      linkType={record => record.canEdit ? "edit" : "show"}
      rowStyle={postRowStyle}
    />
  </List>
);
...

```

****Tip**:** To use a `<SimpleList>` on small screens and a `<Datagrid>` on larger screens, use material-ui's `useMediaQuery` hook:

```

```jsx
// in src/posts.js
import * as React from "react";
import { useMediaQuery } from '@material-ui/core';
import { List, SimpleList, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = props => {
 const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
 return (
 <List {...props}>
 {isSmall ? (
 <SimpleList
 primaryText={record => record.title}
 secondaryText={record => `${record.views} views`}
 tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
 linkType={record => record.canEdit ? "edit" : "show"}
 />
) : (
 <Datagrid>
 //...
 </Datagrid>
)}
 </List>
);
}
...

```

**\*\*Tip\*\*:** The `<SimpleList>` items link to the edition page by default. You can also set the `linkType` prop to `show` directly to link to the `<Show>` page instead.

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

export const PostList = props => (
  <List {...props}>
    <SimpleList
      primaryText={record => record.title}
      secondaryText={record => `${record.views} views`}
      tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
      linkType="show"
    />
  </List>
);
```
```

Setting the `linkType` prop to `false` (boolean, not string) removes the link in all list items.

## The `<SingleFieldList>` component

When you want to display only one property of a list of records, instead of using a `<Datagrid>`, use the `<SingleFieldList>`. It expects a single `<Field>` as child. `<SingleFieldList>` is an **iterator** component: it gets an array of ids and a data store from the `ListContext`, and iterates over the ids to display each record.

It's especially useful for `<ReferenceManyField>` or `<ReferenceArrayField>` components:

```
```jsx
// Display all the tags for the current post
<ReferenceArrayField
  label="Tags"
  reference="tags"
  source="tags"
>
  <SingleFieldList>
    <ChipField source="name" />
  </SingleFieldList>
</ReferenceArrayField>
```
```

![ReferenceManyFieldSingleFieldList](./img/reference-many-field-single-field-list.png)

**\*\*Tip\*\*:** The `<SingleFieldList>` items link to the edition page by default. You can set the `linkType` prop to `show` to link to the `<Show>` page instead.

```

```jsx
// Display all the tags for the current post
<ReferenceArrayField
  label="Tags"
  reference="tags"
  source="tags"
>
  <SingleFieldList linkType="show">
    <ChipField source="name" />
  </SingleFieldList>
</ReferenceArrayField>
```

```

## The ``<EditableDatagrid>` Component

This [Enterprise Edition](https://marmelab.com/ra-enterprise) component offers an "edit-in-place" experience in a ``<Datagrid>`.

![Editable Datagrid](https://marmelab.com/ra-enterprise/modules/assets/ra-editable-datagrid-overview.gif)

```

```jsx
import * as React from 'react';
import {
  List,
  TextField,
  TextInput,
  DateField,
  DateInput,
  SelectField,
  SelectInput,
  required,
} from 'react-admin';
import { EditableDatagrid, RowForm } from '@react-admin/ra-editable-datagrid';

const ArtistList = props => (
  <List {...props} hasCreate empty={false}>
    <EditableDatagrid
      undoable
      createForm={ <ArtistForm /> }
      editForm={ <ArtistForm /> }
    >
      <TextField source="id" />
      <TextField source="firstname" />
      <TextField source="name" />
      <DateField source="dob" label="born" />
      <SelectField
        source="prof"

```

```

        label="Profession"
        choices={professionChoices}
      />
    </EditableDatagrid>
  </List>
);

const ArtistForm = props => (
  <RowForm {...props}>
    <TextField source="id" />
    <TextInput source="firstname" validate={required()} />
    <TextInput source="name" validate={required()} />
    <DateInput source="dob" label="born" validate={required()} />
    <SelectInput
      source="prof"
      label="Profession"
      choices={professionChoices}
    />
  </RowForm>
);

```

Check [the `ra-editable-datagrid` documentation](<https://marmelab.com/ra-enterprise/modules/ra-editable-datagrid>) for more details.

The `` Component

This [Enterprise Edition](<https://marmelab.com/ra-enterprise>)  component offers a replacement for the `

` component when the records form **tree structures** like directories, categories, etc. `` allows to display, edit, and rearrange trees.

```

```jsx
// in src/category.js
import * as React from 'react';
import {
 Admin,
 Resource,
 Create,
 Edit,
 TextInput,
} from 'react-admin';
import { CreateNode, EditNode, SimpleForm, TreeWithDetails } from '@react-admin/ra-tree';

// a Create view for a tree uses <CreateNode> instead of the standard <Create>
const CategoriesCreate = props => (
 <CreateNode {...props}>
 <SimpleForm>
 <TextInput source="name" />

```

```

 </SimpleForm>
 </CreateNode>
);

// an Edit view for a tree uses <EditNode> instead of the standard <Edit>
const CategoriesEdit = props => (
 <EditNode {...props}>
 <SimpleForm>
 <TextInput source="title" />
 </SimpleForm>
 </EditNode>
)

// a List view for a tree uses <TreeWithDetails>
export const CategoriesList = props => (
 <TreeWithDetails
 create={CategoriesCreate}
 edit={CategoriesEdit}
 {...props}
 />
);

// in src/App.js
import { CategoriesList } from './category';

const App = () => (
 <Admin
 dataProvider={dataProvider}
 i18nProvider={i18nProvider}
 locale="en"
 customReducers={{ tree }}
 >
 <Resource list={CategoriesList} />
 </Admin>
)
...

```

Check [the `ra-tree` documentation](<https://marmelab.com/ra-enterprise/modules/ra-tree>) for more details.

### ## The `` Component

This [Enterprise Edition](<https://marmelab.com/ra-enterprise>) component, part of [the `ra-calendar` module](<https://marmelab.com/ra-enterprise/modules/ra-calendar>), renders a list of events as a calendar.

![the `` component](<https://marmelab.com/ra-enterprise/modules/assets/ra-calendar.gif>)

The user interface offers everything you expect:

- month, week, day views
- list view
- drag and resize events
- whole-day events
- creating an event by clicking in the calendar
- edition of event title, and metadata
- events spanning on multiple days
- recurring events
- background events
- theming
- locales and timezones
- resource time grid (e.g. rooms) (requires additional licence from Full Calendar)

Use ``<Calendar>`` as a child of ``<List>``:

```

```jsx
import { Calendar, getFilterValuesFromInterval } from '@react-admin/ra-calendar';
import { List } from 'react-admin';

const EventList = props => (
  <List
    {...props}
    filterDefaultValues={getFilterValuesFromInterval()}
    perPage={1000}
    pagination={false}
  >
    <Calendar />
  </List>
);
```

```

The ``ra-calendar`` module also offers a full replacement for the ``<List>`` component, complete with show and edit views for events, called ``<CompleteCalendar>``:

```

```jsx
import React from 'react';
import {
  Admin,
  Resource,
  List,
  ListProps,
  SimpleForm,
  TextInput,
  DateTimeInput,
} from 'react-admin';
import { CompleteCalendar } from '@react-admin/ra-calendar';

```

```

import dataProvider from './dataProvider';

const EventList = props => (
  <CompleteCalendar {...props}>
    <SimpleForm>
      <TextInput source="title" autoFocus />
      <DateTimeInput source="start" />
      <DateTimeInput source="end" />
    </SimpleForm>
  </CompleteCalendar>
);

export const Basic = () => (
  <Admin dataProvider={dataProvider}>
    <Resource name="events" list={EventList} />
  </Admin>
);
...

```

Check [the `ra-calendar` documentation](https://marmelab.com/ra-enterprise/modules/ra-calendar) for more details.

Recipes

Using a Custom Iterator

A ``<List>` can delegate to any iterator component - ``<Datagrid>` is just one example. An iterator component can get the data to display from [the ``useListContext` hook](#uselistcontext). The data comes in two constants:`

- `ids` is an array of the ids currently displayed in the list`
- `data` is an object of all the fetched data for this resource, indexed by id.`

For instance, what if you prefer to show a list of cards rather than a datagrid?

![Custom iterator](./img/custom-iterator.png)

You'll need to create your own iterator component as follows:

```

{% raw %}
```jsx
// in src/comments.js
import * as React from 'react';
import { useListContext, List, TextField, DateField, ReferenceField, EditButton } from 'react-admin';
import { Card, CardActions, CardContent, CardHeader, Avatar } from '@material-ui/core';
import PersonIcon from '@material-ui/icons/Person';

const cardStyle = {
 width: 300,
 minHeight: 300,

```

```

margin: '0.5em',
display: 'inline-block',
verticalAlign: 'top'
};
const CommentGrid = () => {
 const { ids, data, basePath } = useListContext();
 return (
 <div style={{ margin: '1em' }}>
 {ids.map(id =>
 <Card key={id} style={cardStyle}>
 <CardHeader
 title={<TextField record={data[id]} source="author.name" />}
 subheader={<DateField record={data[id]} source="created_at" />}
 avatar={<Avatar icon={<PersonIcon />} />}
 />
 <CardContent>
 <TextField record={data[id]} source="body" />
 </CardContent>
 <CardContent>
 about
 <ReferenceField label="Post" resource="comments" record={data[id]} source="post_id"
reference="posts" basePath={basePath}>
 <TextField source="title" />
 </ReferenceField>
 </CardContent>
 <CardActions style={{ textAlign: 'right' }}>
 <EditButton resource="posts" basePath={basePath} record={data[id]} />
 </CardActions>
 </Card>
)}
 </div>
);
};

export const CommentList = (props) => (
 <List title="All comments" {...props}>
 <CommentGrid />
 </List>
);
...
{% endraw %}

```

As you can see, nothing prevents you from using ``<Field>`` components inside your own components... provided you inject the current `record`. Also, notice that components building links require the `basePath` component, which is also available from `useListContext`.

### Displaying Fields Depending On The User Permissions

You might want to display some fields or filters only to users with specific permissions.

Before rendering the `<List>`, `react-admin` calls the `authProvider.getPermissions()` method, and passes the result to the component as the `permissions` prop. It's up to your `authProvider` to return whatever you need to check roles and permissions inside your component.

```
{% raw %}
```jsx
const getUserFilters = (permissions) => ([
  <TextInput label="user.list.search" source="q" alwaysOn />,
  <TextInput source="name" />,
  permissions === 'admin' ? <TextInput source="role" /> : null,
].filter(filter => filter !== null)
);

export const UserList = ({ permissions, ...props }) => {
  const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
  return (
    <List
      {...props}
      filters={getUserFilters(permissions)}
      sort={{ field: 'name', order: 'ASC' }}
    >
      {isSmall ? (
        <SimpleList
          primaryText={record => record.name}
          secondaryText={record =>
            permissions === 'admin' ? record.role : null}
        />
      ) : (
        <Datagrid>
          <TextField source="id" />
          <TextField source="name" />
          {permissions === 'admin' && <TextField source="role" />}
          {permissions === 'admin' && <EditButton />}
          <ShowButton />
        </Datagrid>
      )}
    </List>
  )
};
```
{% endraw %}
```

**\*\*Tip\*\*:** Note how the `permissions` prop is passed down to the custom `filters` component.

### Rendering `<Datagrid>` With A Custom Query

You can use the `<Datagrid>` component with [custom queries](./Actions.md#usequery-hook):

```
{% raw %}
```jsx
import keyBy from 'lodash/keyBy';
import { Fragment } from 'react';
import {
  useQuery,
  Datagrid,
  TextField,
  Pagination,
  Loading,
} from 'react-admin';

const CustomList = () => {
  const [page, setPage] = useState(1);
  const [perPage, setPerPage] = useState(25);
  const [sort, setSort] = useState({ field: 'id', order: 'ASC' })
  const { data, total, loading, error } = useQuery({
    type: 'getList',
    resource: 'posts',
    payload: {
      pagination: { page, perPage },
      sort,
      filter: {},
    }
  });

  if (loading) {
    return <Loading />
  }
  if (error) {
    return <p>ERROR: {error}</p>
  }
  return (
    <Fragment>
      <Datagrid
        data={keyBy(data, 'id')}
        ids={data.map(({ id }) => id)}
        currentSort={sort}
        setSort={(field, order) => setSort({ field, order })}
      >
        <TextField source="id" />
        <TextField source="title" />
      </Datagrid>
      <Pagination
        page={page}
        setPage={setPage}

```

```

    perPage={perPage}
    setPerPage={setPerPage}
    total={total}
  />
</Fragment>
);
}
...
{% endraw %}

```

****Tip**:** If you use the `<Datagrid rowClick>` prop in this case, you must also set the `basePath` prop to let the `<Datagrid>` compute the link to the record pages.

Third-Party Components

You can find components for react-admin in third-party repositories.

- [ra-customizable-datagrid](https://github.com/fizix-io/ra-customizable-datagrid): plugin that allows to hide / show columns dynamically.
- [ra-datagrid](https://github.com/marmelab/ra-datagrid): Integration of [Material-ui's `<Datagrid>`](https://v4.mui.com/components/data-grid/) into react-admin.

title: "My First Project Tutorial"

React-Admin Tutorial

This 30 minutes tutorial will expose how to create a new admin app based on an existing REST API.

Setting Up

React-admin uses React. We'll use [create-react-app](https://github.com/facebookincubator/create-react-app) to

create an empty React app, and install the `react-admin` package:

```
```sh
yarn create react-app test-admin
cd test-admin/
yarn add react-admin ra-data-json-server prop-types
yarn start
```
```

You should be up and running with an empty React application on port 3000.

Using an API As Data Source

React-admin runs in the browser, and relies on data it fetches from APIs.

We'll be using [JSONPlaceholder](<https://jsonplaceholder.typicode.com/>), a fake REST API designed for testing and prototyping, as the datasource for the application. Here is what it looks like:

```
```
curl https://jsonplaceholder.typicode.com/users/2
```
```

```
```json
{
 "id": 2,
 "name": "Ervin Howell",
 "username": "Antonette",
 "email": "Shanna@melissa.tv",
 "address": {
 "street": "Victor Plains",
 "suite": "Suite 879",
 "city": "Wisokyburgh",
 "zipcode": "90566-7771",
 "geo": {
 "lat": "-43.9509",
 "lng": "-34.4618"
 }
 },
 "phone": "010-692-6593 x09125",
 "website": "anastasia.net",
 "company": {
 "name": "Deckow-Crist",
 "catchPhrase": "Proactive didactic contingency",
 "bs": "synergize scalable supply-chains"
 }
}
```
```

JSONPlaceholder provides endpoints for users, posts, and comments. The admin we'll build should allow to Create, Retrieve, Update, and Delete (CRUD) these resources.

Making Contact With The API Using a Data Provider

Bootstrap the admin app by replacing the `src/App.js` by the following code:

```
```jsx
// in src/App.js
import * as React from "react";
import { Admin } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const dataProvider = jsonServerProvider('https://jsonplaceholder.typicode.com');
const App = () => <Admin dataProvider={dataProvider} />;

export default App;
```
```

That's enough for react-admin to render an empty app and confirm that the setup is done:

[![Empty Admin](./img/tutorial_empty.png)](./img/tutorial_empty.png)

The `App` component renders an `Admin` component, which is the root component of a react-admin application. This component expects a `dataProvider` prop - a function capable of fetching data from an API. Since there is no standard for data exchanges between computers, you will probably have to write a custom provider to connect react-admin to your own APIs - but we'll dive into Data Providers later. For now, let's take advantage of the `ra-data-json-server` data provider, which speaks the same REST dialect as JSONPlaceholder.

Now it's time to add features!

Mapping API Endpoints With Resources

We'll start by adding a list of users.

The `Admin` component expects one or more `Resource` child components. Each resource maps a name to an endpoint in the API. Edit the `App.js` file to add a resource named `users`:

```
```diff
// in src/App.js
import * as React from "react";
-import { Admin } from 'react-admin';
+import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const dataProvider = jsonServerProvider('https://jsonplaceholder.typicode.com');
-const App = () => <Admin dataProvider={dataProvider} />;
+const App = () => (
```

```
+ <Admin dataProvider={dataProvider}>
+ <Resource name="users" list={ListGuesser} />
+ </Admin>
+);

export default App;
...`
```

The line `<Resource name="users" />` informs react-admin to fetch the "users" records from the `[https://jsonplaceholder.typicode.com/users](https://jsonplaceholder.typicode.com/users)` URL. `<Resource>` also defines the React components to use for each CRUD operation (`list`, `create`, `edit`, and `show`).

The `list={ListGuesser}` prop means that react-admin should use the `<ListGuesser>` component to display the list of posts. This component *guesses* the format to use for the columns of the list based on the data fetched from the API.

The app can now display a list of users:

If you look at the network tab in the browser developer tools, you'll notice that the application fetched the `https://jsonplaceholder.typicode.com/users` URL, then used the results to build the Datagrid. That's basically how react-admin works.

The list is already functional: you can reorder it by clicking on column headers, or change pages by using the bottom pagination controls. The `ra-data-json-server` data provider translates these actions to a query string that JSONPlaceholder understands.

## ## Selecting Columns

The `<ListGuesser>` component is not meant to be used in production - it's just a way to quickly bootstrap an admin. That means you'll have to replace the `ListGuesser` component in the `users` resource by a custom React component. Fortunately, `ListGuesser` dumps the code of the list it has guessed to the console:

Let's copy this code, and create a new `UserList` component, in a new file named `users.js`:

```
```jsx
// in src/users.js
import * as React from "react";
import { List, Datagrid, TextField, EmailField } from 'react-admin';

export const UserList = props => (
  <List {...props}>
    <Datagrid rowClick="edit">
      <TextField source="id" />
      <TextField source="name" />
    </Datagrid>
  </List>
);
```
```

```

 <TextField source="username" />
 <EmailField source="email" />
 <TextField source="address.street" />
 <TextField source="phone" />
 <TextField source="website" />
 <TextField source="company.name" />
 </Datagrid>
</List>
);
```

```

Then, edit the `App.js` file to use this new component instead of `ListGuesser`:

```

```diff
// in src/App.js
-import { Admin, Resource, ListGuesser } from 'react-admin';
+import { Admin, Resource } from 'react-admin';
+import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
- <Resource name="users" list={ListGuesser} />
+ <Resource name="users" list={UserList} />
 </Admin>
);
```

```

[![Users List](./img/tutorial_users_list.png)](./img/tutorial_users_list.png)

There is no visible change in the browser - except now, the app uses a component that you can customize.

The main component of the users list is a `

` component, responsible for grabbing the information from the API, displaying the page title, and handling pagination. This component then delegates the display of the actual list of users to its child. In this case, that's a `` component, which renders a table with one row for each record. The Datagrid uses its child components (here, a list of `` and ``) to determine the columns to render. Each Field component maps a different field in the API response, specified by the `source` prop.

The `ListGuesser` created one column for every field in the response. That's a bit too much for a usable grid, so let's remove a couple `` from the Datagrid and see the effect:

```

```diff
// in src/users.js
import * as React from "react";
import { List, Datagrid, TextField, EmailField } from 'react-admin';

export const UserList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">

```

```

 <TextField source="id" />
 <TextField source="name" />
- <TextField source="username" />
 <EmailField source="email" />
- <TextField source="address.street" />
 <TextField source="phone" />
 <TextField source="website" />
 <TextField source="company.name" />
 </Datagrid>
</List>
);
...

```

[[Users List](./img/tutorial\_users\_list\_selected\_columns.png)](./img/tutorial\_users\_list\_selected\_columns.png)

What you've just done reflects the early stages of development with react-admin: let the guesser do the job, select only the fields you want, and start customizing types.

### ## Using Field Types

You've just met the `<TextField>` and the `<EmailField>` components. React-admin provides [many more Field components](./Fields.md), mapping various data types: number, date, image, HTML, array, reference, etc.

For instance, the `website` field looks like a URL. Instead of displaying it as text, why not display it using a clickable link? That's exactly what the `<UrlField>` does:

```

```diff
// in src/users.js
import * as React from "react";
- import { List, Datagrid, TextField, EmailField } from 'react-admin';
+ import { List, Datagrid, TextField, EmailField, UrlField } from 'react-admin';

export const UserList = props => (
  <List {...props}>
    <Datagrid rowClick="edit">
      <TextField source="id" />
      <TextField source="name" />
      <EmailField source="email" />
      <TextField source="phone" />
-     <TextField source="website" />
+     <UrlField source="website" />
      <TextField source="company.name" />
    </Datagrid>
  </List>
);
...

```

[[Url Field](./img/tutorial_url_field.png)](./img/tutorial_url_field.png)

In react-admin, fields are simple React components. At runtime, they grab the `record` fetched from the API (e.g. `{ "id": 2, "name": "Ervin Howell", "website": "anastasia.net", ... }`) with a custom hook, and use the `source` field (e.g. `website`) to get the value they should display (e.g. "anastasia.net").

That means that writing a custom Field component is really straightforward. For instance, here is a simplified version of the `UrlField`:

```
```jsx
// in src/MyUrlField.js
import * as React from "react";
import { useRecordContext } from 'react-admin';

const MyUrlField = ({ source }) => {
 const record = useRecordContext();
 return record ? (

 {record[source]}

) : null;
}

export default MyUrlField;
```
```

You can use this component in ``<UserList>``, instead of react-admin's ``<UrlField>`` component, and it will work just the same.

```
```diff
// in src/users.js
import * as React from "react";
-import { List, Datagrid, TextField, EmailField, UrlField } from 'react-admin';
+import { List, Datagrid, TextField, EmailField } from 'react-admin';
+import MyUrlField from './MyUrlField';

export const UserList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <TextField source="id" />
 <TextField source="name" />
 <EmailField source="email" />
 <TextField source="phone" />
 - <UrlField source="website" />
 + <MyUrlField source="website" />
 <TextField source="company.name" />
 </Datagrid>
 </List>
);
```
```

...

Yes, you can replace any of react-admin's components with your own! That means react-admin never blocks you: if one react-admin component doesn't perfectly suit your needs, you can easily swap it with your own version.

Customizing Styles

The `MyUrlField` component is a perfect opportunity to illustrate how to customize styles. React-admin relies on [material-ui](https://v4.mui.com/), a set of React components modeled after Google's [Material Design UI Guidelines](https://material.io/). Material-ui uses [JSS](https://github.com/cssinjs/jss), a CSS-in-JS solution, for styling components. Let's take advantage of the capabilities of JSS to remove the underline from the link and add an icon:

```
```jsx
// in src/MyUrlField.js
import * as React from "react";
import { useRecordContext } from 'react-admin';
import { makeStyles } from '@material-ui/core/styles';
import LaunchIcon from '@material-ui/icons/Launch';

const useStyles = makeStyles({
 link: {
 textDecoration: 'none',
 },
 icon: {
 width: '0.5em',
 height: '0.5em',
 paddingLeft: 2,
 },
});

const MyUrlField = ({ source }) => {
 const record = useRecordContext();
 const classes = useStyles();
 return record ? (

 {record[source]}
 <LaunchIcon className={classes.icon} />

) : null;
}

export default MyUrlField;
```
```

[![Custom styles](./img/tutorial_custom_styles.png)](./img/tutorial_custom_styles.png)

In JSS, you define styles as a JavaScript object, using the JS variants of the CSS property names (e.g.

`textDecoration`` instead of `text-decoration``). To pass these styles to the component, use `makeStyles`` to build a React hook. The hook will create new class names for these styles, and return the new class names in the `classes`` object. Then, use these names in a `className`` prop, as you would with a regular CSS class.

****Tip**:** There is much more to JSS than what this tutorial covers. Read the [material-ui documentation](https://v4.mui.com/styles/basics) to learn more about theming, vendor prefixes, responsive utilities, etc.

****Tip**:** Material-ui supports other CSS-in-JS solutions, including [Styled components](https://v4.mui.com/styles/basics/#styled-components-api).

Handling Relationships

In JSONPlaceholder, each `post`` record includes a `userId`` field, which points to a `user``:

```
```json
{
 "id": 1,
 "title": "sunt aut facere repellat provident occaecati excepturi optio reprehenderit",
 "body": "quia et suscipit\nsuscipit recusandae consequuntur expedita et cum\nreprehenderit molestiae ut ut quas totam\nnostrum rerum est autem sunt rem eveniet architecto",
 "userId": 1
}
```
```

React-admin knows how to take advantage of these foreign keys to fetch references. Let's see how the `ListGuesser`` manages them by creating a new `<Resource>` for the `/posts`` API endpoint:

```
```diff
// in src/App.js
import * as React from "react";
-import { Admin, Resource } from 'react-admin';
+import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';
import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
+ <Resource name="posts" list={ListGuesser} />
 <Resource name="users" list={UserList} />
 </Admin>
);

export default App;
```
```

[![Guessed Post List](./img/tutorial_guessed_post_list.png)](./img/tutorial_guessed_post_list.png)

The `ListGuesser` suggests using a `` for the `userId` field. Let's play with this new field by creating the `PostList` component based on the code dumped by the guesser:

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, ReferenceField } from 'react-admin';

export const PostList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <ReferenceField source="userId" reference="users">
 <TextField source="id" />
 </ReferenceField>
 <TextField source="id" />
 <TextField source="title" />
 <TextField source="body" />
 </Datagrid>
 </List>
);
```
```

```
```diff
// in src/App.js
-import { Admin, Resource, ListGuesser } from 'react-admin';
+import { Admin, Resource } from 'react-admin';
+import { PostList } from './posts';
import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
- <Resource name="posts" list={ListGuesser} />
+ <Resource name="posts" list={PostList} />
 <Resource name="users" list={UserList} />
 </Admin>
);
```
```

When displaying the posts list, the app displays the `id` of the post author as a ``. This `id` field doesn't mean much, let's use the user `name` instead:

```
```diff
// in src/posts.js
export const PostList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <ReferenceField source="userId" reference="users">
- <TextField source="id" />

```

```

+ <TextField source="name" />
+ </ReferenceField>
+ <TextField source="id" />
+ <TextField source="title" />
+ <TextField source="body" />
+ </Datagrid>
+ </List>
+);
+ ...

```

The post list now displays the user names on each line.

[![Post List With User Names](./img/tutorial\_list\_user\_name.png)](./img/tutorial\_list\_user\_name.png)

**Tip:** The `<ReferenceField>` component alone doesn't display anything. It just fetches the reference data, and passes it as a `record` to its child component (a `<TextField>` in our case). Just like the `<List>` component, all `<Reference>` components are only responsible for fetching and preparing data, and delegate rendering to their children.

**Tip:** Look at the network tab of your browser again: react-admin deduplicates requests for users, and aggregates them in order to make only *one* HTTP request to the `/users` endpoint for the whole Datagrid. That's one of many optimizations that keep the UI fast and responsive.

To finish the post list, place the post `id` field as first column, and remove the `body` field. From a UX point of view, fields containing large chunks of text should not appear in a Datagrid, only in detail views. Also, to make the Edit action stand out, let's replace the `rowClick` action by an explicit action button:

```

diff
// in src/posts.js
import * as React from "react";
-import { List, Datagrid, TextField, ReferenceField } from 'react-admin';
+import { List, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = props => (
 <List {...props}>
- <Datagrid rowClick="edit">
+ <Datagrid>
+ <TextField source="id" />
+ <ReferenceField source="userId" reference="users">
+ <TextField source="name" />
+ </ReferenceField>
- <TextField source="id" />
- <TextField source="title" />
- <TextField source="body" />
+ <EditButton />
+ </Datagrid>
 </List>
);

```

...

[![Post List With Less Columns](./img/tutorial\_post\_list\_less\_columns.png)](./img/tutorial\_post\_list\_less\_columns.png)

## ## Adding Creation and Editing Capabilities

An admin interface isn't just about displaying remote data, it should also allow editing records. React-admin provides an `` components for that purpose ; let's use the `` to help bootstrap it.

```
```diff
// in src/App.js
-import { Admin, Resource } from 'react-admin';
+import { Admin, Resource, EditGuesser } from 'react-admin';
import { PostList } from './posts';
import { UserList } from './users';

const App = () => (
  <Admin dataProvider={dataProvider}>
-   <Resource name="posts" list={PostList} />
+   <Resource name="posts" list={PostList} edit={EditGuesser} />
    <Resource name="users" list={UserList} />
  </Admin>
);
```
```

[![Post Edit Guesser](./img/tutorial\_edit\_guesser.gif)](./img/tutorial\_edit\_guesser.gif)

Users can display the edit page just by clicking on the Edit button. The form rendered is already functional; it issues `PUT` requests to the REST API upon submission.

Copy the `PostEdit` code dumped by the guesser in the console to the `posts.js` file so that you can customize the view. Don't forget to `import` the new components from react-admin:

```
```jsx
// in src/posts.js
import * as React from "react";
import {
  List,
  Datagrid,
  TextField,
  ReferenceField,
  EditButton,
  Edit,
  SimpleForm,
  ReferenceInput,
  SelectInput,
  TextInput,

```

```

} from 'react-admin';

export const PostList = props => (
  { /* ... */ }
);

export const PostEdit = props => (
  <Edit {...props}>
    <SimpleForm>
      <ReferenceInput source="userId" reference="users">
        <SelectInput optionText="id" />
      </ReferenceInput>
      <TextInput source="id" />
      <TextInput source="title" />
      <TextInput source="body" />
    </SimpleForm>
  </Edit>
);
...

```

You can now adjust the `PostEdit` component to disable the edition of the primary key (`id`), place it first, use the user `name` instead of the user `id` in the reference, and use a longer text input for the `body` field, as follows:

```

```diff
// in src/posts.js
export const PostEdit = props => (
 <Edit {...props}>
 <SimpleForm>
+ <TextInput disabled source="id" />
 <ReferenceInput source="userId" reference="users">
- <SelectInput optionText="id" />
+ <SelectInput optionText="name" />
 </ReferenceInput>
- <TextInput source="id" />
 <TextInput source="title" />
- <TextInput source="body" />
+ <TextInput multiline source="body" />
 </SimpleForm>
 </Edit>
);
...

```

If you've understood the `<List>` component, the `<Edit>` component will be no surprise. It's responsible for fetching the record, and displaying the page title. It passes the record down to the `<SimpleForm>` component, which is responsible for the form layout, default values, and validation. Just like `<Datagrid>`, `<SimpleForm>` uses its children to determine the form inputs to display. It expects *input components* as children. `<TextInput>`, `<ReferenceInput>`, and `<SelectInput>` are such inputs.

The `<ReferenceInput>` takes the same props as the `<ReferenceField>` (used earlier in the `PostList` page). `<ReferenceInput>` uses these props to fetch the API for possible references related to the current record (in this case, possible `users` for the current `post`). It then passes these possible references to the child component (`<SelectInput>`), which is responsible for displaying them (via their `name` in that case), and letting the user select one. `<SelectInput>` renders as a `<select>` tag in HTML.

Before you can use that custom component in the `App.js`, copy the `PostEdit` component into a `PostCreate`, and replace `Edit` by `Create`:

```
```diff
// in src/posts.js
import * as React from "react";
import {
  List,
  Datagrid,
  TextField,
  ReferenceField,
  EditButton,
  Edit,
+ Create,
  SimpleForm,
  ReferenceInput,
  SelectInput,
  TextInput,
} from 'react-admin';

export const PostList = props => (
  // ...
);

export const PostEdit = props => (
  // ...
);

+export const PostCreate = props => (
+ <Create {...props}>
+   <SimpleForm>
+     <ReferenceInput source="userId" reference="users">
+       <SelectInput optionText="name" />
+     </ReferenceInput>
+     <TextInput source="title" />
+     <TextInput multiline source="body" />
+   </SimpleForm>
+ </Create>
+);
```
```

**\*\*Tip\*\*:** The `<PostEdit>` and the `<PostCreate>` components use almost the same child form, except for the

additional `id` input in `` . In most cases, the forms for creating and editing a record are a bit different, because most APIs create primary keys server-side. But if the forms are the same, you can share a common form component in `` and `` .

To use the new `` and `` components in the posts resource, just add them as `edit` and `create` attributes in the `

```
```diff
// in src/App.js
-import { Admin, Resource, EditGuesser } from 'react-admin';
+import { Admin, Resource } from 'react-admin';
-import { PostList } from './posts';
+import { PostList, PostEdit, PostCreate } from './posts';
import { UserList } from './users';

const App = () => (
  <Admin dataProvider={dataProvider}>
-   <Resource name="posts" list={PostList} edit={EditGuesser} />
+   <Resource name="posts" list={PostList} edit={PostEdit} create={PostCreate} />
    <Resource name="users" list={UserList} />
  </Admin>
);
```
```

[![Post Creation](./img/tutorial\_post\_create.gif)](./img/tutorial\_post\_create.gif)

React-admin automatically adds a "create" button on top of the posts list to give access to the `` component. And the creation form works ; it issues a `POST` request to the REST API upon submission.

### ## Optimistic Rendering And Undo

Unfortunately, JSONPlaceholder is a read-only API; although it seems to accept `POST` and `PUT` requests, it doesn't take into account the creations and edits - that's why, in this particular case, you will see errors after creation, and you won't see your edits after you save them. It's just an artifact of JSONPlaceholder.

But then, how come the newly created post appears in the list just after creation in the screencast above?

That's because react-admin uses *optimistic rendering* . When a user edits a record and hits the "Save" button, the UI shows a confirmation and displays the updated data *before sending the update query to server* . The main benefit is that UI changes are immediate - no need to wait for the server response. It's a great comfort for users.

But there is an additional benefit: it also allows the "Undo" feature. Undo is already functional in the admin at that point. Try editing a record, then hit the "Undo" link in the black confirmation box before it slides out. You'll see that the app does not send the `UPDATE` query to the API, and displays the non-modified data.

[![Undo Post Editing](./img/tutorial\_post\_edit\_undo.gif)](./img/tutorial\_post\_edit\_undo.gif)

Even though updates appear immediately due to Optimistic Rendering, React-admin only sends them to the server

after a short delay (about 5 seconds). During this delay, the user can undo the action, and react-admin will never send the update.

Optimistic Rendering and Undo require no specific code on the API side - react-admin handles them purely on the client-side. That means that you'll get them for free with your own API!

**Note:** When you add the ability to edit an item, you also add the ability to delete it. The "Delete" button in the edit view is fully working out of the box - and it is also "Undo"-able .

The post editing page has a slight problem: it uses the post id as main title (the text displayed in the top bar). Let's customize the view title with a title component:

```
```diff
// in src/posts.js
+const PostTitle = ({ record }) => {
+  return <span>Post {record ? ``"${record.title}"`` : ""}</span>;
+};

export const PostEdit = props => (
- <Edit {...props}>
+ <Edit title={<PostTitle />} {...props}>
  // ...
  </Edit>
);
```
```

[!Post Edit Title](./img/tutorial\_post\_title.png)(./img/tutorial\_post\_title.png)

### ## Adding Search And Filters To The List

Let's get back to the post list for a minute. It offers sorting and pagination, but one feature is missing: the ability to search content.

React-admin can use Input components to create a multi-criteria search engine in the list view. Pass an array of such Input components to the List `filters` prop to enable filtering:

```
```jsx
// in src/posts.js
import { ReferenceInput, SelectInput, TextInput, List } from 'react-admin';

const postFilters = [
  <TextInput source="q" label="Search" alwaysOn />,
  <ReferenceInput source="userId" label="User" reference="users" allowEmpty>
    <SelectInput optionText="name" />
  </ReferenceInput>,
];

export const PostList = (props) => (
```

```

<List filters={postFilters} {...props}>
  // ...
</List>
);
...

```

The first filter, 'q', takes advantage of a full-text functionality offered by JSONPlaceholder. It is `alwaysOn`, so it always appears on the screen. Users can add the second filter, `userId`, thanks to the "add filter" button, located on the top of the list. As it's a ``, it's already populated with possible users.

[![posts search engine](./img/filters.gif)](./img/filters.gif)

Filters are "search-as-you-type", meaning that when the user enters new values in the filter form, the list refreshes (via an API request) immediately.

****Tip**:** Note that the `label` property can be used on any field to customize the field label.

Customizing the Menu Icons

The sidebar menu shows the same icon for both posts and users. Customizing the menu icon is just a matter of passing an `icon` attribute to each ``:

```

```jsx
// in src/App.js
import PostIcon from '@material-ui/icons/Book';
import UserIcon from '@material-ui/icons/Group';

const App = () => (
 <Admin dataProvider={dataProvider}>
 <Resource name="posts" list={PostList} edit={PostEdit} create={PostCreate} icon={PostIcon} />
 <Resource name="users" list={UserList} icon={UserIcon} />
 </Admin>
);
...

```

[![custom menu icons](./img/custom-menu.gif)](./img/custom-menu.gif)

### ## Using a Custom Home Page

By default, react-admin displays the list page of the first `Resource` element as home page. If you want to display a custom component instead, pass it in the `dashboard` prop of the `` component.

```

```jsx
// in src/Dashboard.js
import * as React from "react";
import { Card, CardContent, CardHeader } from '@material-ui/core';

export default () => (

```

```

<Card>
  <CardHeader title="Welcome to the administration" />
  <CardContent>Lorem ipsum sic dolor amet...</CardContent>
</Card>
);
...

```

```

```jsx
// in src/App.js
import Dashboard from './Dashboard';

const App = () => (
 <Admin dashboard={Dashboard} dataProvider={dataProvider}>
 // ...
 </Admin>
);
...

```

```
[![Custom home page](./img/dashboard.png)](./img/dashboard.png)
```

## ## Adding a Login Page

Most admin apps require authentication. React-admin can check user credentials before displaying a page, and redirect to a login form when the REST API returns a 403 error code.

\*What\* those credentials are, and \*how\* to get them, are questions that you, as a developer, must answer. React-admin makes no assumption about your authentication strategy (basic auth, OAuth, custom route, etc.), but gives you the ability to plug your logic at the right place - using the `authProvider` object.

For this tutorial, since there is no public authentication API, we can use a fake authentication provider that accepts every login request, and stores the `username` in `localStorage`. Each page change will require that `localStorage` contains a `username` item.

The `authProvider` must expose 5 methods, each returning a `Promise`:

```

```jsx
// in src/authProvider.js
export default {
  // called when the user attempts to log in
  login: ({ username }) => {
    localStorage.setItem('username', username);
    // accept all username/password combinations
    return Promise.resolve();
  },
  // called when the user clicks on the logout button
  logout: () => {
    localStorage.removeItem('username');
    return Promise.resolve();
  }
};

```

```

    },
    // called when the API returns an error
    checkError: ({ status }) => {
      if (status === 401 || status === 403) {
        localStorage.removeItem('username');
        return Promise.reject();
      }
      return Promise.resolve();
    },
    // called when the user navigates to a new location, to check for authentication
    checkAuth: () => {
      return localStorage.getItem('username')
        ? Promise.resolve()
        : Promise.reject();
    },
    // called when the user navigates to a new location, to check for permissions / roles
    getPermissions: () => Promise.resolve(),
  };
  ...

```

****Tip**:** As the `authProvider` calls are asynchronous, you can easily fetch an authentication server in there.

To enable this authentication strategy, pass the client as the `authProvider` prop in the `` component:

```

```jsx
// in src/App.js
import Dashboard from './Dashboard';
import authProvider from './authProvider';

const App = () => (
 <Admin dashboard={Dashboard} authProvider={authProvider} dataProvider={dataProvider}>
 // ...
 </Admin>
);
...

```

Once the app reloads, it's now behind a login form that accepts everyone:

```
[![Login form](./img/login.gif)](./img/login.gif)
```

## ## Supporting Mobile Devices

The react-admin layout is already responsive. Try to resize your browser to see how the sidebar switches to a drawer on smaller screens.

But a responsive layout is not enough to make a responsive app. Datagrid components work well on desktop, but are absolutely not adapted to mobile devices. If your admin must be used on mobile devices, you'll have to provide an alternative component for small screens.

First, you should know that you don't have to use the `` component as `

` child. You can use any other component you like. For instance, the `` component:

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

export const PostList = (props) => (
  <List {...props}>
    <SimpleList
      primaryText={record => record.title}
      secondaryText={record => `${record.views} views`}
      tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
    />
  </List>
);
```
```

[![Mobile post list](./img/tutorial\_mobile\_post\_list.gif)](./img/tutorial\_mobile\_post\_list.gif)

The `` component uses [material-ui's `

` and `` components](<https://v4.mui.com/components/lists>), and expects functions as `primaryText`, `secondaryText`, and `tertiaryText` props.

**Note:** Since JSONRestServer doesn't provide `views` or `published\_at` values for posts, we switched to a custom API for those screenshots in order to demonstrate how to use some of the `SimpleList` component props.

That works fine on mobile, but now the desktop user experience is worse. The best compromise would be to use `` on small screens, and `` on other screens. That's where the `useMediaQuery` hook comes in:

```
```jsx
// in src/posts.js
import * as React from "react";
import { useMediaQuery } from '@material-ui/core';
import { List, SimpleList, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = (props) => {
  const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
  return (
    <List {...props}>
      {isSmall ? (
        <SimpleList
          primaryText={record => record.title}
          secondaryText={record => `${record.views} views`}
          tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
        />
      ) : (
        <Datagrid
          primaryText={record => record.title}
          secondaryText={record => `${record.views} views`}
          tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
        />
      )}
    </List>
  );
};
```
```

```

 />
): (
 <Datagrid>
 <TextField source="id" />
 <ReferenceField label="User" source="userId" reference="users">
 <TextField source="name" />
 </ReferenceField>
 <TextField source="title" />
 <TextField source="body" />
 <EditButton />
 </Datagrid>
)}
</List>
);
}
...

```

This works exactly the way you expect. The lesson here is that react-admin takes care of responsive web design for the layout, but it's your job to use `useMediaQuery()` in pages.

[![Responsive List](./img/responsive-list.gif)](./img/responsive-list.gif)

## ## Connecting To A Real API

Here is the elephant in the room of this tutorial. In real world projects, the dialect of your API (REST? GraphQL? Something else?) won't match the JSONPlaceholder dialect. Writing a Data Provider is probably the first thing you'll have to do to make react-admin work. Depending on your API, this can require a few hours of additional work.

React-admin delegates every data query to a Data Provider object, which acts as an adapter to your API. This makes react-admin capable of mapping any API dialect, using endpoints from several domains, etc.

For instance, let's imagine you have to use the `my.api.url` REST API, which expects the following parameters:

| Action              | Expected API request                                                                                        |
|---------------------|-------------------------------------------------------------------------------------------------------------|
| Get list            | <code>`GET http://my.api.url/posts?sort=["title","ASC"]&amp;range=[0,24]&amp;filter={"title":"bar"}`</code> |
| Get one record      | <code>`GET http://my.api.url/posts/123`</code>                                                              |
| Get several records | <code>`GET http://my.api.url/posts?filter={"id":[123,456,789]}`</code>                                      |
| Get related records | <code>`GET http://my.api.url/posts?filter={"author_id":345}`</code>                                         |
| Create a record     | <code>`POST http://my.api.url/posts`</code>                                                                 |
| Update a record     | <code>`PUT http://my.api.url/posts/123`</code>                                                              |
| Update records      | <code>`PUT http://my.api.url/posts?filter={"id":[123,124,125]}`</code>                                      |
| Delete a record     | <code>`DELETE http://my.api.url/posts/123`</code>                                                           |
| Delete records      | <code>`DELETE http://my.api.url/posts?filter={"id":[123,124,125]}`</code>                                   |

React-admin calls the Data Provider with one method for each of the actions of this list, and expects a Promise in return. These methods are called `getList`, `getOne`, `getMany`, `getManyReference`, `create`, `update`,

`updateMany`, `delete`, and `deleteMany`. It's the Data Provider's job to emit HTTP requests and transform the response into the format expected by react-admin.

The code for a Data Provider for the `my.api.url` API is as follows:

```
``js
import { fetchUtils } from 'react-admin';
import { stringify } from 'query-string';

const apiUrl = 'https://my.api.com/';
const httpClient = fetchUtils.fetchJson;

export default {
 getList: (resource, params) => {
 const { page, perPage } = params.pagination;
 const { field, order } = params.sort;
 const query = {
 sort: JSON.stringify([field, order]),
 range: JSON.stringify([(page - 1) * perPage, page * perPage - 1]),
 filter: JSON.stringify(params.filter),
 };
 const url = `${apiUrl}/${resource}?${stringify(query)}`;

 return httpClient(url).then(({ headers, json }) => ({
 data: json,
 total: parseInt(headers.get('content-range').split('/').pop(), 10),
 }));
 },

 getOne: (resource, params) =>
 httpClient(`${apiUrl}/${resource}/${params.id}`).then(({ json }) => ({
 data: json,
 })),

 getMany: (resource, params) => {
 const query = {
 filter: JSON.stringify({ id: params.ids }),
 };
 const url = `${apiUrl}/${resource}?${stringify(query)}`;
 return httpClient(url).then(({ json }) => ({ data: json }));
 },

 getManyReference: (resource, params) => {
 const { page, perPage } = params.pagination;
 const { field, order } = params.sort;
 const query = {
 sort: JSON.stringify([field, order]),
 range: JSON.stringify([(page - 1) * perPage, page * perPage - 1]),
 };

```

```

 filter: JSON.stringify({
 ...params.filter,
 [params.target]: params.id,
 }),
 });
};
const url = `${apiUrl}/${resource}?${stringify(query)}`;

return httpClient(url).then(({ headers, json }) => ({
 data: json,
 total: parseInt(headers.get('content-range').split('/').pop(), 10),
}));
},

update: (resource, params) =>
 httpClient(`${apiUrl}/${resource}/${params.id}`, {
 method: 'PUT',
 body: JSON.stringify(params.data),
 }).then(({ json }) => ({ data: json })),

updateMany: (resource, params) => {
 const query = {
 filter: JSON.stringify({ id: params.ids }),
 };
 return httpClient(`${apiUrl}/${resource}?${stringify(query)}`, {
 method: 'PUT',
 body: JSON.stringify(params.data),
 }).then(({ json }) => ({ data: json }));
},

create: (resource, params) =>
 httpClient(`${apiUrl}/${resource}`, {
 method: 'POST',
 body: JSON.stringify(params.data),
 }).then(({ json }) => ({
 data: { ...params.data, id: json.id },
 })),

delete: (resource, params) =>
 httpClient(`${apiUrl}/${resource}/${params.id}`, {
 method: 'DELETE',
 }).then(({ json }) => ({ data: json })),

deleteMany: (resource, params) => {
 const query = {
 filter: JSON.stringify({ id: params.ids }),
 };
 return httpClient(`${apiUrl}/${resource}?${stringify(query)}`, {
 method: 'DELETE',
 });
}

```

```
 }).then(({ json }) => ({ data: json }));
 }
};
```
```

****Tip**:** `fetchUtils.fetchJson()` is just a shortcut for `fetch().then(r => r.json())`, plus a control of the HTTP response code to throw an `HTTPError` in case of 4xx or 5xx response. Feel free to use `fetch()` directly if it doesn't suit your needs.

Using this provider instead of the previous `jsonServerProvider` is just a matter of switching a function:

```
```jsx
// in src/app.js
import dataProvider from './dataProvider';

const App = () => (
 <Admin dataProvider={dataProvider}>
 // ...
 </Admin>
);
```
```

Conclusion

React-admin was built with customization in mind. You can replace any react-admin component with a component of your own, for instance to display a custom list layout, or a different edit form for a given resource.

Now that you've completed the tutorial, continue reading the [react-admin documentation](https://marmelab.com/react-admin/Readme.html), and read the [Material UI components documentation](https://v4.mui.com/).

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of,

publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution

notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing

the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:
 1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
 2. moral rights retained by the original author(s) and/or performer(s);
 3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
 4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
 5. rights protecting the extraction, dissemination, use and reuse of data in

- a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
 7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.
2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.
3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

1.1568.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity

exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity,

or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at

<http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to

communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of

the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a

copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct

or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of

this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Mozilla Public License, version 2.0

1. Definitions

1.1. Contributor

means each individual or legal entity that creates, contributes to the
creation of, or owns Covered Software.

1.2. Contributor Version

means the combination of the Contributions of others (if any) used by a
Contributor and that particular Contributors Contribution.

1.3. Contribution

means Covered Software of a particular Contributor.

1.4. Covered Software

means Source Code Form to which the initial Contributor has attached the
notice in Exhibit A, the Executable Form of such Source Code Form, and
Modifications of such Source Code Form, in each case including portions
thereof.

1.5. Incompatible With Secondary Licenses

means

- a. that the initial Contributor has attached the notice described in
Exhibit B to the Covered Software; or
- b. that the Covered Software was made available under the terms of version
1.1 or earlier of the License, but not also under the terms of a
Secondary License.

1.6. Executable Form

means any form of the work other than Source Code Form.

1.7. Larger Work

means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.

1.8. License

means this document.

1.9. Licensable

means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. Modifications

means any of the following:

- a. any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or
- b. any new file in Source Code Form that contains any Covered Software.

1.11. Patent Claims of a Contributor

means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. Secondary License

means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses.

1.13. Source Code Form

means the form of the work preferred for making modifications.

1.14. You (or Your)

means an individual or a legal entity exercising rights under this License. For legal entities, You includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, control means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

- a. under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and
- b. under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

- a. for any code that a Contributor has removed from Covered Software; or
- b. for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or
- c. under Patent Claims infringed by Covered Software in the absence of its

Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

- a. such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by

reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

- b. You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all

distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an as is basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including

negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

10. Versions of the License

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses

If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

Exhibit A - Source Code Form License Notice

This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at <http://mozilla.org/MPL/2.0/>.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

Exhibit B - Incompatible With Secondary Licenses Notice

This Source Code Form is Incompatible With Secondary Licenses, as defined by the Mozilla Public License, v. 2.0.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be

judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

1.1656.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their

Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with

the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2019 Amazon.com, Inc. or its affiliates. All Rights Reserved.

1.1664.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,

including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the

Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the

same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;

5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and

attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright [yyyy] [name of copyright owner]

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not

pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special,

incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

1.1724.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity

exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity,

or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate

as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify

the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include

the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at

<http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

```
# Simple REST Data Provider For React-Admin
```

Simple REST Data Provider for [react-admin](https://github.com/marmelab/react-admin), the frontend framework for building admin applications on top of REST/GraphQL services.

```
[![react-admin-demo](https://marmelab.com/react-admin/img/react-admin-demo-still.png)](https://vimeo.com/268958716)
```

```
## Installation
```

```
```sh
npm install --save ra-data-simple-rest
```
```

```
## REST Dialect
```

This Data Provider fits REST APIs using simple GET parameters for filters and sorting. This is the dialect used for instance in [FakeRest](https://github.com/marmelab/FakeRest).

| Method | API calls |
|---------------------------------|--|
| <code>`getList`</code> | <code>`GET http://my.api.url/posts?sort=["title","ASC"]&range=[0, 24]&filter={"title":"bar"}`</code> |
| <code>`getOne`</code> | <code>`GET http://my.api.url/posts/123`</code> |
| <code>`getMany`</code> | <code>`GET http://my.api.url/posts?filter={"id":[123,456,789]}`</code> |
| <code>`getManyReference`</code> | <code>`GET http://my.api.url/posts?filter={"author_id":345}`</code> |
| <code>`create`</code> | <code>`POST http://my.api.url/posts`</code> |
| <code>`update`</code> | <code>`PUT http://my.api.url/posts/123`</code> |
| <code>`updateMany`</code> | Multiple calls to <code>`PUT http://my.api.url/posts/123`</code> |
| <code>`delete`</code> | <code>`DELETE http://my.api.url/posts/123`</code> |
| <code>`deleteMany`</code> | Multiple calls to <code>`DELETE http://my.api.url/posts/123`</code> |

The API response when called by ``getList`` should look like this:

```
```json
[
 { "id": 0, "author_id": 0, "title": "Anna Karenina" },
 { "id": 1, "author_id": 0, "title": "War and Peace" },
 { "id": 2, "author_id": 1, "title": "Pride and Prejudice" },
 { "id": 2, "author_id": 1, "title": "Pride and Prejudice" },
 { "id": 3, "author_id": 1, "title": "Sense and Sensibility" }
]
```
```

An ``id`` field is required. You can also set [custom identifier or primary key for your resources](https://marmelab.com/react-admin/FAQ.html#can-i-have-custom-identifiersprimary-keys-for-my-resources)

Note: The simple REST data provider expects the API to include a ``Content-Range`` header in the response to ``getList`` calls. The value must be the total number of resources in the collection. This allows react-admin to know how many pages of resources there are in total, and build the pagination controls.

```
```txt
Content-Range: posts 0-24/319
```
```

If your API is on another domain as the JS code, you'll need to whitelist this header with an ``Access-Control-Expose-Headers`` [CORS](https://developer.mozilla.org/en-US/docs/Web/HTTP/Access_control_CORS) header.

```
```txt
Access-Control-Expose-Headers: Content-Range
```
```

Usage

```
```jsx
// in src/App.js
import * as React from "react";
```

```

import { Admin, Resource } from 'react-admin';
import simpleRestProvider from 'ra-data-simple-rest';

import { PostList } from './posts';

const App = () => (
 <Admin dataProvider={simpleRestProvider('http://path.to.my.api/')}>
 <Resource name="posts" list={PostList} />
 </Admin>
);

export default App;
...

```

### ### Adding Custom Headers

The provider function accepts an HTTP client function as second argument. By default, they use react-admin's `fetchUtils.fetchJson()` as HTTP client. It's similar to HTML5 `fetch()`, except it handles JSON decoding and HTTP error codes automatically.

That means that if you need to add custom headers to your requests, you just need to *wrap* the `fetchJson()` call inside your own function:

```

```jsx
import { fetchUtils, Admin, Resource } from 'react-admin';
import simpleRestProvider from 'ra-data-simple-rest';

const httpClient = (url, options = {}) => {
  if (!options.headers) {
    options.headers = new Headers({ Accept: 'application/json' });
  }
  // add your own headers here
  options.headers.set('X-Custom-Header', 'foobar');
  return fetchUtils.fetchJson(url, options);
};

const dataProvider = simpleRestProvider('http://localhost:3000', httpClient);

render(
  <Admin dataProvider={dataProvider} title="Example Admin">
    ...
  </Admin>,
  document.getElementById('root')
);
...

```

Now all the requests to the REST API will contain the `X-Custom-Header: foobar` header.

****Tip**:** The most common usage of custom headers is for authentication. `fetchJson` has built-on support for the

`Authorization` token header:

```
```js
const httpClient = (url, options = {}) => {
 options.user = {
 authenticated: true,
 token: 'SRTRDFVESGNJYTUKTYTHRG'
 };
 return fetchUtils.fetchJson(url, options);
};
```
```

Now all the requests to the REST API will contain the `Authorization: SRTRDFVESGNJYTUKTYTHRG` header.

Note about Content-Range

Historically, Simple REST Data Provider uses the http `Content-Range` header to retrieve the number of items in a collection. But this is a *hack* of the [primary role of this header](https://developer.mozilla.org/en-US/docs/Web/HTTP/Headers/Content-Range).

However this can be problematic, for example within an infrastructure using a Varnish that may use, modify or delete this header. We also have feedback indicating that using this header is problematic when you host your application on [Vercel](https://vercel.com/).

The solution is to use another http header to return the number of collection's items. The other header commonly used for this is `X-Total-Count`. So if you use `X-Total-Count`, you will have to :

* Whitelist this header with an `Access-Control-Expose-Headers` [CORS](https://developer.mozilla.org/en-US/docs/Web/HTTP/Access_control_CORS) header.

```
```
Access-Control-Expose-Headers: X-Total-Count
```
```

* Use the third parameter of `simpleRestProvider` to specify the name of the header to use :

```
```jsx
// in src/App.js
import * as React from "react";
import { Admin, Resource } from 'react-admin';
import { fetchUtils } from 'ra-core';
import simpleRestProvider from 'ra-data-simple-rest';

import { PostList } from './posts';

const App = () => (
 <Admin dataProvider={simpleRestProvider('http://path.to.my.api/', fetchUtils.fetchJson, 'X-Total-Count')}>
 <Resource name="posts" list={PostList} />
 </Admin>
);
```
```

```
</Admin>
```

```
);
```

```
export default App;
```

```
...
```

```

1.1740.1 Available under license :

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and

publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive,

irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all

other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed

as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the

Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

1.1749.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the

outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable

copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and

do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common

control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill,

work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

title: "My First Project Tutorial"

React-Admin Tutorial

This 30 minutes tutorial will expose how to create a new admin app based on an existing REST API.

Setting Up

React-admin uses React. We'll use [create-react-app](<https://github.com/facebookincubator/create-react-app>) to create an empty React app, and install the `react-admin` package:

```
```sh
yarn create react-app test-admin
cd test-admin/
yarn add react-admin ra-data-json-server prop-types
yarn start
```
```

You should be up and running with an empty React application on port 3000.

Using an API As Data Source

React-admin runs in the browser, and relies on data it fetches from APIs.

We'll be using [JSONPlaceholder](https://jsonplaceholder.typicode.com/), a fake REST API designed for testing and prototyping, as the datasource for the application. Here is what it looks like:

```
...
curl https://jsonplaceholder.typicode.com/users/2
...

```json
{
 "id": 2,
 "name": "Ervin Howell",
 "username": "Antonette",
 "email": "Shanna@melissa.tv",
 "address": {
 "street": "Victor Plains",
 "suite": "Suite 879",
 "city": "Wisokyburgh",
 "zipcode": "90566-7771",
 "geo": {
 "lat": "-43.9509",
 "lng": "-34.4618"
 }
 },
 "phone": "010-692-6593 x09125",
 "website": "anastasia.net",
 "company": {
 "name": "Deckow-Crist",
 "catchPhrase": "Proactive didactic contingency",
 "bs": "synergize scalable supply-chains"
 }
}
```
```

JSONPlaceholder provides endpoints for users, posts, and comments. The admin we'll build should allow to Create, Retrieve, Update, and Delete (CRUD) these resources.

Making Contact With The API Using a Data Provider

Bootstrap the admin app by replacing the `src/App.js` by the following code:

```
```jsx
// in src/App.js
import * as React from "react";
```

```
import { Admin } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const dataProvider = jsonServerProvider('https://jsonplaceholder.typicode.com');
const App = () => <Admin dataProvider={dataProvider} />;

export default App;
...

```

That's enough for react-admin to render an empty app and confirm that the setup is done:

The `App` component renders an `<Admin>` component, which is the root component of a react-admin application. This component expects a `dataProvider` prop - a function capable of fetching data from an API. Since there is no standard for data exchanges between computers, you will probably have to write a custom provider to connect react-admin to your own APIs - but we'll dive into Data Providers later. For now, let's take advantage of the `ra-data-json-server` data provider, which speaks the same REST dialect as JSONPlaceholder.

Now it's time to add features!

## ## Mapping API Endpoints With Resources

We'll start by adding a list of users.

The `<Admin>` component expects one or more `<Resource>` child components. Each resource maps a name to an endpoint in the API. Edit the `App.js` file to add a resource named `users`:

```
```diff
// in src/App.js
import * as React from "react";
-import { Admin } from 'react-admin';
+import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const dataProvider = jsonServerProvider('https://jsonplaceholder.typicode.com');
-const App = () => <Admin dataProvider={dataProvider} />;
+const App = () => (
+  <Admin dataProvider={dataProvider}>
+    <Resource name="users" list={ListGuesser} />
+  </Admin>
+);

export default App;
...

```

The line `<Resource name="users" />` informs react-admin to fetch the "users" records from the `https://jsonplaceholder.typicode.com/users` URL. `<Resource>` also

defines the React components to use for each CRUD operation (`list`, `create`, `edit`, and `show`).

The `list={ListGuesser}` prop means that react-admin should use the `` component to display the list of posts. This component *guesses* the format to use for the columns of the list based on the data fetched from the API.

The app can now display a list of users:

If you look at the network tab in the browser developer tools, you'll notice that the application fetched the `https://jsonplaceholder.typicode.com/users` URL, then used the results to build the Datagrid. That's basically how react-admin works.

The list is already functional: you can reorder it by clicking on column headers, or change pages by using the bottom pagination controls. The `ra-data-json-server` data provider translates these actions to a query string that JSONPlaceholder understands.

Selecting Columns

The `` component is not meant to be used in production - it's just a way to quickly bootstrap an admin. That means you'll have to replace the `ListGuesser` component in the `users` resource by a custom React component. Fortunately, `ListGuesser` dumps the code of the list it has guessed to the console:

Let's copy this code, and create a new `UserList` component, in a new file named `users.js`:

```
```jsx
// in src/users.js
import * as React from "react";
import { List, Datagrid, TextField, EmailField } from 'react-admin';

export const UserList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <TextField source="id" />
 <TextField source="name" />
 <TextField source="username" />
 <EmailField source="email" />
 <TextField source="address.street" />
 <TextField source="phone" />
 <TextField source="website" />
 <TextField source="company.name" />
 </Datagrid>
 </List>
);
```
```

Then, edit the `App.js` file to use this new component instead of `ListGuesser`:

```
```diff
// in src/App.js
-import { Admin, Resource, ListGuesser } from 'react-admin';
+import { Admin, Resource } from 'react-admin';
+import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
- <Resource name="users" list={ListGuesser} />
+ <Resource name="users" list={UserList} />
 </Admin>
);
```

[![Users List](./img/tutorial_users_list.png)](./img/tutorial_users_list.png)
```

There is no visible change in the browser - except now, the app uses a component that you can customize.

The main component of the users list is a `

` component, responsible for grabbing the information from the API, displaying the page title, and handling pagination. This component then delegates the display of the actual list of users to its child. In this case, that's a `` component, which renders a table with one row for each record. The Datagrid uses its child components (here, a list of `` and ``) to determine the columns to render. Each Field component maps a different field in the API response, specified by the `source` prop.

The `ListGuesser` created one column for every field in the response. That's a bit too much for a usable grid, so let's remove a couple `` from the Datagrid and see the effect:

```
```diff
// in src/users.js
import * as React from "react";
import { List, Datagrid, TextField, EmailField } from 'react-admin';

export const UserList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <TextField source="id" />
 <TextField source="name" />
- <TextField source="username" />
 <EmailField source="email" />
- <TextField source="address.street" />
 <TextField source="phone" />
 <TextField source="website" />
 <TextField source="company.name" />
 </Datagrid>
 </List>
);
```
```

```
);  
...  

```

What you've just done reflects the early stages of development with react-admin: let the guesser do the job, select only the fields you want, and start customizing types.

Using Field Types

You've just met the `<TextField>` and the `<EmailField>` components. React-admin provides [many more Field components](./Fields.md), mapping various data types: number, date, image, HTML, array, reference, etc.

For instance, the `website` field looks like a URL. Instead of displaying it as text, why not display it using a clickable link? That's exactly what the `<UrlField>` does:

```
```diff  
// in src/users.js
import * as React from "react";
-import { List, Datagrid, TextField, EmailField } from 'react-admin';
+import { List, Datagrid, TextField, EmailField, UrlField } from 'react-admin';

export const UserList = props => (
 <List {...props}>
 <Datagrid rowClick="edit">
 <TextField source="id" />
 <TextField source="name" />
 <EmailField source="email" />
 <TextField source="phone" />
- <TextField source="website" />
+ <UrlField source="website" />
 <TextField source="company.name" />
 </Datagrid>
 </List>
)
);
...

```

In react-admin, fields are simple React components. At runtime, they grab the `record` fetched from the API (e.g. `{ "id": 2, "name": "Ervin Howell", "website": "anastasia.net", ... }`) with a custom hook, and use the `source` field (e.g. `website`) to get the value they should display (e.g. `"anastasia.net"`).

That means that writing a custom Field component is really straightforward. For instance, here is a simplified version of the `UrlField`:

```
```jsx  
// in src/MyUrlField.js  

```

```

import * as React from "react";
import { useRecordContext } from 'react-admin';

const MyUrlField = ({ source }) => {
  const record = useRecordContext();
  return record ? (
    <a href={record[source]}>
      {record[source]}
    </a>
  ) : null;
}

export default MyUrlField;
```

```

You can use this component in ``<UserList>``, instead of react-admin's ``<UrlField>`` component, and it will work just the same.

```

```diff
// in src/users.js
import * as React from "react";
-import { List, Datagrid, TextField, EmailField, UrlField } from 'react-admin';
+import { List, Datagrid, TextField, EmailField } from 'react-admin';
+import MyUrlField from './MyUrlField';

export const UserList = props => (
  <List {...props}>
    <Datagrid rowClick="edit">
      <TextField source="id" />
      <TextField source="name" />
      <EmailField source="email" />
      <TextField source="phone" />
-     <UrlField source="website" />
+     <MyUrlField source="website" />
      <TextField source="company.name" />
    </Datagrid>
  </List>
);
```

```

Yes, you can replace any of react-admin's components with your own! That means react-admin never blocks you: if one react-admin component doesn't perfectly suit your needs, you can easily swap it with your own version.

## ## Customizing Styles

The ``MyUrlField`` component is a perfect opportunity to illustrate how to customize styles. React-admin relies on [material-ui](https://v4.mui.com/), a set of React components modeled after Google's [Material Design UI Guidelines](https://material.io/). Material-ui uses [JSS](https://github.com/cssinjs/jss), a CSS-in-JS solution, for

styling components. Let's take advantage of the capabilities of JSS to remove the underline from the link and add an icon:

```
```jsx
// in src/MyUrlField.js
import * as React from "react";
import { useRecordContext } from 'react-admin';
import { makeStyles } from '@material-ui/core/styles';
import LaunchIcon from '@material-ui/icons/Launch';

const useStyles = makeStyles({
  link: {
    textDecoration: 'none',
  },
  icon: {
    width: '0.5em',
    height: '0.5em',
    paddingLeft: 2,
  },
});

const MyUrlField = ({ source }) => {
  const record = useRecordContext();
  const classes = useStyles();
  return record ? (
    <a href={record[source]} className={classes.link}>
      {record[source]}
      <LaunchIcon className={classes.icon} />
    </a>
  ) : null;
}

export default MyUrlField;
```
```

[![Custom styles](./img/tutorial\_custom\_styles.png)](./img/tutorial\_custom\_styles.png)

In JSS, you define styles as a JavaScript object, using the JS variants of the CSS property names (e.g. `textDecoration` instead of `text-decoration`). To pass these styles to the component, use `makeStyles` to build a React hook. The hook will create new class names for these styles, and return the new class names in the `classes` object. Then, use these names in a `className` prop, as you would with a regular CSS class.

**\*\*Tip\*\*:** There is much more to JSS than what this tutorial covers. Read the [material-ui documentation](https://v4.mui.com/styles/basics) to learn more about theming, vendor prefixes, responsive utilities, etc.

**\*\*Tip\*\*:** Material-ui supports other CSS-in-JS solutions, including [Styled components](https://v4.mui.com/styles/basics/#styled-components-api).

## ## Handling Relationships

In JSONPlaceholder, each `post` record includes a `userId` field, which points to a `user`:

```
```json
{
  "id": 1,
  "title": "sunt aut facere repellat provident occaecati excepturi optio reprehenderit",
  "body": "quia et suscipit\nsuscipit recusandae consequuntur expedita et cum\nreprehenderit molestiae ut ut quas totam\nnostrum rerum est autem sunt rem eveniet architecto",
  "userId": 1
}
```
```

React-admin knows how to take advantage of these foreign keys to fetch references. Let's see how the `ListGuesser` manages them by creating a new `` for the `/posts` API endpoint:

```
```diff
// in src/App.js
import * as React from "react";
-import { Admin, Resource } from 'react-admin';
+import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';
import { UserList } from './users';

const App = () => (
  <Admin dataProvider={dataProvider}>
+   <Resource name="posts" list={ListGuesser} />
   <Resource name="users" list={UserList} />
  </Admin>
);

export default App;
```
```

The `ListGuesser` suggests using a `` for the `userId` field. Let's play with this new field by creating the `PostList` component based on the code dumped by the guesser:

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, ReferenceField } from 'react-admin';

export const PostList = props => (
  <List {...props}>

```

```

    <Datagrid rowClick="edit">
      <ReferenceField source="userId" reference="users">
        <TextField source="id" />
      </ReferenceField>
      <TextField source="id" />
      <TextField source="title" />
      <TextField source="body" />
    </Datagrid>
  </List>
);
...

```diff
// in src/App.js
-import { Admin, Resource, ListGuesser } from 'react-admin';
+import { Admin, Resource } from 'react-admin';
+import { PostList } from './posts';
import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
- <Resource name="posts" list={ListGuesser} />
+ <Resource name="posts" list={PostList} />
 <Resource name="users" list={UserList} />
 </Admin>
);
...

```

When displaying the posts list, the app displays the `id` of the post author as a ``. This `id` field doesn't mean much, let's use the user `name` instead:

```

```diff
// in src/posts.js
export const PostList = props => (
  <List {...props}>
    <Datagrid rowClick="edit">
      <ReferenceField source="userId" reference="users">
-       <TextField source="id" />
+       <TextField source="name" />
      </ReferenceField>
      <TextField source="id" />
      <TextField source="title" />
      <TextField source="body" />
    </Datagrid>
  </List>
);
...

```

The post list now displays the user names on each line.

[![Post List With User Names](./img/tutorial_list_user_name.png)](./img/tutorial_list_user_name.png)

****Tip**:** The `<ReferenceField>` component alone doesn't display anything. It just fetches the reference data, and passes it as a `record` to its child component (a `<TextField>` in our case). Just like the `<List>` component, all `<Reference>` components are only responsible for fetching and preparing data, and delegate rendering to their children.

****Tip**:** Look at the network tab of your browser again: react-admin deduplicates requests for users, and aggregates them in order to make only *one* HTTP request to the `/users` endpoint for the whole Datagrid. That's one of many optimizations that keep the UI fast and responsive.

To finish the post list, place the `id` field as first column, and remove the `body` field. From a UX point of view, fields containing large chunks of text should not appear in a Datagrid, only in detail views. Also, to make the Edit action stand out, let's replace the `rowClick` action by an explicit action button:

```
```diff
// in src/posts.js
import * as React from "react";
-import { List, Datagrid, TextField, ReferenceField } from 'react-admin';
+import { List, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = props => (
 <List {...props}>
- <Datagrid rowClick="edit">
+ <Datagrid>
+ <TextField source="id" />
+ <ReferenceField source="userId" reference="users">
+ <TextField source="name" />
+ </ReferenceField>
- <TextField source="id" />
- <TextField source="title" />
- <TextField source="body" />
+ <EditButton />
+ </Datagrid>
 </List>
);
```
```

[![Post List With Less Columns](./img/tutorial_post_list_less_columns.png)](./img/tutorial_post_list_less_columns.png)

Adding Creation and Editing Capabilities

An admin interface isn't just about displaying remote data, it should also allow editing records. React-admin provides an `<Edit>` components for that purpose ; let's use the `<EditGuesser>` to help bootstrap it.

```

```diff
// in src/App.js
-import { Admin, Resource } from 'react-admin';
+import { Admin, Resource, EditGuesser } from 'react-admin';
import { PostList } from './posts';
import { UserList } from './users';

const App = () => (
 <Admin dataProvider={dataProvider}>
- <Resource name="posts" list={PostList} />
+ <Resource name="posts" list={PostList} edit={EditGuesser} />
 <Resource name="users" list={UserList} />
 </Admin>
);
```

```

[[Post Edit Guesser](./img/tutorial_edit_guesser.gif)](./img/tutorial_edit_guesser.gif)

Users can display the edit page just by clicking on the Edit button. The form rendered is already functional; it issues `PUT` requests to the REST API upon submission.

Copy the `PostEdit` code dumped by the guesser in the console to the `posts.js` file so that you can customize the view. Don't forget to `import` the new components from react-admin:

```

```jsx
// in src/posts.js
import * as React from "react";
import {
 List,
 Datagrid,
 TextField,
 ReferenceField,
 EditButton,
 Edit,
 SimpleForm,
 ReferenceInput,
 SelectInput,
 TextInput,
} from 'react-admin';

export const PostList = props => (
 { /* ... */ }
);

export const PostEdit = props => (
 <Edit {...props}>
 <SimpleForm>
 <ReferenceInput source="userId" reference="users">

```

```

 <SelectInput optionText="id" />
 </ReferenceInput>
 <TextInput source="id" />
 <TextInput source="title" />
 <TextInput source="body" />
 </SimpleForm>
 </Edit>
);
...

```

You can now adjust the `PostEdit` component to disable the edition of the primary key (`id`), place it first, use the user `name` instead of the user `id` in the reference, and use a longer text input for the `body` field, as follows:

```

...diff
// in src/posts.js
export const PostEdit = props => (
 <Edit {...props}>
 <SimpleForm>
+ <TextInput disabled source="id" />
 <ReferenceInput source="userId" reference="users">
- <SelectInput optionText="id" />
+ <SelectInput optionText="name" />
 </ReferenceInput>
- <TextInput source="id" />
 <TextInput source="title" />
- <TextInput source="body" />
+ <TextInput multiline source="body" />
 </SimpleForm>
 </Edit>
);
...

```

If you've understood the `<List>` component, the `<Edit>` component will be no surprise. It's responsible for fetching the record, and displaying the page title. It passes the record down to the `<SimpleForm>` component, which is responsible for the form layout, default values, and validation. Just like `<Datagrid>`, `<SimpleForm>` uses its children to determine the form inputs to display. It expects *input components* as children. `<TextInput>`, `<ReferenceInput>`, and `<SelectInput>` are such inputs.

The `<ReferenceInput>` takes the same props as the `<ReferenceField>` (used earlier in the `PostList` page). `<ReferenceInput>` uses these props to fetch the API for possible references related to the current record (in this case, possible `users` for the current `post`). It then passes these possible references to the child component (`<SelectInput>`), which is responsible for displaying them (via their `name` in that case), and letting the user select one. `<SelectInput>` renders as a `<select>` tag in HTML.

Before you can use that custom component in the `App.js`, copy the `PostEdit` component into a `PostCreate`, and replace `Edit` by `Create`:

```

...diff

```

```

// in src/posts.js
import * as React from "react";
import {
 List,
 Datagrid,
 TextField,
 ReferenceField,
 EditButton,
 Edit,
+ Create,
 SimpleForm,
 ReferenceInput,
 SelectInput,
 TextInput,
} from 'react-admin';

export const PostList = props => (
 // ...
);

export const PostEdit = props => (
 // ...
);

+export const PostCreate = props => (
+ <Create {...props}>
+ <SimpleForm>
+ <ReferenceInput source="userId" reference="users">
+ <SelectInput optionText="name" />
+ </ReferenceInput>
+ <TextInput source="title" />
+ <TextInput multiline source="body" />
+ </SimpleForm>
+ </Create>
+);
+
+

```

**\*\*Tip\*\*:** The `<PostEdit>` and the `<PostCreate>` components use almost the same child form, except for the additional `id` input in `<PostEdit>`. In most cases, the forms for creating and editing a record are a bit different, because most APIs create primary keys server-side. But if the forms are the same, you can share a common form component in `<PostEdit>` and `<PostCreate>`.

To use the new `<PostEdit>` and `<PostCreate>` components in the posts resource, just add them as `edit` and `create` attributes in the `<Resource name="posts">` component:

```

```diff
// in src/App.js
-import { Admin, Resource, EditGuesser } from 'react-admin';

```

```

+import { Admin, Resource } from 'react-admin';
-import { PostList } from './posts';
+import { PostList, PostEdit, PostCreate } from './posts';
import { UserList } from './users';

const App = () => (
  <Admin dataProvider={dataProvider}>
-   <Resource name="posts" list={PostList} edit={EditGuesser} />
+   <Resource name="posts" list={PostList} edit={PostEdit} create={PostCreate} />
    <Resource name="users" list={UserList} />
  </Admin>
);
...

```

[![Post Creation](./img/tutorial_post_create.gif)](./img/tutorial_post_create.gif)

React-admin automatically adds a "create" button on top of the posts list to give access to the `` component. And the creation form works ; it issues a `POST` request to the REST API upon submission.

Optimistic Rendering And Undo

Unfortunately, JSONPlaceholder is a read-only API; although it seems to accept `POST` and `PUT` requests, it doesn't take into account the creations and edits - that's why, in this particular case, you will see errors after creation, and you won't see your edits after you save them. It's just an artifact of JSONPlaceholder.

But then, how come the newly created post appears in the list just after creation in the screencast above?

That's because react-admin uses *optimistic rendering*. When a user edits a record and hits the "Save" button, the UI shows a confirmation and displays the updated data *before sending the update query to server*. The main benefit is that UI changes are immediate - no need to wait for the server response. It's a great comfort for users.

But there is an additional benefit: it also allows the "Undo" feature. Undo is already functional in the admin at that point. Try editing a record, then hit the "Undo" link in the black confirmation box before it slides out. You'll see that the app does not send the `UPDATE` query to the API, and displays the non-modified data.

[![Undo Post Editing](./img/tutorial_post_edit_undo.gif)](./img/tutorial_post_edit_undo.gif)

Even though updates appear immediately due to Optimistic Rendering, React-admin only sends them to the server after a short delay (about 5 seconds). During this delay, the user can undo the action, and react-admin will never send the update.

Optimistic Rendering and Undo require no specific code on the API side - react-admin handles them purely on the client-side. That means that you'll get them for free with your own API!

Note: When you add the ability to edit an item, you also add the ability to delete it. The "Delete" button in the edit view is fully working out of the box - and it is also "Undo"-able .

The post editing page has a slight problem: it uses the post id as main title (the text displayed in the top bar). Let's

customize the view title with a title component:

```
```diff
// in src/posts.js
+const PostTitle = ({ record }) => {
+ return Post {record ? ``"${record.title}"`` : ""};
+};

export const PostEdit = props => (
- <Edit {...props}>
+ <Edit title={<PostTitle />} {...props}>
 // ...
 </Edit>
);
```

[![Post Edit Title](./img/tutorial_post_title.png)](./img/tutorial_post_title.png)
```

Adding Search And Filters To The List

Let's get back to the post list for a minute. It offers sorting and pagination, but one feature is missing: the ability to search content.

React-admin can use Input components to create a multi-criteria search engine in the list view. Pass an array of such Input components to the List `filters` prop to enable filtering:

```
```jsx
// in src/posts.js
import { ReferenceInput, SelectInput, TextInput, List } from 'react-admin';

const postFilters = [
 <TextInput source="q" label="Search" alwaysOn />,
 <ReferenceInput source="userId" label="User" reference="users" allowEmpty>
 <SelectInput optionText="name" />
 </ReferenceInput>,
];

export const PostList = (props) => (
 <List filters={postFilters} {...props}>
 // ...
 </List>
);
```
```

The first filter, 'q', takes advantage of a full-text functionality offered by JSONPlaceholder. It is `alwaysOn`, so it always appears on the screen. Users can add the second filter, `userId`, thanks to the "add filter" button, located on the top of the list. As it's a `<ReferenceInput>`, it's already populated with possible users.

[!posts search engine](./img/filters.gif)(./img/filters.gif)

Filters are "search-as-you-type", meaning that when the user enters new values in the filter form, the list refreshes (via an API request) immediately.

****Tip**:** Note that the `label` property can be used on any field to customize the field label.

Customizing the Menu Icons

The sidebar menu shows the same icon for both posts and users. Customizing the menu icon is just a matter of passing an `icon` attribute to each ``:

```
```jsx
// in src/App.js
import PostIcon from '@material-ui/icons/Book';
import UserIcon from '@material-ui/icons/Group';

const App = () => (
 <Admin dataProvider={dataProvider}>
 <Resource name="posts" list={PostList} edit={PostEdit} create={PostCreate} icon={PostIcon} />
 <Resource name="users" list={UserList} icon={UserIcon} />
 </Admin>
);
```
```

[!custom menu icons](./img/custom-menu.gif)(./img/custom-menu.gif)

Using a Custom Home Page

By default, react-admin displays the list page of the first `Resource` element as home page. If you want to display a custom component instead, pass it in the `dashboard` prop of the `` component.

```
```jsx
// in src/Dashboard.js
import * as React from "react";
import { Card, CardContent, CardHeader } from '@material-ui/core';

export default () => (
 <Card>
 <CardHeader title="Welcome to the administration" />
 <CardContent>Lorem ipsum sic dolor amet...</CardContent>
 </Card>
);
```
```

```
```jsx
// in src/App.js
import Dashboard from './Dashboard';
```

```

const App = () => (
 <Admin dashboard={Dashboard} dataProvider={dataProvider}>
 // ...
 </Admin>
);
...

```

![Custom home page](./img/dashboard.png)(./img/dashboard.png)

## ## Adding a Login Page

Most admin apps require authentication. React-admin can check user credentials before displaying a page, and redirect to a login form when the REST API returns a 403 error code.

\*What\* those credentials are, and \*how\* to get them, are questions that you, as a developer, must answer. React-admin makes no assumption about your authentication strategy (basic auth, OAuth, custom route, etc.), but gives you the ability to plug your logic at the right place - using the `authProvider` object.

For this tutorial, since there is no public authentication API, we can use a fake authentication provider that accepts every login request, and stores the `username` in `localStorage`. Each page change will require that `localStorage` contains a `username` item.

The `authProvider` must expose 5 methods, each returning a `Promise`:

```

```jsx
// in src/authProvider.js
export default {
  // called when the user attempts to log in
  login: ({ username }) => {
    localStorage.setItem('username', username);
    // accept all username/password combinations
    return Promise.resolve();
  },
  // called when the user clicks on the logout button
  logout: () => {
    localStorage.removeItem('username');
    return Promise.resolve();
  },
  // called when the API returns an error
  checkError: ({ status }) => {
    if (status === 401 || status === 403) {
      localStorage.removeItem('username');
      return Promise.reject();
    }
    return Promise.resolve();
  },
  // called when the user navigates to a new location, to check for authentication

```

```

checkAuth: () => {
  return localStorage.getItem('username')
    ? Promise.resolve()
    : Promise.reject();
},
// called when the user navigates to a new location, to check for permissions / roles
getPermissions: () => Promise.resolve(),
};
...

```

****Tip**:** As the `AuthProvider` calls are asynchronous, you can easily fetch an authentication server in there.

To enable this authentication strategy, pass the client as the `AuthProvider` prop in the `` component:

```

```jsx
// in src/App.js
import Dashboard from './Dashboard';
import AuthProvider from './AuthProvider';

const App = () => (
 <Admin dashboard={Dashboard} authProvider={AuthProvider} dataProvider={dataProvider}>
 // ...
 </Admin>
);
...

```

Once the app reloads, it's now behind a login form that accepts everyone:

```

[![Login form](./img/login.gif)](./img/login.gif)

```

### ## Supporting Mobile Devices

The react-admin layout is already responsive. Try to resize your browser to see how the sidebar switches to a drawer on smaller screens.

But a responsive layout is not enough to make a responsive app. Datagrid components work well on desktop, but are absolutely not adapted to mobile devices. If your admin must be used on mobile devices, you'll have to provide an alternative component for small screens.

First, you should know that you don't have to use the `` component as `

` child. You can use any other component you like. For instance, the `` component:

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

export const PostList = (props) => (

```

```

<List {...props}>
  <SimpleList
    primaryText={record => record.title}
    secondaryText={record => `${record.views} views`}
    tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
  />
</List>
);
...

```

[![Mobile post list](./img/tutorial_mobile_post_list.gif)](./img/tutorial_mobile_post_list.gif)

The `<SimpleList>` component uses [material-ui's `<List>` and `<ListItem>` components](https://v4.mui.com/components/lists), and expects functions as `primaryText`, `secondaryText`, and `tertiaryText` props.

Note: Since `JSONRestServer` doesn't provide `views` or `published_at` values for posts, we switched to a custom API for those screenshots in order to demonstrate how to use some of the `SimpleList` component props.

That works fine on mobile, but now the desktop user experience is worse. The best compromise would be to use `<SimpleList>` on small screens, and `<Datagrid>` on other screens. That's where the `useMediaQuery` hook comes in:

```

```.jsx
// in src/posts.js
import * as React from "react";
import { useMediaQuery } from '@material-ui/core';
import { List, SimpleList, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = (props) => {
 const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
 return (
 <List {...props}>
 {isSmall ? (
 <SimpleList
 primaryText={record => record.title}
 secondaryText={record => `${record.views} views`}
 tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
 />
) : (
 <Datagrid>
 <TextField source="id" />
 <ReferenceField label="User" source="userId" reference="users">
 <TextField source="name" />
 </ReferenceField>
 <TextField source="title" />
 <TextField source="body" />
 <EditButton />
 </Datagrid>
)}
 </List>
);
};

```

```

 </Datagrid>
)}
 </List>
);
}
...

```

This works exactly the way you expect. The lesson here is that react-admin takes care of responsive web design for the layout, but it's your job to use `useMediaQuery()` in pages.

[\[Responsive List\]\(./img/responsive-list.gif\)](/img/responsive-list.gif)

## ## Connecting To A Real API

Here is the elephant in the room of this tutorial. In real world projects, the dialect of your API (REST? GraphQL? Something else?) won't match the JSONPlaceholder dialect. Writing a Data Provider is probably the first thing you'll have to do to make react-admin work. Depending on your API, this can require a few hours of additional work.

React-admin delegates every data query to a Data Provider object, which acts as an adapter to your API. This makes react-admin capable of mapping any API dialect, using endpoints from several domains, etc.

For instance, let's imagine you have to use the `my.api.url` REST API, which expects the following parameters:

| Action              | Expected API request                                                                                       |
|---------------------|------------------------------------------------------------------------------------------------------------|
| Get list            | <code>GET http://my.api.url/posts?sort=["title","ASC"]&amp;range=[0, 24]&amp;filter={"title":"bar"}</code> |
| Get one record      | <code>GET http://my.api.url/posts/123</code>                                                               |
| Get several records | <code>GET http://my.api.url/posts?filter={"id":[123,456,789]}</code>                                       |
| Get related records | <code>GET http://my.api.url/posts?filter={"author_id":345}</code>                                          |
| Create a record     | <code>POST http://my.api.url/posts</code>                                                                  |
| Update a record     | <code>PUT http://my.api.url/posts/123</code>                                                               |
| Update records      | <code>PUT http://my.api.url/posts?filter={"id":[123,124,125]}</code>                                       |
| Delete a record     | <code>DELETE http://my.api.url/posts/123</code>                                                            |
| Delete records      | <code>DELETE http://my.api.url/posts?filter={"id":[123,124,125]}</code>                                    |

React-admin calls the Data Provider with one method for each of the actions of this list, and expects a Promise in return. These methods are called `getList`, `getOne`, `getMany`, `getManyReference`, `create`, `update`, `updateMany`, `delete`, and `deleteMany`. It's the Data Provider's job to emit HTTP requests and transform the response into the format expected by react-admin.

The code for a Data Provider for the `my.api.url` API is as follows:

```

```js
import { fetchUtils } from 'react-admin';
import { stringify } from 'query-string';

const apiUrl = 'https://my.api.com/';

```

```

const httpClient = fetchUtils.fetchJson;

export default {
  getList: (resource, params) => {
    const { page, perPage } = params.pagination;
    const { field, order } = params.sort;
    const query = {
      sort: JSON.stringify([field, order]),
      range: JSON.stringify([(page - 1) * perPage, page * perPage - 1]),
      filter: JSON.stringify(params.filter),
    };
    const url = `${apiUrl}/${resource}?${stringify(query)}`;

    return httpClient(url).then(({ headers, json }) => ({
      data: json,
      total: parseInt(headers.get('content-range').split('/').pop(), 10),
    }));
  },

  getOne: (resource, params) =>
    httpClient(`${apiUrl}/${resource}/${params.id}`).then(({ json }) => ({
      data: json,
    })),

  getMany: (resource, params) => {
    const query = {
      filter: JSON.stringify({ id: params.ids }),
    };
    const url = `${apiUrl}/${resource}?${stringify(query)}`;
    return httpClient(url).then(({ json }) => ({ data: json }));
  },

  getManyReference: (resource, params) => {
    const { page, perPage } = params.pagination;
    const { field, order } = params.sort;
    const query = {
      sort: JSON.stringify([field, order]),
      range: JSON.stringify([(page - 1) * perPage, page * perPage - 1]),
      filter: JSON.stringify({
        ...params.filter,
        [params.target]: params.id,
      }),
    };
    const url = `${apiUrl}/${resource}?${stringify(query)}`;

    return httpClient(url).then(({ headers, json }) => ({
      data: json,
      total: parseInt(headers.get('content-range').split('/').pop(), 10),
    }));
  },
};

```

```

    });
  },

  update: (resource, params) =>
    httpClient(`${apiUrl}/${resource}/${params.id}`, {
      method: 'PUT',
      body: JSON.stringify(params.data),
    }).then(({ json }) => ({ data: json })),

  updateMany: (resource, params) => {
    const query = {
      filter: JSON.stringify({ id: params.ids }),
    };
    return httpClient(`${apiUrl}/${resource}?${stringify(query)}`, {
      method: 'PUT',
      body: JSON.stringify(params.data),
    }).then(({ json }) => ({ data: json }));
  },

  create: (resource, params) =>
    httpClient(`${apiUrl}/${resource}`, {
      method: 'POST',
      body: JSON.stringify(params.data),
    }).then(({ json }) => ({
      data: { ...params.data, id: json.id },
    })),

  delete: (resource, params) =>
    httpClient(`${apiUrl}/${resource}/${params.id}`, {
      method: 'DELETE',
    }).then(({ json }) => ({ data: json })),

  deleteMany: (resource, params) => {
    const query = {
      filter: JSON.stringify({ id: params.ids }),
    };
    return httpClient(`${apiUrl}/${resource}?${stringify(query)}`, {
      method: 'DELETE',
    }).then(({ json }) => ({ data: json }));
  }
};
...

```

****Tip**:** `fetchUtils.fetchJson()` is just a shortcut for `fetch().then(r => r.json())`, plus a control of the HTTP response code to throw an `HTTPError` in case of 4xx or 5xx response. Feel free to use `fetch()` directly if it doesn't suit your needs.

Using this provider instead of the previous `jsonServerProvider` is just a matter of switching a function:

```

```jsx
// in src/app.js
import dataProvider from './dataProvider';

const App = () => (
 <Admin dataProvider={dataProvider}>
 // ...
 </Admin>
);
```

```

Conclusion

React-admin was built with customization in mind. You can replace any react-admin component with a component of your own, for instance to display a custom list layout, or a different edit form for a given resource.

Now that you've completed the tutorial, continue reading the [react-admin documentation](https://marmelab.com/react-admin/Readme.html), and read the [Material UI components documentation](https://v4.mui.com/).

layout: default

title: "The List View"

The List View

The List view displays a list of records fetched from the API, and allows users to filter, sort, select, and paginate the records. You can display the list as a Datagrid, a list of images, a calendar, or using a component of your own.

![The List View](./img/list-view.jpg)

The entry point for this view is the `<List>` component, which takes care of fetching the data. Then, it puts that data in a `ListContext` so that it's available for its descendants - usually `<Datagrid>`, which then delegates the rendering of each record property to [`<Field>`](./Fields.md) components.

The `<List>` Component

The `<List>` component fetches the list of records from the data provider, and renders the default list layout (title, buttons, filters, pagination). It delegates the rendering of the list of records to its child component. Usually, it's a `<Datagrid>`, responsible for displaying a table with one row for each record.

Here is the minimal code necessary to display a list of posts using a `<Datagrid>`:

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, DateField, BooleanField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <TextField source="category" />
 <BooleanField source="commentable" />
 </Datagrid>
 </List>
);

// in src/App.js
import * as React from "react";
import { Admin, Resource } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

import { PostList } from './posts';

const App = () => (
 <Admin dataProvider={jsonServerProvider('https://jsonplaceholder.typicode.com')}>
 <Resource name="posts" list={PostList} />
 </Admin>
);

export default App;
```

```

That's enough to display a basic post list, with functional sort and pagination:

![Simple posts list](./img/simple-post-list.png)

Here are all the props accepted by the ``<List>` component:

- * `[actions`](#actions)`
- * `[aside`](#aside-aside-component)`
- * `[bulkActionButtons`](#bulkactionbuttons)`
- * `[component`](#component)`
- * `[empty`](#empty-empty-page-component)`
- * `[exporter`](#exporter)`
- * `[filter`](#filter-permanent-filter)` (the permanent filter used in the REST request)
- * `[filterDefaultValues`](#filterdefaultvalues)` (the default values for `alwaysOn`` filters)

- * [`filters``](#filters-filter-inputs) (a React element used to display the filter form)
- * [`pagination``](#pagination-pagination-component)
- * [`perPage``](#perpage-pagination-size)
- * [`sort``](#sort-default-sort-field--order)
- * [`title``](#title)
- * [`syncWithLocation``](#synchronize-with-url)

`title`

The default title for a list view is "[resource] list" (e.g. "Posts list"). Use the `title`` prop to customize the List view title:

```
```jsx
// in src/posts.js
export const PostList = (props) => (
 <List {...props} title="List of posts">
 ...
 </List>
);
```
```

The title can be either a string or an element of your own.

`actions`

![Actions Toolbar](./img/actions-toolbar.png)

You can replace the list of default actions by your own elements using the `actions`` prop:

```
```jsx
import * as React from 'react';
import { cloneElement } from 'react';
import { List, ListActions, Button, FilterButton } from 'react-admin';
import IconEvent from '@material-ui/icons/Event';

const ListActions = (props) => (
 <TopToolbar>
 <FilterButton/>
 <CreateButton/>
 <ExportButton/>
 { /* Add your custom actions */ }
 <Button
 onClick={() => { alert('Your custom action'); }}
 label="Show calendar"
 >
 <IconEvent/>
 </Button>
 </TopToolbar>
);
```
```

```

);

export const PostList = (props) => (
  <List {...props} actions={<ListActions/>}>
    ...
  </List>
);
...

```

Note that in order to add the `<FilterButton>` component among your custom actions, either the parent `List` must have its `filters` prop set up or you must pass the filters to the button itself.

This allows you to further control how the default actions behave. For example, you could disable the `<ExportButton>` when the list is empty:

```

{% raw %}
```jsx
import * as React from 'react';
import { cloneElement, useMemo } from 'react';
import PropTypes from 'prop-types';
import {
 useListContext,
 TopToolbar,
 CreateButton,
 ExportButton,
 FilterButton,
 Button,
 sanitizeListRestProps
} from 'react-admin';
import IconEvent from '@material-ui/icons/Event';

const ListActions = (props) => {
 const {
 className,
 maxResults,
 ...rest
 } = props;
 const { total } = useListContext();

 return (
 <TopToolbar className={className} {...sanitizeListRestProps(rest)}>
 <FilterButton />
 <CreateButton />
 <ExportButton disabled={total === 0} maxResults={maxResults} />
 { /* Add your custom actions */ }
 <Button
 onClick={() => { alert('Your custom action'); }}
 label="Show calendar"
 >

```

```

 <IconEvent />
 </Button>
 </TopToolbar>
);
};

export const PostList = (props) => (
 <List {...props} actions={<ListActions />}>
 ...
 </List>
);
...
{% endraw %}

```

You can also use such a custom ``<ListActions>`` component to omit or reorder buttons based on permissions. Just pass the `permissions` down from the `List` component:

```

```jsx
export const PostList = ({ permissions, ...props }) => (
  <List {...props} actions={<PostActions permissions={permissions} {...props} />}>
    ...
  </List>
);
...

### `exporter`

```

![[Export Button]](/img/export-button.gif)

Among the default list actions, react-admin includes an ``<ExportButton>``. This button is disabled when there is no record in the current ``<List>``.

By default, clicking this button will:

1. Call the `dataProvider` with the current sort and filter (but without pagination),
2. Transform the result into a CSV string,
3. Download the CSV file.

The columns of the CSV file match all the fields of the records in the `dataProvider` response. That means that the export doesn't take into account the selection and ordering of fields in your ``<List>`` via ``Field`` components. If you want to customize the result, pass a custom `exporter` function to the ``<List>``. This function will receive the data from the `dataProvider` (after step 1) and replace steps 2-3 (i.e. it's in charge of transforming, converting, and downloading the file).

****Tip**:** For CSV conversion, you can import [jsonexport](https://github.com/kauegimenes/jsonexport#browser-import-examples), a CSV to JSON converter which is already a react-admin dependency. And for CSV download, take advantage of react-admin's `downloadCSV` function.

Here is an example for a Posts exporter, omitting, adding, and reordering fields:

```
```jsx
// in PostList.js
import { List, downloadCSV } from 'react-admin';
import jsonExport from 'jsonexport/dist';

const exporter = posts => {
 const postsForExport = posts.map(post => {
 const { backlinks, author, ...postForExport } = post; // omit backlinks and author
 postForExport.author_name = post.author.name; // add a field
 return postForExport;
 });
 jsonExport(postsForExport, {
 headers: ['id', 'title', 'author_name', 'body'] // order fields in the export
 }, (err, csv) => {
 downloadCSV(csv, 'posts'); // download as 'posts.csv` file
 });
};

const PostList = props => (
 <List {...props} exporter={exporter}>
 ...
 </List>
)
```
```

In many cases, you'll need more than simple object manipulation. You'll need to *augment* your objects based on relationships. For instance, the export for comments should include the title of the related post - but the export only exposes a `post_id` by default. For that purpose, the exporter receives a `fetchRelatedRecords` function as the second parameter. It fetches related records using your `dataProvider.getMany()` method and returns a promise.

Here is an example for a Comments exporter, fetching related Posts:

```
```jsx
// in CommentList.js
import { List, downloadCSV } from 'react-admin';
import jsonExport from 'jsonexport/dist';

const exporter = (records, fetchRelatedRecords) => {
 // will call dataProvider.getMany('posts', { ids: records.map(record => record.post_id) }), ignoring duplicate and
 // empty post_id
 fetchRelatedRecords(records, 'post_id', 'posts').then(posts => {
 const data = records.map(record => ({
 ...record,
 post_title: posts[record.post_id].title,
 }));
 jsonExport(data, {

```

```

 headers: ['id', 'post_id', 'post_title', 'body'],
 }, (err, csv) => {
 downloadCSV(csv, 'comments');
 });
});
};

```

```

const CommentList = props => (
 <List {...props} exporter={exporter}>
 ...
 </List>
)
...

```

**\*\*Tip\*\*:** If you need to call another verb in the exporter, take advantage of the third parameter passed to the function: it's the `dataProvider` function.

**\*\*Tip\*\*:** The `<ExportButton>` limits the main request to the `dataProvider` to 1,000 records. If you want to increase or decrease this limit, pass a `maxResults` prop to the `<ExportButton>` in a custom `<ListActions>` component, as explained in the previous section.

**\*\*Tip\*\*:** React-admin also provides a `<BulkExportButton>` component that depends on the `exporter`, and that you can use in the `bulkActionButtons` prop of the `<List>` component.

**\*\*Tip\*\*:** For complex (or large) exports, fetching all the related records and assembling them client-side can be slow. In that case, create the CSV on the server side, and replace the `<ExportButton>` component by a custom one, fetching the CSV route.

**\*\*Tip\*\*:** You may also remove the `<ExportButton>` by passing `false` to the `exporter` prop: `exporter={false}`

**\*\*Tip\*\*:** Looking for an `<ImportButton>`? React-admin doesn't provide this feature, but the community has an excellent third-party module for CSV import: [benwinding/react-admin-import-csv](https://github.com/benwinding/react-admin-import-csv).

### `bulkActionButtons`

![Bulk Action Buttons](./img/bulk-actions-toolbar.gif)

Bulk action buttons are buttons that affect several records at once, like mass deletion for instance. In the `<Datagrid>` component, the bulk actions toolbar appears when a user ticks the checkboxes in the first column of the table. The user can then choose a button from the bulk actions toolbar. By default, all list views have a single bulk action button, the bulk delete button. You can add other bulk action buttons by passing a custom element as the `bulkActionButtons` prop of the `<List>` component:

```

```jsx
import * as React from 'react';
import { Fragment } from 'react';
import Button from '@material-ui/core/Button';

```

```

import { BulkDeleteButton } from 'react-admin';
import ResetViewsButton from './ResetViewsButton';

const PostBulkActionButtons = props => (
  <Fragment>
    <ResetViewsButton label="Reset Views" {...props} />
    { /* default bulk delete action */ }
    <BulkDeleteButton {...props} />
  </Fragment>
);

export const PostList = (props) => (
  <List {...props} bulkActionButtons={ <PostBulkActionButtons /> }>
    ...
  </List>
);
...

```

****Tip**:** React-admin provides three components that you can use in `bulkActionButtons`: `<BulkDeleteButton>`, `<BulkUpdateButton>`, and `<BulkExportButton>`.

****Tip**:** You can also disable bulk actions altogether by passing `false` to the `bulkActionButtons` prop. When using a `Datagrid` inside a `List` with disabled bulk actions, the checkboxes column won't be added.

Bulk action button components receive several props allowing them to perform their job:

- * `resource`: the currently displayed resource (eg `posts`, `comments`, etc.)
- * `basePath`: the current router base path for the resource (eg `/posts`, `/comments`, etc.)
- * `filterValues`: the filter values. This can be useful if you want to apply your action on all items matching the filter.
- * `selectedIds`: the identifiers of the currently selected items.

Here is an example of `BulkUpdateButton` usage, which sets the `views` property of all posts to `0` optimistically:

```

```jsx
// in ./ResetViewsButton.js
import * as React from 'react';
import { VisibilityOff } from '@material-ui/icons';
import { BulkUpdateButton } from 'react-admin';

const views = { views: 0 };

const ResetViewsButton = (props) => (
 <BulkUpdateButton
 {...props}
 label="Reset Views"
 data={views}
 icon={ <VisibilityOff /> }
 />
);

```

```

const [updateMany, { loading }] = useUpdateMany(
 'posts',
 selectedIds,
 { views: 0 },
 {
 onSuccess: () => {
 refresh();
 notify('Posts updated');
 unselectAll('posts');
 },
 onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
 }
);

return (
 <Button
 label="simple.action.resetViews"
 disabled={loading}
 onClick={updateMany}
 >
 <VisibilityOff />
 </Button>
);
};

export default CustomResetViewsButton;
```

```

But most of the time, bulk actions are mini-applications with a standalone user interface (in a Dialog). Here is the same `CustomResetViewsAction` implemented behind a confirmation dialog:

```

```jsx
// in ./CustomResetViewsButton.js
import * as React from 'react';
import { Fragment, useState } from 'react';
import {
 Button,
 Confirm,
 useUpdateMany,
 useRefresh,
 useNotify,
 useUnselectAll,
} from 'react-admin';

const CustomResetViewsButton = ({ selectedIds }) => {
 const [open, setOpen] = useState(false);
 const refresh = useRefresh();
 const notify = useNotify();

```

```

const unselectAll = useUnselectAll();
const [updateMany, { loading }] = useUpdateMany(
 'posts',
 selectedIds,
 { views: 0 },
 {
 onSuccess: () => {
 refresh();
 notify('Posts updated');
 unselectAll('posts');
 },
 onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
 }
);
const handleClick = () => setOpen(true);
const handleDialogClose = () => setOpen(false);

const handleConfirm = () => {
 updateMany();
 setOpen(false);
};

return (
 <Fragment>
 <Button label="Reset Views" onClick={handleClick} />
 <Confirm
 isOpen={open}
 loading={loading}
 title="Update View Count"
 content="Are you sure you want to reset the views for these items?"
 onConfirm={handleConfirm}
 onClose={handleDialogClose}
 />
 </Fragment>
);
}

export default CustomResetViewsButton;
```

```

****Tip**:** `<Confirm>` leverages material-ui's `<Dialog>` component to implement a confirmation popup. Feel free to use it in your admins!

****Tip**:** `<Confirm>` text props such as `title` and `content` are translatable. You can pass translation keys in these props. Note: `content` is only translatable when value is `string`, otherwise it renders the content as a `ReactNode`.

****Tip**:** You can customize the text of the two `<Confirm>` component buttons using the `cancel` and `confirm` props which accept translation keys. You can customize the icons by setting the `ConfirmIcon` and `CancelIcon`

props, which accept a SvgIcon type.

****Tip**:** React-admin doesn't use the `<Confirm>` component internally, because deletes and updates are applied locally immediately, then dispatched to the server after a few seconds, unless the user chooses to undo the modification. That's what we call optimistic rendering. You can do the same for the `ResetViewsButton` by setting `undoable: true` in the last argument of `useUpdateMany()`, as follows:

```
```diff
// in ./CustomResetViewsButton.js
import * as React from "react";
import {
 Button,
 Confirm,
 useUpdateMany,
 useRefresh,
 useNotify,
 useUnselectAll,
} from 'react-admin';
import { VisibilityOff } from '@material-ui/icons';

const CustomResetViewsButton = ({ selectedIds }) => {
 const refresh = useRefresh();
 const notify = useNotify();
 const unselectAll = useUnselectAll();
 const [updateMany, { loading }] = useUpdateMany(
 'posts',
 selectedIds,
 { views: 0 },
 {
 onSuccess: () => {
 refresh();
- notify('Posts updated');
+ notify('Posts updated', { undoable: true }); // the last argument forces the display of 'undo' in the
notification
 unselectAll('posts');
 },
 onFailure: error => notify('Error: posts not updated', { type: 'warning' }),
+ mutationMode: 'undoable'
 }
);

 return (
 <Button
 label="simple.action.resetViews"
 disabled={loading}
 onClick={updateMany}
 >
 <VisibilityOff />
)
}
```

```

 </Button>
);
};
...

```

### ### `filters`: Filter Inputs

![List Filters](./img/list\_filter.gif)

You can add an array of filter Inputs to the List using the `filters` prop:

```

```jsx
const postFilters = [
  <TextInput label="Search" source="q" alwaysOn />,
  <TextInput label="Title" source="title" defaultValue="Hello, World!" />,
];

export const PostList = (props) => (
  <List {...props} filters={postFilters}>
    ...
  </List>
);
...

```

****Tip**:** Don't mix up this `filters` prop, expecting an array of `` elements, with the `filter` props, which expects an object to define permanent filters (see below).

Filter Inputs are regular inputs. `` hides them all by default, except those that have the `alwaysOn` prop.

You can also display filters as a sidebar:

!["<FilterList>` sidebar](./img/filter-sidebar.gif)

For more details about customizing filters, see the [Filtering the List](#filtering-the-list) section.

`filter`: Permanent Filter

You can choose to always filter the list, without letting the user disable this filter - for instance to display only published posts. Write the filter to be passed to the data provider in the `filter` props:

```

{% raw %}
```jsx
// in src/posts.js
export const PostList = (props) => (
 <List {...props} filter={{ is_published: true }}>
 ...
 </List>
);

```

...

```
{% endraw % }
```

The actual filter parameter sent to the data provider is the result of the combination of the *\*user\** filters (the ones set through the ``filters`` component form), and the *\*permanent\** filter. The user cannot override the permanent filters set by way of ``filter``.

### ### ``filterDefaultValues``

To set default values to filters, you can either pass an object literal as the ``filterDefaultValues`` prop of the `<List>` element, or use the ``defaultValue`` prop of any input component.

There is one exception: inputs with ``alwaysOn`` don't accept ``defaultValue``. You have to use the ``filterDefaultValues`` for those.

```
{% raw % }
```

```
```jsx
```

```
// in src/posts.js
```

```
const postFilters = [
```

```
  <TextInput label="Search" source="q" alwaysOn />,
```

```
  <BooleanInput source="is_published" alwaysOn />,
```

```
  <TextInput source="title" defaultValue="Hello, World!" />,
```

```
];
```

```
export const PostList = (props) => (
```

```
  <List {...props} filters={postFilters} filterDefaultValues={{ is_published: true }}>
```

```
    ...
```

```
  </List>
```

```
);
```

```
...
```

```
{% endraw % }
```

****Tip**:** The ``filter`` and ``filterDefaultValues`` props have one key difference: the ``filterDefaultValues`` can be overridden by the user, while the ``filter`` values are always sent to the data provider. Or, to put it otherwise:

```
```js
```

```
const filterSentToDataProvider = { ...filterDefaultValues, ...filterChosenByUser, ...filter };
```

```
...
```

### ### ``perPage``: Pagination Size

By default, the list paginates results by groups of 10. You can override this setting by specifying the ``perPage`` prop:

```
```jsx
```

```
// in src/posts.js
```

```
export const PostList = (props) => (
```

```
  <List {...props} perPage={25}>
```

```
    ...
```

```
</List>
);
...

```

`sort`: Default Sort Field & Order

Pass an object literal as the `sort` prop to determine the default `field` and `order` used for sorting:

```
{% raw %}
```jsx
// in src/posts.js
export const PostList = (props) => (
 <List {...props} sort={{ field: 'published_at', order: 'DESC' }}>
 ...
 </List>
);
...
{% endraw %}

```

`sort` defines the \*default\* sort order ; the list remains sortable by clicking on column headers.

For more details on list sort, see the [Sorting The List](#sorting-the-list) section below.

### ### `pagination`: Pagination Component

The `pagination` prop allows to replace the default pagination controls by your own.

```
```jsx
// in src/MyPagination.js
import { Pagination, List } from 'react-admin';

const PostPagination = props => <Pagination rowsPerPageOptions={[10, 25, 50, 100]} {...props} />;

export const PostList = (props) => (
  <List {...props} pagination={ <PostPagination /> }>
    ...
  </List>
);
...

```

See [Paginating the List](#paginating-the-list) below for details.

`aside`: Aside Component

You may want to display additional information on the side of the list. Use the `aside` prop for that, passing the component of your choice:

```
{% raw %}
```

```

```jsx
const Aside = () => (
 <div style={{ width: 200, margin: '1em' }}>
 <Typography variant="h6">Post details</Typography>
 <Typography variant="body2">
 Posts will only be published once an editor approves them
 </Typography>
 </div>
);

const PostList = props => (
 <List aside={<Aside />} {...props}>
 ...
 </List>
);
```
{% endraw %}

```

The `aside` component can call the `useListContext()` hook to receive the same props as the `List` child component, including the following:

```

* `basePath`,
* `currentSort`,
* `data`,
* `defaultTitle`,
* `filterValues`,
* `ids`,
* `page`,
* `perPage`,
* `resource`,
* `selectedIds`,
* `total`,
* `version`,

```

That means you can display additional details of the current list in the aside component:

```

{% raw %}
```jsx
const Aside = () => {
 const { data, ids } = useListContext();
 return (
 <div style={{ width: 200, margin: '1em' }}>
 <Typography variant="h6">Posts stats</Typography>
 <Typography variant="body2">
 Total views: {ids.map(id => data[id]).reduce((sum, post) => sum + post.views, 0)}
 </Typography>
 </div>
);
};
```

```

```
};  
...  
{% endraw % }
```

`empty`: Empty Page Component

When there is no result, and there is no active filter, and the resource has a create page, react-admin displays a special page inviting the user to create the first record.

You can use the `empty` prop to replace that page by a custom component:

```
{% raw % }  
```jsx  
import Box from '@material-ui/core/Box';
import Button from '@material-ui/core/Button';
import Typography from '@material-ui/core/Typography';
import { CreateButton, List, useListContext } from 'react-admin';

const Empty = () => {
 const { basePath, resource } = useListContext();
 return (
 <Box textAlign="center" m={ 1 }>
 <Typography variant="h4" paragraph>
 No products available
 </Typography>
 <Typography variant="body1">
 Create one or import from a file
 </Typography>
 <CreateButton basePath={basePath} />
 <Button onClick={/* ... */}>Import</Button>
 </Box>
);
};

const ProductList = props => (
 <List empty={ <Empty /> } {...props}>
 ...
 </List>
);
...
{% endraw % }
```

The `empty` component can call the `useListContext()` hook to receive the same props as the `List` child component, including the following:

- `basePath`,
- `currentSort`,
- `data`,

- `defaultTitle`,
- `filterValues`,
- `ids`,
- `page`,
- `perPage`,
- `resource`,
- `selectedIds`,
- `total`,
- `version`,

You can also set the `empty` props value to `false` to bypass the empty page display and render an empty list instead.

```

...
import { List } from 'react-admin';

const ProductList = props => (
 <List empty={false} {...props}>
 ...
 </List>
);
...

```

### `component`

By default, the List view renders the main content area inside a material-ui `` element. The actual layout of the list depends on the child component you're using (`<Datagrid>`, `

Some List layouts display each record in a ``, in which case the user ends up seeing a card inside a card, which is bad UI. To avoid that, you can override the main area container by passing a `component` prop:

```

```jsx
// use a div as root component
const PostList = props => (
  <List component="div" {...props}>
    ...
  </List>
);

// use a custom component as root component
const PostList = props => (
  <List component={MyComponent} {...props}>
    ...
  </List>
);
...

```

The default value for the `component` prop is `Card`.

Synchronize With URL

When a `<List>` based component (eg: `<PostList>`) is passed as a `<Resource list>`, react-admin synchronizes its parameters (sort, pagination, filters) with the query string in the URL (using `react-router` location`). It does so by setting the `<List syncWithLocation>` prop by default.

When you use a `<List>` component anywhere else than as `<Resource list>`, `syncWithLocation` isn't enabled`, and so `<List>` doesn't synchronize its parameters with the URL - the `<List>` parameters are kept in a local state, independent for each `<List>` instance. This allows to have multiple lists on a single page. The drawback is that a hit on the "back" button doesn't restore the previous list parameters.

You may, however, wish to enable `syncWithLocation` on a <List>` component that is not a <Resource list>`. For instance, you may want to display a <List>` of Posts in a Dashboard, and allow users to use the "back" button to undo a sort, pagination, or filter change on that list. In such cases, set the syncWithLocation` prop to true`:`

```
{% raw %}
```jsx
const Dashboard = () => (
 <div>
 // ...
 <ResourceContextProvider value="posts">
 <List syncWithLocation basePath="/posts" >
 <SimpleList
 primaryText={record => record.title}
 secondaryText={record => `${record.views} views`}
 tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
 />
 </List>
 </ResourceContextProvider>
 </div>
)
```
{% endraw %}
```

CSS API

The `List` component accepts the usual className` prop but you can override many class names injected to the inner components by React-admin thanks to the classes` property (as most Material UI components, see their [documentation about it](https://v4.mui.com/customization/components/#overriding-styles-with-classes)). This property accepts the following keys:`

| Rule name | Description |
|------------------------|---|
| <code>`root`</code> | Alternative to using <code>className`. Applied to the root element</code> |
| <code>`actions`</code> | Applied to the actions container |
| <code>`main`</code> | Applied to the main container |
| <code>`content`</code> | Applied to the child component inside the main container |

| `bulkActionsDisplayed` | Applied to the child component inside the main container when there are selected records
|
| `noResults` | Applied to the component shown when there is no result |

You can customize the `

` styles by passing a `classes` object as prop, through `useStyles()`. Here is an example:

```
{% raw %}  
```jsx  
import * as React from 'react';
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles({
 actions: {
 backgroundColor: '#ccc',
 },
});

const PostList = props => {
 const classes = useStyles(props);
 return (
 <List {...props} classes={{ actions: classes.actions }}>
 <Datagrid>
 ...
 </Datagrid>
 </List>
);
}

export default PostList;
```  
{% endraw %}
```

****Tip**:** The `List` component `classes` can also be customized for all instances of the component with its global css name `"RaList"` as [describe here](https://marmelab.com/blog/2019/12/18/react-admin-3-1.html#theme-overrides)

Filtering The List

```
<table><tbody><tr style="border:none">  
<td style="width:50%;border:none;">  
<a title="Filter Button/Form Combo" href="/img/list_filter.gif"></a>  
</td>  
<td style="width:50%;border:none;">  
<a title="<FilterList> Sidebar" href="/img/filter-sidebar.gif"></a>  
</td>  
</tr></tbody></table>
```

One of the most important features of the List page is the ability to filter the results. React-admin does its best to offer a powerful filter functionality, and to get out of the way when you want to go further.

The next sections explain how to use the filter functionality. And first, a few explanations about the inner workings of filters:

- [Filter Query Parameter](#filter-query-parameter)
- [Linking To A Pre-Filtered List](#linking-to-a-pre-filtered-list)

React-admin proposes several UI components to let users see and modify filters, and gives you the tools to build custom ones.

- The Filter Button/Form Combo
 - [Usage](#the-filter-buttonform-combo)
 - [Full-Text Search](#full-text-search)
 - [Quick Filters](#quick-filters)
- The `<FilterList>` Sidebar
 - [Usage](#the-filterlist-sidebar)
 - [Full-Text Search](#live-search)
- [Saved Queries: Let Users Save Filter And Sort](#saved-queries-let-users-save-filter-and-sort)
- [Building A Custom Filter](#building-a-custom-filter)

Filter Query Parameter

React-admin uses the `filter` query parameter from the URL to determine the filters to apply to the list. To change the filters, react-admin simply changes this `filter` query parameter, and the `<List>` components fetches `dataProvider.getList()` again with the new filters.

Here is a typical List URL:

```
>  
https://myadmin.dev/#/posts?displayedFilters=%7B%22commentable%22%3Atrue%7D&filter=%7B%22commentable%22%3Atrue%2C%22q%22%3A%22lorem%20%22%7D&order=DESC&page=1&perPage=10&sort=published_at
```

Once decoded, the `filter` query parameter reveals as a JSON value:

```
...  
filter={"commentable":true,"q":"lorem "}  
...
```

You can change the filters by updating the query parameter, e.g. using the `<Link>` component or the `history.push()` method from `react-router`.

****Tip****: Once a user sets a filter, react-admin persists the filter value in the application state, so that when the user comes back to the list, they should see the filtered list. That's a design choice.

Linking To A Pre-Filtered List

As the filter values are taken from the URL, you can link to a pre-filtered list by setting the `filter` query parameter.

For instance, if you have a list of tags, you can display a button for each category to link to the list of posts filtered by that tag:

```
{% raw %}
```jsx
import * as React from "react";
import Button from '@material-ui/core/Button';
import { Link } from 'react-router-dom';

const LinkToRelatedProducts = ({ record }) => {
 const translate = useTranslate();
 return record ? (
 <Button
 color="primary"
 component={Link}
 to={{
 pathname: '/posts',
 search: `filter=${JSON.stringify({ category_id: record.id })}`,
 }}
 >
 All posts with the category {record.name} ;
 </Button>
) : null;
};
...
{% endraw %}
```

You can use this button e.g. as a child of ``<Datagrid>`. You can also create a custom Menu button with that technique to link to the unfiltered list by setting the filter value to `{}`.

### ### The Filter Button/Form Combo

![List Filters](./img/list\_filter.gif)

The default appearance for filters is an inline form displayed on top of the list. Users also see a dropdown button allowing to add more inputs to that form. This functionality relies on the `filters` prop:

```
```jsx
import { TextInput } from 'react-admin';

const postFilters = [
  <TextInput label="Search" source="q" alwaysOn />,
  <TextInput label="Title" source="title" defaultValue="Hello, World!" />,
];
...
```
```

Elements of the `filters` array are regular inputs. That means you can build sophisticated filters based on references, array values, etc. `

` hides all inputs in the filter form by default, except those that have the `alwaysOn` prop.

**\*\*Tip\*\*:** For technical reasons, react-admin does not accept Filter inputs having both a `defaultValue` and `alwaysOn`. To set default values for always on filters, use the [`filterDefaultValues`](#filterdefaultvalues) prop of the `

` component instead.

To inject the filter form in a `

`, use the `filters` prop:

```
```jsx
export const PostList = (props) => (
  <List {...props} filters={postFilters}>
    ...
  </List>
);
```
```

`<List>` uses the elements passed as `filters` twice:

- once to render the filter *form*
- once to render the filter *button* (using each element `label`, falling back to the humanized `source`)

#### #### Full-Text Search

(./img/search\_input.gif)

In addition to [the usual input types](./Inputs.md) (`<TextInput>`, ``, which is designed especially for the filter form. It's like a `` with a magnifier glass icon - exactly the type of input users look for when they want to do a full-text search.

```
```jsx
import { SearchInput, TextInput } from 'react-admin';

const postFilters = [
  <SearchInput source="q" alwaysOn />
];
```
```

In the example given above, the `q` filter triggers a full-text search on all fields. It's your responsibility to implement the full-text filtering capabilities in your `dataProvider`, or in your API.

#### #### Quick Filters

(./img/quick\_filters.gif)

Users usually dislike using their keyboard to filter a list (especially on mobile). A good way to satisfy this user requirement is to turn filters into *quick filter*. A Quick filter is a filter with a non-editable `defaultValue`. Users

can only enable or disable them.

Here is how to implement a generic ``<QuickFilter>`` component:

```
```jsx
import { SearchInput } from 'react-admin';
import { makeStyles, Chip } from '@material-ui/core';

const useQuickFilterStyles = makeStyles(theme => ({
  chip: {
    marginBottom: theme.spacing(1),
  },
}));

const QuickFilter = ({ label }) => {
  const translate = useTranslate();
  const classes = useQuickFilterStyles();
  return <Chip className={classes.chip} label={translate(label)} />;
};

const postFilters = [
  <SearchInput source="q" alwaysOn />,
  <QuickFilter source="commentable" label="Commentable" defaultValue={true} />,
  <QuickFilter source="views_lte" label="Low views" defaultValue={150} />,
  <QuickFilter source="tags" label="Tagged Code" defaultValue={[3]} />,
];
```
```

**\*\*Tip\*\*:** It's currently not possible to use two quick filters for the same source.

### The ``<FilterList>`` Sidebar

![Filter Sidebar](./img/filter-sidebar.gif)

An alternative UI to the Filter Button/Form Combo is the FilterList Sidebar. Similar to what users usually see on e-commerce websites, it's a panel with many simple filters that can be enabled and combined using the mouse. The user experience is better than the Button/Form Combo, because the filter values are explicit, and it doesn't require typing anything in a form. But it's a bit less powerful, as only filters with a finite set of values (or intervals) can be used in the ``<FilterList>``.

#### Basic usage

The ``<FilterList>`` component expects a list of ``<FilterListItem>`` as children. Each ``<FilterListItem>`` defines a filter `label` and a `value`, which is merged with the current filter value when enabled by the user. Here is an example usage for a list of customers:

```
{% raw %}
```jsx
import * as React from 'react';
```

```

import AccessTimeIcon from '@material-ui/icons/AccessTime';
import MonetizationOnIcon from '@material-ui/icons/MonetizationOnOutlined';
import MailIcon from '@material-ui/icons/MailOutline';
import LocalOfferIcon from '@material-ui/icons/LocalOfferOutlined';
import { FilterList, FilterListItem } from 'react-admin';
import {
  endOfYesterday,
  startOfWeek,
  subWeeks,
  startOfMonth,
  subMonths,
} from 'date-fns';

```

```

import segments from '../segments/data';

```

```

const LastVisitedFilter = () => (
  <FilterList label="Last visited" icon={<AccessTimeIcon />}>
    <FilterListItem
      label="Today"
      value={{
        last_seen_gte: endOfYesterday().toISOString(),
        last_seen_lte: undefined,
      }}
    />
    <FilterListItem
      label="This week"
      value={{
        last_seen_gte: startOfWeek(new Date()).toISOString(),
        last_seen_lte: undefined,
      }}
    />
    <FilterListItem
      label="Last week"
      value={{
        last_seen_gte: subWeeks(startOfWeek(new Date()), 1).toISOString(),
        last_seen_lte: startOfWeek(new Date()).toISOString(),
      }}
    />
    <FilterListItem
      label="This month"
      value={{
        last_seen_gte: startOfMonth(new Date()).toISOString(),
        last_seen_lte: undefined,
      }}
    />
    <FilterListItem
      label="Last month"
      value={{

```

```

        last_seen_gte: subMonths(startOfMonth(new Date()),1).toISOString(),
        last_seen_lte: startOfMonth(new Date()).toISOString(),
    }}
</>
<FilterListItem
  label="Earlier"
  value={{
    last_seen_gte: undefined,
    last_seen_lte: subMonths(startOfMonth(new Date()),1).toISOString(),
  }}
/>
</FilterList>
);
const HasOrderedFilter = () => (
  <FilterList
    label="Has ordered"
    icon={<MonetizationOnIcon />}
  >
    <FilterListItem
      label="True"
      value={{
        nb_commands_gte: 1,
        nb_commands_lte: undefined,
      }}
    />
    <FilterListItem
      label="False"
      value={{
        nb_commands_gte: undefined,
        nb_commands_lte: 0,
      }}
    />
  </FilterList>
);
const HasNewsletterFilter = () => (
  <FilterList
    label="Has newsletter"
    icon={<MailIcon />}
  >
    <FilterListItem
      label="True"
      value={{ has_newsletter: true }}
    />
    <FilterListItem
      label="False"
      value={{ has_newsletter: false }}
    />
  </FilterList>
);

```

```

);
const SegmentFilter = () => (
  <FilterList
    label="Segment"
    icon={<LocalOfferIcon />}
  >
    {segments.map(segment => (
      <FilterListItem
        label={segment.name}
        key={segment.id}
        value={{ groups: segment.id }}
      />
    ))}
  </FilterList>
);
...
{% endraw %}

```

Placing Filters In A Sidebar

You can place these `<FilterList>` anywhere inside a `<List>`. The most common case is to put them in a sidebar that is on the left-hand side of the `Datagrid`. You can use the `aside` property for that:

```

```jsx
import * as React from 'react';
import { Card as MuiCard, CardContent, withStyles } from '@material-ui/core';

import { LastVisitedFilter, HasOrderedFilter, HasNewsletterFilter, SegmentFilter } from './filters';

const Card = withStyles(theme => ({
 root: {
 [theme.breakpoints.up('sm')]: {
 order: -1, // display on the left rather than on the right of the list
 width: '15em',
 marginRight: '1em',
 },
 [theme.breakpoints.down('sm')]: {
 display: 'none',
 },
 },
}))(MuiCard);

const FilterSidebar = () => (
 <Card>
 <CardContent>
 <LastVisitedFilter />
 <HasOrderedFilter />
 <HasNewsletterFilter />

```

```

 <SegmentFilter />
 </CardContent>
</Card>
);

const CustomerList = props => (
 <List aside={<FilterSidebar />}>
 // ...
 </List>
)
...

```

**\*\*Tip\*\*:** The `<FilterList>` Sidebar is not a good UI for small screens. You can choose to hide it on small screens (as in the previous example). A good tradeoff is to use `<FilterList>` on large screens, and the Filter Button/Form combo on Mobile.

#### #### Live Search

![Filter Live Search](./img/filter-live-search.gif)

The filter sidebar is not a form. Therefore, if your users need to enter complex filters, you'll have to recreate a filter form using react-final-form (see the [Building a custom filter](#building-a-custom-filter) section below for an example). However, if you only need one text input with a filter-as-you-type behavior, you'll find the `<FilterLiveSearch>` component convenient.

It outputs a form containing a single `<SearchInput>`, which modifies the page filter on change. That's usually what users expect for a full-text filter. `<FilterLiveSearch>` only needs a `source` field.

So for instance, to add a search filter on the customer full name, add the following line to the Sidebar:

```

```diff
+import { FilterLiveSearch } from 'react-admin';

const FilterSidebar = () => (
  <Card>
    <CardContent>
+    <FilterLiveSearch source="full_name" />
    <LastVisitedFilter />
    <HasOrderedFilter />
    <HasNewsletterFilter />
    <SegmentFilter />
  </CardContent>
</Card>
);
...

```

Saved Queries: Let Users Save Filter And Sort

[![Saved Queries in FilterList](https://marmelab.com/ra-enterprise/modules/assets/ra-preferences-SavedQueriesList.gif)](https://marmelab.com/ra-enterprise/modules/assets/ra-preferences-SavedQueriesList.gif)

Saved Queries are an [Enterprise Edition](https://marmelab.com/ra-enterprise) feature letting users save a combination of filters and sort parameters into a new, personal filter. Saved queries persist between sessions, so users can find their custom queries even after closing and reopening the admin. Saved queries are available both for the Filter Button/Form combo and for the `<FilterList>` Sidebar:

- `<FilterWithSave>` is a drop-in replacement for react-admin's `<Filter>` component

```
``diff
import {
- Filter,
  SelectInput,
  DateInput,
  List,
  Datagrid,
  TextField,
  NumberField,
  DateField
} from 'react-admin';
+import { FilterWithSave } from '@react-admin/ra-preferences';

const SongFilter = props => (
- <Filter {...props}>
+ <FilterWithSave {...props}>
  <SelectInput
    choices=[
      { id: 'Apple', name: 'Apple' },
      { id: 'Atlantic', name: 'Atlantic' },
      { id: 'Capitol', name: 'Capitol' },
      { id: 'Chess', name: 'Chess' },
      { id: 'Columbia', name: 'Columbia' },
      { id: 'DGC', name: 'DGC' },
      { id: 'London', name: 'London' },
      { id: 'Tamla', name: 'Tamla' },
    ]
    source="recordCompany"
  />
  <DateInput source="released_gte" label="Released after" />
  <DateInput source="released_lte" label="Released before" />
- </Filter>
+ </FilterWithSave>
);

const SongList = props => (
  <List {...props} filters={<SongFilter />}>
```

```

    <Datagrid rowClick="edit">
      <TextField source="title" />
      <TextField source="artist" />
      <TextField source="writer" />
      <TextField source="producer" />
      <TextField source="recordCompany" />
      <NumberField source="rank" />
      <DateField source="released" />
    </Datagrid>
  </List>
);
...

```

- `<SavedFilterList>` is a complement to `<FilterList>` sections for the filter sidebar

```

...diff
import { FilterList, FilterListItem, List, Datagrid } from 'react-admin';
import { Card, CardContent } from '@material-ui/core';

+import { SavedQueriesList } from '@react-admin/ra-preferences';

const SongFilterSidebar = () => (
  <Card>
    <CardContent>
+    <SavedQueriesList />
    <FilterList label="Record Company" icon={ <BusinessIcon /> }>
      ...
    </FilterList>
    <FilterList label="Released" icon={ <DateRangeIcon /> }>
      ...
    </FilterList>
    </CardContent>
  </Card>
);

const SongList = props => (
  <List { ...props } aside={ <SongFilterSidebar /> }>
    <Datagrid>
      ...
    </Datagrid>
  </List>
);
...

```

For more details about Saved Queries, check the [ra-preferences` module](<https://marmelab.com/react-admin/enterprise/modules/ra-preferences#savedquerieslist-and-filterwithsave-store-user-queries-in-preferences>) in React-Admin Enterprise Edition.

Building a Custom Filter

![Filters with submit button](./img/filter_with_submit.gif)

If neither the Filter button/form combo nor the `<FilterList>` sidebar match your need, you can always build your own. React-admin provides shortcuts to facilitate the development of custom filters.

For instance, by default, the filter button/form combo doesn't provide a submit button, and submits automatically after the user has finished interacting with the form. This provides a smooth user experience, but for some APIs, it can cause too many calls.

In that case, the solution is to process the filter when users click on a submit button, rather than when they type values in form inputs. React-admin doesn't provide any component for that, but it's a good opportunity to illustrate the internals of the filter functionality. We'll actually provide an alternative implementation to the Filter button/form combo.

To create a custom filter UI, we'll have to override the default List Actions component, which will contain both a Filter Button and a Filter Form, interacting with the List filters via the ListContext.

Filter Callbacks

The new element can use the `useListContext()` hook to interact with the URI query parameter more easily. The hook returns the following constants:

- `filterValues`: Value of the filters based on the URI, e.g. `{ "commentable": true, "q": "lorem " }`
- `setFilters()`: Callback to set the filter values, e.g. `setFilters({ "commentable": true })`
- `displayedFilters`: Names of the filters displayed in the form, e.g. `['commentable', 'title']`
- `showFilter()`: Callback to display an additional filter in the form, e.g. `showFilter('views')`
- `hideFilter()`: Callback to hide a filter in the form, e.g. `hideFilter('title')`

Let's use this knowledge to write a custom `<List>` component that filters on submit.

Custom Filter Button

The `<PostFilterButton>` shows the filter form on click. We'll take advantage of the `showFilter` function:

```
``jsx
import { useListContext } from 'react-admin';
import { Button } from "@material-ui/core";
import ContentFilter from "@material-ui/icons/FilterList";

const PostFilterButton = () => {
  const { showFilter } = useListContext();
  return (
    <Button
      size="small"
      color="primary"
      onClick={() => showFilter("main")}
    />
  )
}
```

```

        startIcon={<ContentFilter />}
      >
        Filter
      </Button>
    );
  };
  ...

```

Normally, `showFilter()` adds one input to the `displayedFilters` list. As the filter form will be entirely hidden or shown, we use `showFilter()` with a virtual "main" input, which represents the entire form.

Custom Filter Form

Next is the filter form component, displayed only when the "main" filter is displayed (i.e. when a user has clicked the filter button). The form inputs appear directly in the form, and the form submission triggers the `setFilters()` callback passed as parameter. We'll use `react-final-form` to handle the form state:

```

{% raw %}
```jsx
import * as React from 'react';
import { Form } from 'react-final-form';
import { Box, Button, InputAdornment } from '@material-ui/core';
import SearchIcon from '@material-ui/icons/Search';
import { TextInput, NullableBooleanInput, useListContext } from 'react-admin';

const PostFilterForm = () => {
 const {
 displayedFilters,
 filterValues,
 setFilters,
 hideFilter
 } = useListContext();

 if (!displayedFilters.main) return null;

 const onSubmit = (values) => {
 if (Object.keys(values).length > 0) {
 setFilters(values);
 } else {
 hideFilter("main");
 }
 };

 const resetFilter = () => {
 setFilters({}, []);
 };

 return (

```

```

<div>
 <Form onSubmit={onSubmit} initialValues={filterValues}>
 {{{ handleSubmit }} => (
 <form onSubmit={handleSubmit}>
 <Box display="flex" alignItems="flex-end" mb={1}>
 <Box component="span" mr={2}>
 /* Full-text search filter. We don't use <SearchFilter> to force a large form input */
 <TextInput
 resettable
 helperText={false}
 source="q"
 label="Search"
 InputProps={{
 endAdornment: (
 <InputAdornment>
 <SearchIcon color="disabled" />
 </InputAdornment>
)
 }}
 />
 </Box>
 <Box component="span" mr={2}>
 /* Commentable filter */
 <NullableBooleanInput helperText={false} source="commentable" />
 </Box>
 <Box component="span" mr={2} mb={1.5}>
 <Button variant="outlined" color="primary" type="submit">
 Filter
 </Button>
 </Box>
 <Box component="span" mb={1.5}>
 <Button variant="outlined" onClick={resetFilter}>
 Close
 </Button>
 </Box>
 </form>
)}
 </Form>
 </div>
);
};
...
{% endraw %}

```

#### #### Using The Custom Filters in The List Actions

To finish, create a ``<ListAction>`` component and pass it to the ``<List>`` component using the `actions` prop:

```

```jsx
import { TopToolbar, ExportButton } from 'react-admin';
import { Box } from '@material-ui/core';

const ListActions = () => (
  <Box width="100%">
    <TopToolbar>
      <PostFilterButton />
      <ExportButton />
    </TopToolbar>
    <PostFilterForm />
  </Box>
);

export const PostList = (props) => (
  <List {...props} actions={<ListActions />}>
    ...
  </List>
);
```

```

**\*\*Tip\*\*:** No need to pass any `filters` to the list anymore, as the `` component will display them.

You can use a similar approach to offer alternative User Experiences for data filtering, e.g. to display the filters as a line in the datagrid headers.

### ### Global Search

Although list filters allow to make precise queries using per-field criteria, users often prefer simpler interfaces like full-text search. After all, that's what they use every day on search engines, email clients, and in their file explorer.

If you want to display a full-text search allowing to look for any record in the admin using a single form input, check out [\[ra-search\]](https://marmelab.com/ra-enterprise/modules/ra-search)(https://marmelab.com/ra-enterprise/modules/ra-search), an [\[Enterprise Edition\]](https://marmelab.com/ra-enterprise)(https://marmelab.com/ra-enterprise)  module.

![[ra-search basic]](https://marmelab.com/ra-enterprise/modules/assets/ra-search-overview.gif)

`ra-search` can plug to any existing search engine (ElasticSearch, Lucene, or custom search engine), and lets you customize the search results to provide quick navigation to related items, turning the search engine into an "Omnibox":

![[ra-search demo]](https://marmelab.com/ra-enterprise/modules/assets/ra-search-demo.gif)

For more details about the global search, check the [\[ra-search` module\]](https://marmelab.com/ra-enterprise/modules/ra-search)(https://marmelab.com/ra-enterprise/modules/ra-search) in React-Admin Enterprise Edition.

### ## Sorting The List

```

<table><tbody><tr style="border:none">
<td style="width:55%;border:none;">
<a title="<Datagrid> column sort" href="/img/sort-column-header.gif">
</td>
<td style="width:45%;border:none;">
<a title="<SortButton> Component" href="/img/sort-button.gif">
</td>
</tr></tbody></table>

```

React-admin does its best to offer a powerful sort functionality, and to get out of the way when you want to go further.

The next sections explain how to use the sort functionality. And first, a few explanations about the inner workings of sorting in react-admin:

- [Sort Query Parameter](#sort-query-parameter)
- [Linking To A Pre-Sorted List](#linking-to-a-pre-sorted-list)

React-admin proposes several UI components to let users see and modify sort parameters, and gives you the tools to build custom ones.

- The ``<Datagrid>` Column Headers
  - [Usage](#using-datagrid-headers-to-modify-list-sort)
  - [Disabling Sorting](#disabling-sorting)
  - [Specifying A Sort Field](#specifying-a-sort-field)
  - [Specifying The Sort Order](#specifying-the-sort-order)
- The ``<SortButton>` Component
  - [Usage](#the-sortbutton-component)
  - [Building A Custom Sort Control](#building-a-custom-sort-control)

### ### Sort Query Parameter

Just like for the filters, the List view uses the `sort` and `order` query parameters to determine the sort field and order passed to `dataProvider.getList`.

Here is a typical List URL:

```

>
https://myadmin.dev/#/posts?displayedFilters=%7B%22commentable%22%3Atrue%7D&filter=%7B%22commentable%22%3Atrue%2C%22q%22%3A%22lorem%20%22%7D&order=DESC&page=1&perPage=10&sort=published_at

```

Once decoded, this URL reveals the intended sort:

```

...
sort=published_at

```

```
order=DESC
...

```

### ### Linking to a Pre-Sorted List

As the sort values are taken from the URL, you can link to a pre-sorted list by setting the `sort` and `order` query parameters.

For instance, if you have a list of posts ordered by publication date, and you want to provide a button to sort the list by number of views descendent:

```
{% raw %}
```jsx
import * as React from "react";
import Button from '@material-ui/core/Button';
import { Link } from 'react-router-dom';
import { stringify } from 'query-string';

const SortByViews = () => (
  <Button
    color="primary"
    component={Link}
    to={{
      pathname: '/posts',
      search: stringify({
        page: 1,
        perPage: 25,
        sort: 'nb_views',
        order: 'DESC',
        filter: {}
      })
    }}
  >
    Sort by views
  </Button>
);
...
{% endraw %}

```

****Tip**:** You have to pass **all** the query string parameters - not just `sort` and `order`. That's a current limitation of react-admin.

Using Datagrid Headers To Modify List Sort

![Sort Column Header](./img/sort-column-header.gif)

If you're using a `` inside the List view, then the column headers are buttons allowing users to change the list sort field and order. This feature requires no configuration and works out of the box. The next sections explain

how you can disable or modify the field used for sorting on a particular column.

Disabling Sorting

It is possible to disable sorting for a specific `` by passing a `sortable` property set to `false`:

```
{% raw %}
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <TextField source="id" sortable={false} />
 <TextField source="title" />
 <TextField source="body" />
 </Datagrid>
 </List>
);
```
{% endraw %}
```

Specifying A Sort Field

By default, a column is sorted by the `source` property. To define another attribute to sort by, set it via the `` property:

```
{% raw %}
```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <ReferenceField label="Post" source="id" reference="posts" sortBy="title">
 <TextField source="title" />
 </ReferenceField>
 <FunctionField
 label="Author"
 sortBy="last_name"
 render={record => `${record.author.first_name} ${record.author.last_name}`}
 />
 <TextField source="body" />
 </Datagrid>
 </List>
);
```
{% endraw %}
```

```

    </List>
  );
  ...

  {% endraw %}

```

Specifying The Sort Order

By default, when the user clicks on a column header, the list becomes sorted in the ascending order. You change this behavior by setting the `sortByOrder` prop to `"DESC"` in a `<Datagrid>` `<Field>`:

```

```jsx
// in src/posts.js
import * as React from 'react';
import { List, Datagrid, TextField } from 'react-admin';

export const PostList = (props) => (
 <List {...props}>
 <Datagrid>
 <ReferenceField label="Post" source="id" reference="posts" sortByOrder="DESC">
 <TextField source="title" />
 </ReferenceField>
 <FunctionField
 label="Author"
 sortBy="last_name"
 sortByOrder="DESC"
 render={record => `${record.author.first_name} ${record.author.last_name}`}
 />
 <TextField source="body" />
 </Datagrid>
 </List>
);
...

```

### ### The `<SortButton>` Component

!<Sort Button>(/img/sort-button.gif)

Some List views don't have a natural UI for sorting - e.g. the `<SimpleList>`, or a list of images, don't have column headers like the `<Datagrid>`. For these cases, react-admin offers the `<SortButton>`, which displays a dropdown list of fields that the user can choose to sort on.

`<SortButton>` expects one prop: `fields`, the list of fields it should allow to sort on. For instance, here is how to offer a button to sort on the `reference`, `sales`, and `stock` fields:

```

```jsx
import * as React from 'react';
import { TopToolbar, SortButton, CreateButton, ExportButton } from 'react-admin';

```

```

const ListActions = () => (
  <TopToolbar>
    <SortButton fields={['reference', 'sales', 'stock']} />
    <CreateButton basePath="/products" />
    <ExportButton />
  </TopToolbar>
);
...

```

Building a Custom Sort Control

When neither the `<Datagrid>` or the `<SortButton>` fit your UI needs, you have to write a custom sort control. As with custom filters, this boils down to grabbing the required data and callbacks from the `ListContext`. Let's use the `<SortButton>` source as an example usage of `currentSort` and `setSort`:

```

```jsx
import * as React from 'react';
import { Button, Menu, MenuItem, Tooltip, IconButton } from '@material-ui/core';
import SortIcon from '@material-ui/icons/Sort';
import ArrowDropDownIcon from '@material-ui/icons/ArrowDropDown';
import { useListSortContext, useTranslate } from 'react-admin';

const SortButton = ({ fields }) => {
 // currentSort is an object { field, order } containing the current sort
 // setSort is a callback (field, order) => void allowing to change the sort field and order
 const { currentSort, setSort } = useListSortContext();
 // rely on the translations to display labels like 'Sort by sales descending'
 const translate = useTranslate();
 // open/closed state for dropdown
 const [anchorEl, setAnchorEl] = React.useState(null);

 // mouse handlers
 const handleClick = (event) => {
 setAnchorEl(event.currentTarget);
 };
 const handleClose = () => {
 setAnchorEl(null);
 };
 const handleChangeSort = (event) => {
 const field = event.currentTarget.dataset.sort;
 setSort(
 field,
 field === currentSort.field
 ? inverseOrder(currentSort.order)
 : 'ASC'
);
 setAnchorEl(null);
 };
};

```

```

// English stranslation is 'Sort by %{field} %{order}'
const buttonLabel = translate('ra.sort.sort_by', {
 field: translate(`resources.products.fields.${currentSort.field}`),
 order: translate(`ra.sort.${currentSort.order}`),
});

return (<>
 <Button
 aria-controls="simple-menu"
 aria-haspopup="true"
 color="primary"
 onClick={handleClick}
 startIcon={<SortIcon />}
 endIcon={<ArrowDropDownIcon />}
 size="small"
 >
 {buttonLabel}
 </Button>
 <Menu
 id="simple-menu"
 anchorEl={anchorEl}
 keepMounted
 open={Boolean(anchorEl)}
 onClose={handleClose}
 >
 {fields.map(field => (
 <MenuItem
 onClick={handleChangeSort}
 // store the sort field in the element dataset to avoid creating a new click handler for each item (better for
performance)
 data-sort={field}
 key={field}
 >
 {translate(`resources.products.fields.${field}`)}{' '}
 {translate(
 `ra.sort.${
 currentSort.field === field
 ? inverseOrder(currentSort.order)
 : 'ASC'
 }`
)}
 </MenuItem>
))}
 </Menu>
</>);
};

```

If you want to replace the default pagination by a "<previous - next>" pagination, create a pagination component like the following:

```
```jsx
import { useListContext } from 'react-admin';
import { Button, Toolbar } from '@material-ui/core';
import ChevronLeft from '@material-ui/icons/ChevronLeft';
import ChevronRight from '@material-ui/icons/ChevronRight';

const PostPagination = () => {
  const { page, perPage, total, setPage } = useListContext();
  const nbPages = Math.ceil(total / perPage) || 1;
  return (
    nbPages > 1 &&
    <Toolbar>
      {page > 1 &&
        <Button color="primary" key="prev" onClick={() => setPage(page - 1)}>
          <ChevronLeft />
          Prev
        </Button>
      }
      {page !== nbPages &&
        <Button color="primary" key="next" onClick={() => setPage(page + 1)}>
          Next
          <ChevronRight />
        </Button>
      }
    </Toolbar>
  );
}

export const PostList = (props) => (
  <List {...props} pagination={<PostPagination />}>
    ...
  </List>
);
```
```

But if you just want to change the color property of the pagination button, you can extend the existing components:

```
```jsx
import {
  List,
  Pagination as RaPagination,
  PaginationActions as RaPaginationActions,
} from 'react-admin';
```

```

export const PaginationActions = props => <RaPaginationActions {...props} color="secondary" />;

export const Pagination = props => <RaPagination {...props} ActionsComponent={PaginationActions} />;

export const UserList = props => (
  <List {...props} pagination={<Pagination />} >
    //...
  </List>
);
...

```

The `<ListGuesser>` Component

Instead of a custom `List`, you can use the `ListGuesser` to determine which fields to use based on the data returned by the API.

```

```jsx
// in src/App.js
import * as React from "react";
import { Admin, Resource, ListGuesser } from 'react-admin';
import jsonServerProvider from 'ra-data-json-server';

const App = () => (
 <Admin dataProvider={jsonServerProvider('https://jsonplaceholder.typicode.com')}>
 <Resource name="posts" list={ListGuesser} />
 </Admin>
);
...

```

Just like `<List>`, `<ListGuesser>` fetches the data. It then analyzes the response, and guesses the fields it should use to display a basic `<Datagrid>` with the data. It also dumps the components it has guessed in the console, so you can copy it into your own code. Use this feature to quickly bootstrap a `<List>` on top of an existing API, without adding the fields one by one.

![Guessed List](./img/guessed-list.png)

React-admin provides guessers for the List view (`<ListGuesser>`), the Edit view ([`<EditGuesser>`](./CreateEdit.md#the-editguesser-component)), and the Show view ([`<ShowGuesser>`](./Show.md#the-showguesser-component)).

**\*\*Tip\*\*:** Do not use the guessers in production. They are slower than manually-defined components, because they have to infer types based on the content. Besides, the guessers are not always perfect.

### ## The `<ListBase>` Component

In addition to fetching the list data, the `<List>` component renders the page title, the actions, the content and aside areas. You may want to display a record list in an entirely different layout, i.e. use only the data fetching part of `<List>` and not the view layout. In that case, you should use `<ListBase>`.

`<ListBase>` fetches the data and puts it in a `ListContext`, then renders its child.

You can use `ListBase` to create your own custom List component, like this one:

```
``jsx
import * as React from 'react';
import { cloneElement } from 'react';
import {
 Datagrid,
 ListBase,
 ListToolbar,
 BulkActionsToolbar,
 Pagination,
 Title,
 useListContext,
} from 'react-admin';
import Card from '@material-ui/core/Card';

const PostList = props => (
 <MyList {...props} title="Post List">
 <Datagrid>
 ...
 </Datagrid>
 </MyList>
);

const MyList = ({ children, actions, bulkActionButton, filters, title, ...props }) => (
 <ListBase {...props}>
 <Title title={title}/>
 <ListToolbar
 filters={filters}
 actions={actions}
 />
 <Card>
 <BulkActionsToolbar>
 {bulkActionButton}
 </BulkActionsToolbar>
 {cloneElement(children, {
 hasBulkActions: bulkActionButton !== false,
 })}
 <Pagination />
 </Card>
</ListBase>
);
...

```

This custom List component has no aside component - it's up to you to add it in pure React.

**\*\*Tip\*\***: You don't have to clone the child element. If you can't reuse an existing list view component like `<Datagrid>` or `<SimpleList>`, feel free to write the form code inside your custom `MyList` component.

The `<ListBase>` component accepts a subset of the props accepted by `<List>` - only the props that change data fetching, and not the props related to the user interface:

- \* `[ exporter ](#exporter)`
- \* `[ filter ](#filter-permanent-filter)` (the permanent filter used in the REST request)
- \* `[ filterDefaultValues ](#filterdefaultvalues)` (the default values for `alwaysOn` filters)
- \* `[ perPage ](#perpage-pagination-size)`
- \* `[ sort ](#sort-default-sort-field--order)`
- \* `[ pagination ](#pagination-pagination-component)`

## `useListContext`

The List components (`<List>`, `<ListGuesser>`, `<ListBase>`) take care of fetching the data, and put that data in a context called `ListContext` so that it's available for their descendants. This context also stores filters, pagination, sort state, and provides callbacks to update them.

Any component can grab information from the `ListContext` using the `useListContext` hook. As a matter of fact, react-admin's `<Datagrid>`, `<FilterForm>`, and `<Pagination>` components all use the `useListContext` hook. Here is what it returns:

```
``jsx
const {
 // fetched data
 data, // an id-based dictionary of the list data, e.g. { 123: { id: 123, title: 'hello world' }, 456: { ... } }
 ids, // an array listing the ids of the records in the list, e.g [123, 456, ...]
 total, // the total number of results for the current filters, excluding pagination. Useful to build the pagination
 controls, e.g. 23
 loaded, // boolean that is false until the data is available
 loading, // boolean that is true on mount, and false once the data was fetched
 // pagination
 page, // the current page. Starts at 1
 setPage, // a callback to change the current page, e.g. setPage(3)
 perPage, // the number of results per page. Defaults to 10
 setPerPage, // a callback to change the number of results per page, e.g. setPerPage(25)
 // sorting
 currentSort, // a sort object { field, order }, e.g. { field: 'date', order: 'DESC' }
 setSort, // a callback to change the sort, e.g. setSort('name', 'ASC')
 // filtering
 filterValues, // a dictionary of filter values, e.g. { title: 'lorem', nationality: 'fr' }
 setFilters, // a callback to update the filters, e.g. setFilters(filters, displayedFilters)
 displayedFilters, // a dictionary of the displayed filters, e.g. { title: true, nationality: true }
 showFilter, // a callback to show one of the filters, e.g. showFilter('title', defaultValue)
 hideFilter, // a callback to hide one of the filters, e.g. hidefilter('title')
 // row selection
```

```

selectedIds, // an array listing the ids of the selected rows, e.g. [123, 456]
onSelect, // callback to change the list of selected rows, e.g. onSelect([456, 789])
onToggleItem, // callback to toggle the selection of a given record based on its id, e.g. onToggleItem(456)
onUnselectItems, // callback to clear the selection, e.g. onUnselectItems();
// misc
basePath, // deduced from the location, useful for action buttons
defaultTitle, // the translated title based on the resource, e.g. 'Posts'
resource, // the resource name, deduced from the location. e.g. 'posts'
refetch, // a callback to refresh the list data
} = useListContext();
...

```

You can find many usage examples of `useListContext` in this page, including:

- [Building a Custom Actions Bar](#actions)
- [Building an Aside Component](#aside-aside-component)
- [Building a Custom Empty Page](#empty-empty-page-component)
- [Building a Custom Filter](#building-a-custom-filter)
- [Building a Custom Sort Control](#building-a-custom-sort-control)
- [Building a Custom Pagination Control](#building-a-custom-pagination-control)
- [Building a Custom Iterator](#using-a-custom-iterator)

**Tip:** [`ReferenceManyField`](./Fields.md#referencemanyfield), as well as other relationship-related components, also implement a `ListContext`. That means you can use a `<Datagrid>` or a `<Pagination>` inside these components!

## ## `useListController`

As explained above, `<ListBase>` fetches the data and puts it in a `ListContext`, then renders its child. In fact, the `<ListBase>` code is super simple:

```

```jsx
import * as React from 'react';
import { useListController, ListContextProvider } from 'react-admin';

const ListBase = ({ children, ...props }) => (
  <ListContextProvider value={useListController(props)}>
    {children}
  </ListContextProvider>
);

export default ListBase;
```

```

As you can see, the controller part of the List view is handled by a hook called `useListController`. If you don't want to use the `ListContext` in your custom List view, you can call `useListController` directly to access the list data. It returns the same object as the one documented in [`useListContext`](#uselistcontext) above.

**\*\*Tip\*\*:** If your custom List view doesn't use a `ListContextProvider`, you can't use `<Datagrid>`, `<SimpleList>`, `<Pagination>`, etc. All these components rely on the `ListContext`.

### ## `useList`

The `useList` hook allows to apply the list features such as filtering, sorting and paginating on an array of records you already have.

Thanks to it, you can display your data inside a [`<Datagrid>`](#the-datagrid-component), a [`<SimpleList>`](#the-simplelist-component) or an [`<EditableDatagrid>`](#the-editabledatagrid-component). For example:

```
```jsx
const data = [
  { id: 1, name: 'Arnold' },
  { id: 2, name: 'Sylvester' },
  { id: 3, name: 'Jean-Claude' },
]
const ids = [1, 2, 3];

const MyComponent = () => {
  const listContext = useList({
    data,
    ids,
    basePath: '/resource',
    resource: 'resource',
  });
  return (
    <ListContextProvider value={listContext}>
      <Datagrid>
        <TextField source="id" />
        <TextField source="name" />
      </Datagrid>
    </ListContextProvider>
  );
};
```
```

### ## The `<Datagrid>` component

![The `<Datagrid>` component](./img/tutorial\_post\_list\_less\_columns.png)

The `<Datagrid>` component renders a list of records as a table. It is usually used as a descendant of the [`<List>`](#the-list-component) and [`<ReferenceManyField>`](./Fields.md#referencemanyfield) components. Outside these components, it must be used inside a `ListContext`.

Here are all the props accepted by the component:

- \* [`body`](#body-element)

- \* [`header``](#header-element)
- \* [`rowStyle``](#row-style-function)
- \* [`rowClick``](#rowclick)
- \* [`expand``](#expand)
- \* [`isRowExpandable``](#isrowexpandable)
- \* [`isRowSelectable``](#isrowselectable)
- \* [`optimized``](#performance)
- \* [`empty``](#empty)

Additional props are passed down to [the material-ui `<Table>` element](https://v4.mui.com/api/table/).

`<Datagrid>` renders as many columns as it receives `<Field>` children. It uses the field `label`` as column header (or, for fields with no `label``, the field `source``).

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, Datagrid, TextField, EditButton } from 'react-admin';

export const PostList = (props) => (
  <List {...props}>
    <Datagrid>
      <TextField source="id" />
      <TextField source="title" />
      <TextField source="body" />
      <EditButton />
    </Datagrid>
  </List>
);
...

```

****Tip**:** To let users hide or show columns at will, check the [`<SelectColumnsButton>`](https://marmelab.com/ra-enterprise/modules/ra-preferences#selectcolumnsbutton-store-datagrid-columns-in-preferences) , an [Enterprise Edition](https://marmelab.com/ra-enterprise) component.

The `<Datagrid>` is an ****iterator**** component: it gets an array of ids and a data store from the `ListContext``, and iterates over the ids to display each record. Other examples of iterator component are [`<SimpleList>`](#the-simplelist-component) and [`<SingleFieldList>`](#the-singlefieldlist-component).

Body element

By default, `<Datagrid>` renders its body using `<DatagridBody>`, an internal react-admin component. You can pass a custom component as the `body`` prop to override that default. And by the way, `<DatagridBody>` has a `row`` prop set to `<DatagridRow>` by default for the same purpose. `<DatagridRow>` receives the row `record``, the `resource``, and a copy of the `<Datagrid>` children. That means you can create custom `<Datagrid>` logic without copying several components from the react-admin source.

For instance, the `<Datagrid isRowSelectable>` prop allows to hide the selection checkbox for some records. To

show a *disabled* checkbox instead of hiding it, you can override `<DatagridRow>` and `<DatagridBody>` as follows:

```
```jsx
// in src/PostList.js
import * as React from "react";
import { Datagrid, DatagridBody, List, TextField } from 'react-admin';
import TableCell from '@material-ui/core/TableCell';
import TableRow from '@material-ui/core/TableRow';
import Checkbox from '@material-ui/core/Checkbox';

const MyDatagridRow = ({ record, resource, id, onToggleItem, children, selected, selectable, basePath }) => (
 <TableRow key={id}>
 {/* first column: selection checkbox */}
 <TableCell padding="none">
 <Checkbox
 disabled={selectable}
 checked={selected}
 onClick={event => onToggleItem(id, event)}
 />
 </TableCell>
 {/* data columns based on children */}
 {React.Children.map(children, field => (
 <TableCell key={`-${id}-${field.props.source}`}>
 {React.cloneElement(field, {
 record,
 basePath,
 resource,
 })}
 </TableCell>
))}
 </TableRow>
);

const MyDatagridBody = props => <DatagridBody {...props} row={<MyDatagridRow />} />;
const MyDatagrid = props => <Datagrid {...props} body={<MyDatagridBody />} />;

const PostList = props => (
 <List {...props}>
 <MyDatagrid>
 <TextField source="title" />
 ...
 </MyDatagrid>
 </List>
)

export default PostList;
```
```

Header Element

By default, `<Datagrid>` renders its header using `<DatagridHeader>`, an internal react-admin component. You can pass a custom component as the `header` prop to override that default. This can be useful e.g. to add a second header row, or to create headers spanning multiple columns.

For instance, here is a simple datagrid header that displays column names with no sort and no "select all" button:

```
```jsx
import { TableHead, TableRow, TableCell } from '@material-ui/core';

const DatagridHeader = ({ children }) => (
 <TableHead>
 <TableRow>
 <TableCell></TableCell> {/* empty cell to account for the select row checkbox in the body */}
 {Children.map(children, child => (
 <TableCell key={child.props.source}>
 {child.props.source}
 </TableCell>
))}
 </TableRow>
 </TableHead>
);

const PostList = props => (
 <List {...props}>
 <Datagrid header={<DatagridHeader />}>
 {/* ... */}
 </Datagrid>
 </List>
);
```
```

****Tip**:** To handle sorting in your custom Datagrid header component, check out the [Building a custom sort control](#building-a-custom-sort-control) section.

Row Style Function

You can customize the `<Datagrid>` row style (applied to the `<tr>` element) based on the record, thanks to the `rowStyle` prop, which expects a function. React-admin calls this function for each row, passing the current record and index as arguments. The function should return a style object, which react-admin uses as a `<tr style>` prop.

For instance, this allows to apply a custom background to the entire row if one value of the record - like its number of views - passes a certain threshold.

```
```jsx
const postRowStyle = (record, index) => ({
```

```

 backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',
 });
export const PostList = (props) => (
 <List {...props}>
 <Datagrid rowStyle={postRowStyle}>
 ...
 </Datagrid>
 </List>
);
...

```

### `rowClick`

You can catch clicks on rows to redirect to the show or edit view by setting the `rowClick` prop:

```

```jsx
export const PostList = (props) => (
  <List {...props}>
    <Datagrid rowClick="edit">
      ...
    </Datagrid>
  </List>
);
...

```

`rowClick` accepts the following values:

- * "edit" to redirect to the edition vue
- * "show" to redirect to the show vue
- * "expand" to open the `expand` panel
- * "toggleSelection" to trigger the `onToggleItem` function
- * a function `(id, basePath, record) => path` to redirect to a custom path

****Tip**:** If you pass a function, it can return `edit`, `show` or a router path. This allows to redirect to either `edit` or `show` after checking a condition on the record. For example:

```

```js
const postRowClick = (id, basePath, record) => record.editable ? 'edit' : 'show';
...

```

**\*\*Tip\*\*:** If you pass a function, it can also return a promise allowing you to check an external API before returning a path. For example:

```

```js
import fetchUserRights from './fetchUserRights';

const postRowClick = (id, basePath, record) => fetchUserRights().then(({ canEdit }) => canEdit ? 'edit' : 'show');
...

```

```
### `expand`
```

```
![expandable panel](./img/datagrid_expand.gif)
```

To show more data from the resource without adding too many columns, you can show data in an expandable panel below the row on demand, using the `expand` prop. For instance, this code shows the `body` of a post in an expandable panel:

```
{% raw %}
```jsx
const PostPanel = ({ id, record, resource }) => (
 <div dangerouslySetInnerHTML={{ __html: record.body }} />
);

const PostList = props => (
 <List {...props}>
 <Datagrid expand={<PostPanel />}>
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
 </List>
)
```
```

The `expand` prop expects a component as value. When the user chooses to expand the row, the Datagrid renders the component and passes the current `record`, `id`, and `resource`.

****Tip**:** Since the `expand` element receives the same props as a detail view, you can actually use a `` view as component for the `expand` prop:

```
```jsx
const PostShow = props => (
 <Show
 {...props}
 /* disable the app title change when shown */
 title=" "
 >
 <SimpleShowLayout>
 <RichTextField source="body" />
 </SimpleShowLayout>
 </Show>
);

const PostList = props => (
```

```

<List {...props}>
 <Datagrid expand={<PostShow />}>
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
</List>
)
...

```

The result will be the same as in the previous snippet, except that `<Show>` encloses the content inside a material-ui `<Card>`.

**Tip:** You can go one step further and use an `<Edit>` view as `expand` component:

```

```jsx
const PostEdit = props => (
  <Edit
    {...props}
    /* disable the app title change when shown */
    title=" "
  >
    <SimpleForm>
      <RichTextInput source="body" />
    </SimpleForm>
  </Edit>
);

const PostList = props => (
  <List {...props}>
    <Datagrid expand={<PostEdit />}>
      <TextField source="id" />
      <TextField source="title" />
      <DateField source="published_at" />
      <BooleanField source="commentable" />
      <EditButton />
    </Datagrid>
  </List>
)
...

```

`isRowExpandable`

You can customize which rows will allow to show an expandable panel below them using the `isRowExpandable` prop. It expects a function that will receive the record of each `<DatagridRow>` and returns a boolean expression. For instance, this code shows an expand button only for rows that has a detail to show:

```

```jsx
const PostPanel = ({ id, record, resource }) => (
 <div dangerouslySetInnerHTML={{ __html: record.body }} />
);

const PostList = props => (
 <List {...props}>
 <Datagrid
 expand={<PostPanel />}
 isRowExpandable={row => row.has_detail}
 >
 <TextField source="id" />
 <TextField source="title" />
 <DateField source="published_at" />
 <BooleanField source="commentable" />
 <EditButton />
 </Datagrid>
 </List>
)
```

```

`isRowSelectable`

You can customize which rows will show a selection checkbox using the `isRowSelectable` prop. It expects a function that will receive the record of each `<DatagridRow>` and returns a boolean expression. For instance, this code shows a checkbox only for rows with an id greater than 300:

```

```jsx
export const PostList = props => (
 <List {...props}>
 <Datagrid isRowSelectable={ record => record.id > 300 }>
 ...
 </Datagrid>
 </List>
);
```

{% endraw %}

```

Performance

When displaying large pages of data, you might experience some performance issues. This is mostly due to the fact that we iterate over the `<Datagrid>` children and clone them.

In such cases, you can opt-in for an optimized version of the `<Datagrid>` by setting its `optimized` prop to `true`. Be aware that you can't have dynamic children, such as those displayed or hidden by checking permissions, when using this mode.

```

```jsx
const PostList = props => (
 <List {...props}>
 <Datagrid optimized>
 <TextField source="id" />
 <TextField source="title" />
 <TextField source="views" />
 </Datagrid>
 </List>
);

export default withStyles(styles)(PostList);
```

```

Empty

It's possible that a Datagrid will have no records to display. If the Datagrid's parent component handles the loading state, the Datagrid will return `null` and render nothing.

Passing through a component to the `empty` prop will cause the Datagrid to render the `empty` component instead of `null`.

Datagrid CSS API

The `Datagrid` component accepts the usual `className` prop but you can override many class names injected to the inner components by React-admin thanks to the `classes` property (as most Material UI components, see their [documentation about it](https://v4.mui.com/customization/components/#overriding-styles-with-classes)). This property accepts the following keys:

| Rule name | Description |
|------------------|---|
| `table` | Alternative to using `className`. Applied to the root element |
| `thead` | Applied to the header of the `Datagrid` |
| `tbody` | Applied to the tbody |
| `headerCell` | Applied to each header cell |
| `headerRow` | Applied to each header row |
| `row` | Applied to each row |
| `rowEven` | Applied to each even row |
| `rowOdd` | Applied to each odd row |
| `rowCell` | Applied to each row cell |
| `expandHeader` | Applied to each expandable header cell |
| `clickableRow` | Applied to each row if `rowClick` prop is truthy |
| `expandIconCell` | Applied to each expandable cell |
| `expandIcon` | Applied to each expand icon |
| `expanded` | Applied to each expanded icon |
| `expandedPanel` | Applied to each expandable panel |
| `checkbox` | Applied to each checkbox cell |

You can customize the `<Datagrid>` styles by passing a `classes` object as prop, through `useStyles()`. Here is an

example:

```
{% raw %}
```jsx
import * as React from 'react';
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles({
 row: {
 backgroundColor: '#ccc',
 },
});

const PostList = props => {
 const classes = useStyles();
 return (
 <List {...props}>
 <Datagrid classes={{ row: classes.row }}>
 ...
 </Datagrid>
 </List>
);
}

export default PostList;
...

{% endraw %}
```

**\*\*Tip\*\***: The `Datagrid` component `classes` can also be customized for all instances of the component with its global css name `"RaDatagrid"` as [describe here](<https://marmelab.com/blog/2019/12/18/react-admin-3-1.html#theme-overrides>)

**\*\*Tip\*\***: If you want to override the `header` and `cell` styles independently for each column, use the `headerClassName` and `cellClassName` props in `<Field>` components. For instance, to hide a certain column on small screens:

```
```jsx
import * as React from "react";
import { makeStyles } from '@material-ui/core';

const useStyles = makeStyles(theme => ({
  hiddenOnSmallScreens: {
    [theme.breakpoints.down('md')]: {
      display: 'none',
    },
  },
}));
```

```

const PostList = props => {
  const classes = useStyles();
  return (
    <List {...props}>
      <Datagrid>
        <TextField source="id" />
        <TextField source="title" />
        <TextField
          source="views"
          headerClassName={classes.hiddenOnSmallScreens}
          cellClassName={classes.hiddenOnSmallScreens}
        />
      </Datagrid>
    </List>
  );
};

export default PostList;
...

```

This feature has a limit, though. `Datagrid` inspects its children for `headerClassName` and `cellClassName` props. This means you can't use these props in a *wrapped* component:

```

```jsx
const useStyles = makeStyles({
 priceCell: { backgroundColor: 'blue' },
});

const PriceField = props => {
 const classes = useStyles();
 return <TextField cellClassName={classes.priceCell} {...props} />;
};

// the cell class name won't be applied here because Datagrid doesn't see it in its children
export const ProductList = (props) => (
 <List {...props}>
 <Datagrid>
 <PriceField source="price" />
 </Datagrid>
 </List>
);
...

```

For this kind of use case, you need to use a [custom datagrid body component](#body-element).

## The `<SimpleList>` component

<a href="/img/simple-list.gif">`

component"></a>

For mobile devices, a `<Datagrid>` is often unusable - there is simply not enough space to display several columns. The convention in that case is to use a simple list, with only one column per row. The `<SimpleList>` component serves that purpose, leveraging [material-ui's `<List>` and `<ListItem>` components](https://v4.mui.com/components/lists/). `<SimpleList>` is an **iterator** component: it gets an array of ids and a data store from the `ListContext`, and iterates over the ids to display each record.

### ### Properties

| Prop                               | Required | Type                                                                                                  | Default             | Description                                                                                                                                                                                          |
|------------------------------------|----------|-------------------------------------------------------------------------------------------------------|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <code>&lt;primaryText&gt;</code>   | Required | <code>Function</code>                                                                                 | -                   | Passed as <code>&lt;ListItemText primary&gt;</code> prop                                                                                                                                             |
| <code>&lt;secondaryText&gt;</code> | Optional | <code>Function</code>                                                                                 | -                   | Passed as <code>&lt;ListItemText secondary&gt;</code> prop                                                                                                                                           |
| <code>&lt;tertiaryText&gt;</code>  | Optional | <code>Function</code>                                                                                 | -                   | Passed as a complement to <code>&lt;ListItemText primary&gt;</code> with a custom style                                                                                                              |
| <code>&lt;linkType&gt;</code>      | Optional | <code>string</code> &#124; <code>Function</code> &#124; <code>false</code> &#124; <code>'edit'</code> | <code>'edit'</code> | Target of the <code>&lt;ListItem&gt;</code> link. Set to <code>'false'</code> to disable the link. Set to a function <code>(record, id) =&gt; string</code> to have the link target vary per record. |
| <code>&lt;leftAvatar&gt;</code>    | Optional | <code>Function</code>                                                                                 | -                   | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemAvatar&gt;</code> before the <code>&lt;ListItemText&gt;</code>                                                           |
| <code>&lt;leftIcon&gt;</code>      | Optional | <code>Function</code>                                                                                 | -                   | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemIcon&gt;</code> before the <code>&lt;ListItemText&gt;</code>                                                             |
| <code>&lt;rightAvatar&gt;</code>   | Optional | <code>Function</code>                                                                                 | -                   | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemAvatar&gt;</code> after the <code>&lt;ListItemText&gt;</code>                                                            |
| <code>&lt;rightIcon&gt;</code>     | Optional | <code>Function</code>                                                                                 | -                   | When present, the <code>&lt;ListItem&gt;</code> renders a <code>&lt;ListItemIcon&gt;</code> after the <code>&lt;ListItemText&gt;</code>                                                              |
| <code>&lt;className&gt;</code>     | Optional | <code>string</code>                                                                                   | -                   | Applied to the root element                                                                                                                                                                          |
| <code>&lt;rowStyle&gt;</code>      | Optional | <code>Function</code>                                                                                 | -                   | Applied to the <code>&lt;ListItem&gt;</code> styles prop. The function gets called for each row. Receives the current record and index as arguments and should return a style object.                |

### ### Usage

You can use `<SimpleList>` as `<List>` or `<ReferenceManyField>` child:

```
```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

const postRowStyle = (record, index) => ({
  backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',
});
```

```

export const PostList = (props) => (
  <List {...props}>
    <SimpleList
      primaryText={record => record.title}
      secondaryText={record => `${record.views} views`}
      tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
      linkType={record => record.canEdit ? "edit" : "show"}
      rowStyle={postRowStyle}
    />
  </List>
);
...

```

For each record, `<SimpleList>` executes the `primaryText`, `secondaryText`, `linkType`, `rowStyle`, `leftAvatar`, `leftIcon`, `rightAvatar`, and `rightIcon` props functions, and creates a `<ListItem>` with the result.

The `primaryText`, `secondaryText` and `tertiaryText` functions can return a React element. This means you can use any react-admin field, including reference fields:

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

const postRowStyle = (record, index) => ({
 backgroundColor: record.nb_views >= 500 ? '#efe' : 'white',
});

export const PostList = (props) => (
 <List {...props}>
 <SimpleList
 primaryText={<TextField source="title" />}
 secondaryText={record => `${record.views} views`}
 tertiaryText={
 <ReferenceField reference="categories" source="category_id">
 <TextField source="name" />
 </ReferenceField>
 }
 linkType={record => record.canEdit ? "edit" : "show"}
 rowStyle={postRowStyle}
 />
 </List>
);
...

```

**\*\*Tip\*\*:** To use a `<SimpleList>` on small screens and a `<Datagrid>` on larger screens, use material-ui's `useMediaQuery` hook:

```

```jsx
// in src/posts.js
import * as React from "react";
import { useMediaQuery } from '@material-ui/core';
import { List, SimpleList, Datagrid, TextField, ReferenceField, EditButton } from 'react-admin';

export const PostList = props => {
  const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
  return (
    <List {...props}>
      {isSmall ? (
        <SimpleList
          primaryText={record => record.title}
          secondaryText={record => `${record.views} views`}
          tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
          linkType={record => record.canEdit ? "edit" : "show"}
        />
      ) : (
        <Datagrid>
          //...
        </Datagrid>
      )}
    </List>
  );
}
```

```

**\*\*Tip\*\*:** The `<SimpleList>` items link to the edition page by default. You can also set the `linkType` prop to `show` directly to link to the `<Show>` page instead.

```

```jsx
// in src/posts.js
import * as React from "react";
import { List, SimpleList } from 'react-admin';

export const PostList = props => (
  <List {...props}>
    <SimpleList
      primaryText={record => record.title}
      secondaryText={record => `${record.views} views`}
      tertiaryText={record => new Date(record.published_at).toLocaleDateString()}
      linkType="show"
    />
  </List>
);
```

```

Setting the `linkType` prop to `false` (boolean, not string) removes the link in all list items.

### ## The `` component

When you want to display only one property of a list of records, instead of using a ``, use the ``. It expects a single `` as child. `` is an **iterator** component: it gets an array of ids and a data store from the `ListContext`, and iterates over the ids to display each record.

It's especially useful for `` or `` components:

```
```jsx
// Display all the tags for the current post
<ReferenceArrayField
  label="Tags"
  reference="tags"
  source="tags"
>
  <SingleFieldList>
    <ChipField source="name" />
  </SingleFieldList>
</ReferenceArrayField>
```
```

![ReferenceManyFieldSingleFieldList](./img/reference-many-field-single-field-list.png)

**Tip**: The `` items link to the edition page by default. You can set the `linkType` prop to `show` to link to the `` page instead.

```
```jsx
// Display all the tags for the current post
<ReferenceArrayField
  label="Tags"
  reference="tags"
  source="tags"
>
  <SingleFieldList linkType="show">
    <ChipField source="name" />
  </SingleFieldList>
</ReferenceArrayField>
```
```

### ## The `` Component

This [Enterprise Edition](https://marmelab.com/ra-enterprise) `` component offers an "edit-in-place" experience in a ``.

![Editable Datagrid](https://marmelab.com/ra-enterprise/modules/assets/ra-editable-datagrid-overview.gif)

```

```jsx
import * as React from 'react';
import {
  List,
  TextField,
  TextInput,
  DateField,
  DateInput,
  SelectField,
  SelectInput,
  required,
} from 'react-admin';
import { EditableDatagrid, RowForm } from '@react-admin/ra-editable-datagrid';

const ArtistList = props => (
  <List {...props} hasCreate empty={false}>
    <EditableDatagrid
      undoable
      createForm={ <ArtistForm /> }
      editForm={ <ArtistForm /> }
    >
      <TextField source="id" />
      <TextField source="firstname" />
      <TextField source="name" />
      <DateField source="dob" label="born" />
      <SelectField
        source="prof"
        label="Profession"
        choices={professionChoices}
      />
    </EditableDatagrid>
  </List>
);

const ArtistForm = props => (
  <RowForm {...props}>
    <TextField source="id" />
    <TextInput source="firstname" validate={required()} />
    <TextInput source="name" validate={required()} />
    <DateInput source="dob" label="born" validate={required()} />
    <SelectInput
      source="prof"
      label="Profession"
      choices={professionChoices}
    />
  </RowForm>
);
```

```

Check [the `ra-editable-datagrid` documentation](https://marmelab.com/ra-enterprise/modules/ra-editable-datagrid) for more details.

## ## The `` Component

This [Enterprise Edition](https://marmelab.com/ra-enterprise) component offers a replacement for the `

` component when the records form **tree structures** like directories, categories, etc. `` allows to display, edit, and rearrange trees.

```
``jsx
// in src/category.js
import * as React from 'react';
import {
 Admin,
 Resource,
 Create,
 Edit,
 TextInput,
} from 'react-admin';
import { CreateNode, EditNode, SimpleForm, TreeWithDetails } from '@react-admin/ra-tree';

// a Create view for a tree uses <CreateNode> instead of the standard <Create>
const CategoriesCreate = props => (
 <CreateNode {...props}>
 <SimpleForm>
 <TextInput source="name" />
 </SimpleForm>
 </CreateNode>
);

// an Edit view for a tree uses <EditNode> instead of the standard <Edit>
const CategoriesEdit = props => (
 <EditNode {...props}>
 <SimpleForm>
 <TextInput source="title" />
 </SimpleForm>
 </EditNode>
)

// a List view for a tree uses <TreeWithDetails>
export const CategoriesList = props => (
 <TreeWithDetails
 create={CategoriesCreate}
 edit={CategoriesEdit}
 {...props}
 />
);
```

```

// in src/App.js
import { CategoriesList } from './category';

const App = () => (
 <Admin
 dataProvider={dataProvider}
 i18nProvider={i18nProvider}
 locale="en"
 customReducers={{ tree }}
 >
 <Resource list={CategoriesList} />
 </Admin>
)
...

```

Check [the `ra-tree` documentation](<https://marmelab.com/ra-enterprise/modules/ra-tree>) for more details.

### ## The `` Component

This [Enterprise Edition](<https://marmelab.com/ra-enterprise>)  component, part of [the `ra-calendar` module](<https://marmelab.com/ra-enterprise/modules/ra-calendar>), renders a list of events as a calendar.

![the `` component](<https://marmelab.com/ra-enterprise/modules/assets/ra-calendar.gif>)

The user interface offers everything you expect:

- month, week, day views
- list view
- drag and resize events
- whole-day events
- creating an event by clicking in the calendar
- edition of event title, and metadata
- events spanning on multiple days
- recurring events
- background events
- theming
- locales and timezones
- resource time grid (e.g. rooms) (requires additional licence from Full Calendar)

Use `` as a child of `

`:

```

```jsx
import { Calendar, getFilterValuesFromInterval } from '@react-admin/ra-calendar';
import { List } from 'react-admin';

const EventList = props => (

```

```

<List
  {...props}
  filterDefaultValues={getFilterValuesFromInterval()}
  perPage={ 1000}
  pagination={false}
>
  <Calendar />
</List>
);
...

```

The `ra-calendar` module also offers a full replacement for the `<List>` component, complete with show and edit views for events, called `<CompleteCalendar>`:

```

```jsx
import React from 'react';
import {
 Admin,
 Resource,
 List,
 ListProps,
 SimpleForm,
 TextInput,
 DateTimeInput,
} from 'react-admin';
import { CompleteCalendar } from '@react-admin/ra-calendar';

import dataProvider from './dataProvider';

const EventList = props => (
 <CompleteCalendar {...props}>
 <SimpleForm>
 <TextInput source="title" autoFocus />
 <DateTimeInput source="start" />
 <DateTimeInput source="end" />
 </SimpleForm>
 </CompleteCalendar>
);

export const Basic = () => (
 <Admin dataProvider={dataProvider}>
 <Resource name="events" list={EventList} />
 </Admin>
);
...

```

Check [the `ra-calendar` documentation](<https://marmelab.com/ra-enterprise/modules/ra-calendar>) for more details.

## ## Recipes

### ### Using a Custom Iterator

A `<List>` can delegate to any iterator component - `<Datagrid>` is just one example. An iterator component can get the data to display from [the `useListContext` hook](#uselistcontext). The data comes in two constants:

- `ids` is an array of the ids currently displayed in the list
- `data` is an object of all the fetched data for this resource, indexed by id.

For instance, what if you prefer to show a list of cards rather than a datagrid?

![Custom iterator](./img/custom-iterator.png)

You'll need to create your own iterator component as follows:

```
{% raw %}
```jsx
// in src/comments.js
import * as React from 'react';
import { useListContext, List, TextField, DateField, ReferenceField, EditButton } from 'react-admin';
import { Card, CardActions, CardContent, CardHeader, Avatar } from '@material-ui/core';
import PersonIcon from '@material-ui/icons/Person';

const cardStyle = {
  width: 300,
  minHeight: 300,
  margin: '0.5em',
  display: 'inline-block',
  verticalAlign: 'top'
};

const CommentGrid = () => {
  const { ids, data, basePath } = useListContext();
  return (
    <div style={{ margin: '1em' }}>
      {ids.map(id =>
        <Card key={id} style={cardStyle}>
          <CardHeader
            title={<TextField record={data[id]} source="author.name" />}
            subheader={<DateField record={data[id]} source="created_at" />}
            avatar={<Avatar icon={<PersonIcon />} />}
          />
          <CardContent>
            <TextField record={data[id]} source="body" />
          </CardContent>
          <CardContent>
            about&nbsp;
            <ReferenceField label="Post" resource="comments" record={data[id]} source="post_id"

```

```

reference="posts" basePath={basePath}>
  <TextField source="title" />
</ReferenceField>
</CardContent>
<CardActions style={{ textAlign: 'right' }}>
  <EditButton resource="posts" basePath={basePath} record={data[id]} />
</CardActions>
</Card>
)}
</div>
);
};

```

```

export const CommentList = (props) => (
  <List title="All comments" {...props}>
    <CommentGrid />
  </List>
);
...
{% endraw %}

```

As you can see, nothing prevents you from using ``<Field>`` components inside your own components... provided you inject the current `record`. Also, notice that components building links require the `basePath` component, which is also available from `useListContext`.

Displaying Fields Depending On The User Permissions

You might want to display some fields or filters only to users with specific permissions.

Before rendering the `List`, react-admin calls the `authProvider.getPermissions()` method, and passes the result to the component as the `permissions` prop. It's up to your `authProvider` to return whatever you need to check roles and permissions inside your component.

```

{% raw %}
```jsx
const getUserFilters = (permissions) => ([
 <TextInput label="user.list.search" source="q" alwaysOn />,
 <TextInput source="name" />,
 permissions === 'admin' ? <TextInput source="role" /> : null,
].filter(filter => filter !== null)
);

export const UserList = ({ permissions, ...props }) => {
 const isSmall = useMediaQuery(theme => theme.breakpoints.down('sm'));
 return (
 <List
 {...props}
 filters={getUserFilters(permissions)}

```

```

 sort={{ field: 'name', order: 'ASC' }}
 >
 {isSmall ? (
 <SimpleList
 primaryText={record => record.name}
 secondaryText={record =>
 permissions === 'admin' ? record.role : null}
 />
): (
 <Datagrid>
 <TextField source="id" />
 <TextField source="name" />
 {permissions === 'admin' && <TextField source="role" />}
 {permissions === 'admin' && <EditButton />}
 <ShowButton />
 </Datagrid>
)}
</List>
)
};
...

{% endraw %}

```

**\*\*Tip\*\*:** Note how the `permissions` prop is passed down to the custom `filters` component.

### ### Rendering `<Datagrid>` With A Custom Query

You can use the `<Datagrid>` component with [\[custom queries\]\(./Actions.md#usequery-hook\)](#):

```

{% raw %}
```jsx
import keyBy from 'lodash/keyBy';
import { useState } from 'react';
import {
  useQuery,
  Datagrid,
  TextField,
  Pagination,
  Loading,
  ListContextProvider,
} from 'react-admin';

const CustomList = () => {
  const [page, setPage] = useState(1);
  const [perPage, setPerPage] = useState(25);
  const [sort, setSort] = useState({ field: 'id', order: 'ASC' });
  const { data, total, loading, error } = useQuery({
    type: 'getList',

```

```

    resource: 'posts',
    payload: {
      pagination: { page, perPage },
      sort,
      filter: {},
    },
  });

  if (loading) {
    return <Loading />;
  }
  if (error) {
    return <p>ERROR: {error}</p>;
  }
  return (
    <ListContextProvider
      value={{
        data: keyBy(data, 'id'),
        ids: data.map(({ id }) => id),
        total,
        page,
        perPage,
        setPage,
        setPerPage,
        currentSort: sort,
        setSort: (field, order) => setSort({ field, order }),
        basePath: '/posts',
        resource: 'posts',
        selectedIds: [],
      }}
    >
    <Datagrid>
      <TextField source="id" />
      <TextField source="title" />
    </Datagrid>
    <Pagination />
  </ListContextProvider>
  );
}
...
{% endraw %}

```

****Tip**:** If you use the `<Datagrid rowClick>` prop in this case, you must also set the `basePath` prop to let the `<Datagrid>` compute the link to the record pages.

Third-Party Components

You can find components for react-admin in third-party repositories.

- [ra-customizable-datagrid](https://github.com/fizix-io/ra-customizable-datagrid): plugin that allows to hide / show columns dynamically.
- [ra-datagrid](https://github.com/marmelab/ra-datagrid): Integration of [Material-ui's `<Datagrid>`](https://v4.mui.com/components/data-grid/) into react-admin.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes

of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You

meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor,

except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Apache License
Version 2.0, January 2004
<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed

with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate

comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at

<http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

1.1785.1 Available under license :

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and

publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive,

irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following:

- i. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
- ii. moral rights retained by the original author(s) and/or performer(s);
- iii. publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;
- iv. rights protecting against unfair competition in regards to a Work,

subject to the limitations in paragraph 4(a), below;

v. rights protecting the extraction, dissemination, use and reuse of data in a Work;

vi. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and

vii. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "Waiver"). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmer's heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmer's express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmer's express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmer's Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the "License"). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to

Affirmer's express Statement of Purpose.

4. Limitations and Disclaimers.

- a. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
- b. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
- c. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any person's Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
- d. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

1.1796.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate

as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify

the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include

the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright {yyyy} {name of copyright owner}

Licensed under the Apache License, Version 2.0 (the "License");
you may not use this file except in compliance with the License.
You may obtain a copy of the License at

<http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not

pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special,

incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally

submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or

implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

3.13.1

1.1846.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed

with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate

comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but

excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. **Grant of Copyright License.** Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. **Grant of Patent License.** Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. **Redistribution.** You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its

distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

1.1857.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and

attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made,

use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

>

> <http://www.apache.org/licenses/>

>

> TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

>

> 1. Definitions.

>

- > "License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.
- >
- > "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.
- >
- > "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.
- >
- > "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.
- >
- > "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.
- >
- > "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.
- >
- > "Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).
- >
- > "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.
- >
- > "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."
- >
- > "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.
- >
- > 2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
- >
- > 3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section)

patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

>

> 4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

>

> You must give any other recipients of the Work or Derivative Works a copy of this License; and

>

> You must cause any modified files to carry prominent notices stating that You changed the files; and

>

> You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

>

> If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

>

> 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

>

> 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

>

> 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

>
> 8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

>
> 9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain

separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the

origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a

file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

3.13.1

1.1905.1 Available under license :

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the

Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/>

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems,

and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their

Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with

the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited

to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the

Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

1.1952.1 Available under license :

ODC Attribution License (ODC-By)

Preamble

The Open Data Commons Attribution License is a license agreement intended to allow users to freely share, modify, and use this Database subject only to the attribution requirements set out in Section 4.

Databases can contain a wide variety of types of content (images, audiovisual material, and sounds all in the same database, for example), and so this license only governs the rights over the Database, and not the contents of the Database individually. Licensors may therefore wish to use this license together with another license for the contents.

Sometimes the contents of a database, or the database itself, can be covered by other rights not addressed here (such as private contracts, trademark over the name, or privacy rights / data protection rights over information in the contents), and so you are advised that you may have to consult other documents or clear other rights before doing activities not covered by this License.

The Licensor (as defined below)

and

You (as defined below)

agree as follows:

1.0 Definitions of Capitalised Words

"Collective Database" - Means this Database in unmodified form as part of a collection of independent databases in themselves that together are assembled into a collective whole. A work that constitutes a Collective Database will not be considered a Derivative Database.

"Convey" - As a verb, means Using the Database, a Derivative Database, or the Database as part of a Collective Database in any way that enables a Person to make or receive copies of the Database or a Derivative Database. Conveying does not include interaction with a user through a computer network, or creating and Using a Produced Work, where no transfer of a copy of the Database or a Derivative Database occurs.

"Contents" - The contents of this Database, which includes the information, independent works, or other material collected into the Database. For example, the contents of the Database could be factual data or works such as images, audiovisual material, text, or sounds.

"Database" - A collection of material (the Contents) arranged in a systematic or methodical way and individually accessible by electronic or other means offered under the terms of this License.

"Database Directive" - Means Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended or succeeded.

"Database Right" - Means rights resulting from the Chapter III ("sui generis") rights in the Database Directive (as amended and as transposed by member states), which includes the Extraction and Re-utilisation of the whole or a Substantial part of the Contents, as well as any similar

rights available in the relevant jurisdiction under Section 10.4.

"Derivative Database" - Means a database based upon the Database, and includes any translation, adaptation, arrangement, modification, or any other alteration of the Database or of a Substantial part of the Contents. This includes, but is not limited to, Extracting or Re-utilising the whole or a Substantial part of the Contents in a new Database.

"Extraction" - Means the permanent or temporary transfer of all or a Substantial part of the Contents to another medium by any means or in any form.

"License" - Means this license agreement and is both a license of rights such as copyright and Database Rights and an agreement in contract.

"Licensor" - Means the Person that offers the Database under the terms of this License.

"Person" - Means a natural or legal person or a body of persons corporate or incorporate.

"Produced Work" - a work (such as an image, audiovisual material, text, or sounds) resulting from using the whole or a Substantial part of the Contents (via a search or other query) from this Database, a Derivative Database, or this Database as part of a Collective Database.

"Publicly" - means to Persons other than You or under Your control by either more than 50% ownership or by the power to direct their activities (such as contracting with an independent consultant).

"Re-utilisation" - means any form of making available to the public all or a Substantial part of the Contents by the distribution of copies, by renting, by online or other forms of transmission.

"Substantial" - Means substantial in terms of quantity or quality or a combination of both. The repeated and systematic Extraction or Re-utilisation of insubstantial parts of the Contents may amount to the Extraction or Re-utilisation of a Substantial part of the Contents.

"Use" - As a verb, means doing any act that is restricted by copyright or Database Rights whether in the original medium or any other; and includes without limitation distributing, copying, publicly performing, publicly displaying, and preparing derivative works of the Database, as well as modifying the Database as may be technically necessary to use it in a different mode or format.

"You" - Means a Person exercising rights under this License who has not

previously violated the terms of this License with respect to the Database, or who has received express permission from the Licensor to exercise rights under this License despite a previous violation.

Words in the singular include the plural and vice versa.

2.0 What this License covers

2.1. Legal effect of this document. This License is:

- a. A license of applicable copyright and neighbouring rights;
- b. A license of the Database Right; and
- c. An agreement in contract between You and the Licensor.

2.2 Legal rights covered. This License covers the legal rights in the Database, including:

- a. Copyright. Any copyright or neighbouring rights in the Database. The copyright licensed includes any individual elements of the Database, but does not cover the copyright over the Contents independent of this Database. See Section 2.4 for details. Copyright law varies between jurisdictions, but is likely to cover: the Database model or schema, which is the structure, arrangement, and organisation of the Database, and can also include the Database tables and table indexes; the data entry and output sheets; and the Field names of Contents stored in the Database;
- b. Database Rights. Database Rights only extend to the Extraction and Re-utilisation of the whole or a Substantial part of the Contents. Database Rights can apply even when there is no copyright over the Database. Database Rights can also apply when the Contents are removed from the Database and are selected and arranged in a way that would not infringe any applicable copyright; and
- c. Contract. This is an agreement between You and the Licensor for access to the Database. In return you agree to certain conditions of use on this access as outlined in this License.

2.3 Rights not covered.

- a. This License does not apply to computer programs used in the making or operation of the Database;
- b. This License does not cover any patents over the Contents or the Database; and

c. This License does not cover any trademarks associated with the Database.

2.4 Relationship to Contents in the Database. The individual items of the Contents contained in this Database may be covered by other rights, including copyright, patent, data protection, privacy, or personality rights, and this License does not cover any rights (other than Database Rights or in contract) in individual Contents contained in the Database. For example, if used on a Database of images (the Contents), this License would not apply to copyright over individual images, which could have their own separate licenses, or one single license covering all of the rights over the images.

3.0 Rights granted

3.1 Subject to the terms and conditions of this License, the Licensor grants to You a worldwide, royalty-free, non-exclusive, terminable (but only under Section 9) license to Use the Database for the duration of any applicable copyright and Database Rights. These rights explicitly include commercial use, and do not exclude any field of endeavour. To the extent possible in the relevant jurisdiction, these rights may be exercised in all media and formats whether now known or created in the future.

The rights granted cover, for example:

- a. Extraction and Re-utilisation of the whole or a Substantial part of the Contents;
- b. Creation of Derivative Databases;
- c. Creation of Collective Databases;
- d. Creation of temporary or permanent reproductions by any means and in any form, in whole or in part, including of any Derivative Databases or as a part of Collective Databases; and
- e. Distribution, communication, display, lending, making available, or performance to the public by any means and in any form, in whole or in part, including of any Derivative Database or as a part of Collective Databases.

3.2 Compulsory license schemes. For the avoidance of doubt:

- a. Non-waivable compulsory license schemes. In those jurisdictions in which the right to collect royalties through any statutory or compulsory licensing scheme cannot be waived, the Licensor reserves the exclusive right to collect such royalties for any exercise by You

of the rights granted under this License;

b. Waivable compulsory license schemes. In those jurisdictions in which the right to collect royalties through any statutory or compulsory licensing scheme can be waived, the Licensor waives the exclusive right to collect such royalties for any exercise by You of the rights granted under this License; and,

c. Voluntary license schemes. The Licensor waives the right to collect royalties, whether individually or, in the event that the Licensor is a member of a collecting society that administers voluntary licensing schemes, via that society, from any exercise by You of the rights granted under this License.

3.3 The right to release the Database under different terms, or to stop distributing or making available the Database, is reserved. Note that this Database may be multiple-licensed, and so You may have the choice of using alternative licenses for this Database. Subject to Section 10.4, all other rights not expressly granted by Licensor are reserved.

4.0 Conditions of Use

4.1 The rights granted in Section 3 above are expressly made subject to Your complying with the following conditions of use. These are important conditions of this License, and if You fail to follow them, You will be in material breach of its terms.

4.2 Notices. If You Publicly Convey this Database, any Derivative Database, or the Database as part of a Collective Database, then You must:

- a. Do so only under the terms of this License;
- b. Include a copy of this License or its Uniform Resource Identifier (URI) with the Database or Derivative Database, including both in the Database or Derivative Database and in any relevant documentation;
- c. Keep intact any copyright or Database Right notices and notices that refer to this License; and
- d. If it is not possible to put the required notices in a particular file due to its structure, then You must include the notices in a location (such as a relevant directory) where users would be likely to look for it.

4.3 Notice for using output (Contents). Creating and Using a Produced Work does not require the notice in Section 4.2. However, if you Publicly Use a Produced Work, You must include a notice associated with

the Produced Work reasonably calculated to make any Person that uses, views, accesses, interacts with, or is otherwise exposed to the Produced Work aware that Content was obtained from the Database, Derivative Database, or the Database as part of a Collective Database, and that it is available under this License.

a. Example notice. The following text will satisfy notice under Section 4.3:

Contains information from DATABASE NAME which is made available under the ODC Attribution License.

DATABASE NAME should be replaced with the name of the Database and a hyperlink to the location of the Database. "ODC Attribution License" should contain a hyperlink to the URI of the text of this License. If hyperlinks are not possible, You should include the plain text of the required URI's with the above notice.

4.4 Licensing of others. You may not sublicense the Database. Each time You communicate the Database, the whole or Substantial part of the Contents, or any Derivative Database to anyone else in any way, the Licensor offers to the recipient a license to the Database on the same terms and conditions as this License. You are not responsible for enforcing compliance by third parties with this License, but You may enforce any rights that You have over a Derivative Database. You are solely responsible for any modifications of a Derivative Database made by You or another Person at Your direction. You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License.

5.0 Moral rights

5.1 Moral rights. This section covers moral rights, including any rights to be identified as the author of the Database or to object to treatment that would otherwise prejudice the author's honour and reputation, or any other derogatory treatment:

a. For jurisdictions allowing waiver of moral rights, Licensor waives all moral rights that Licensor may have in the Database to the fullest extent possible by the law of the relevant jurisdiction under Section 10.4;

b. If waiver of moral rights under Section 5.1 a in the relevant jurisdiction is not possible, Licensor agrees not to assert any moral rights over the Database and waives all claims in moral rights to the fullest extent possible by the law of the relevant jurisdiction under Section 10.4; and

c. For jurisdictions not allowing waiver or an agreement not to assert moral rights under Section 5.1 a and b, the author may retain their moral rights over certain aspects of the Database.

Please note that some jurisdictions do not allow for the waiver of moral rights, and so moral rights may still subsist over the Database in some jurisdictions.

6.0 Fair dealing, Database exceptions, and other rights not affected

6.1 This License does not affect any rights that You or anyone else may independently have under any applicable law to make any use of this Database, including without limitation:

a. Exceptions to the Database Right including: Extraction of Contents from non-electronic Databases for private purposes, Extraction for purposes of illustration for teaching or scientific research, and Extraction or Re-utilisation for public security or an administrative or judicial procedure.

b. Fair dealing, fair use, or any other legally recognised limitation or exception to infringement of copyright or other applicable laws.

6.2 This License does not affect any rights of lawful users to Extract and Re-utilise insubstantial parts of the Contents, evaluated quantitatively or qualitatively, for any purposes whatsoever, including creating a Derivative Database (subject to other rights over the Contents, see Section 2.4). The repeated and systematic Extraction or Re-utilisation of insubstantial parts of the Contents may however amount to the Extraction or Re-utilisation of a Substantial part of the Contents.

7.0 Warranties and Disclaimer

7.1 The Database is licensed by the Licensor "as is" and without any warranty of any kind, either express, implied, or arising by statute, custom, course of dealing, or trade usage. Licensor specifically disclaims any and all implied warranties or conditions of title, non-infringement, accuracy or completeness, the presence or absence of errors, fitness for a particular purpose, merchantability, or otherwise. Some jurisdictions do not allow the exclusion of implied warranties, so this exclusion may not apply to You.

8.0 Limitation of liability

8.1 Subject to any liability that may not be excluded or limited by law, the Licensor is not liable for, and expressly excludes, all liability for loss or damage however and whenever caused to anyone by any use

under this License, whether by You or by anyone else, and whether caused by any fault on the part of the Licensor or not. This exclusion of liability includes, but is not limited to, any special, incidental, consequential, punitive, or exemplary damages such as loss of revenue, data, anticipated profits, and lost business. This exclusion applies even if the Licensor has been advised of the possibility of such damages.

8.2 If liability may not be excluded by law, it is limited to actual and direct financial loss to the extent it is caused by proved negligence on the part of the Licensor.

9.0 Termination of Your rights under this License

9.1 Any breach by You of the terms and conditions of this License automatically terminates this License with immediate effect and without notice to You. For the avoidance of doubt, Persons who have received the Database, the whole or a Substantial part of the Contents, Derivative Databases, or the Database as part of a Collective Database from You under this License will not have their licenses terminated provided their use is in full compliance with this License or a license granted under Section 4.8 of this License. Sections 1, 2, 7, 8, 9 and 10 will survive any termination of this License.

9.2 If You are not in breach of the terms of this License, the Licensor will not terminate Your rights under it.

9.3 Unless terminated under Section 9.1, this License is granted to You for the duration of applicable rights in the Database.

9.4 Reinstatement of rights. If you cease any breach of the terms and conditions of this License, then your full rights under this License will be reinstated:

- a. Provisionally and subject to permanent termination until the 60th day after cessation of breach;
- b. Permanently on the 60th day after cessation of breach unless otherwise reasonably notified by the Licensor; or
- c. Permanently if reasonably notified by the Licensor of the violation, this is the first time You have received notice of violation of this License from the Licensor, and You cure the violation prior to 30 days after your receipt of the notice.

9.5 Notwithstanding the above, Licensor reserves the right to release the Database under different license terms or to stop distributing or making available the Database. Releasing the Database under different

license terms or stopping the distribution of the Database will not withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

10.0 General

10.1 If any provision of this License is held to be invalid or unenforceable, that must not affect the validity or enforceability of the remainder of the terms and conditions of this License and each remaining provision of this License shall be valid and enforced to the fullest extent permitted by law.

10.2 This License is the entire agreement between the parties with respect to the rights granted here over the Database. It replaces any earlier understandings, agreements or representations with respect to the Database.

10.3 If You are in breach of the terms of this License, You will not be entitled to rely on the terms of this License or to complain of any breach by the Licensor.

10.4 Choice of law. This License takes effect in and will be governed by the laws of the relevant jurisdiction in which the License terms are sought to be enforced. If the standard suite of rights granted under applicable copyright law and Database Rights in the relevant jurisdiction includes additional rights not granted under this License, these additional rights are granted in this License in order to meet the terms of this License.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and

subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of

action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.

4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof,

- including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.
-
2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

 3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

 4. Limitations and Disclaimers.
 1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
 2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or

otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.

3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or,

within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all

other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "{}" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright 2018-2020 Amazon.com, Inc. or its affiliates. All Rights Reserved.

Mozilla Public License, version 2.0

1. Definitions

1.1. Contributor

means each individual or legal entity that creates, contributes to the creation of, or owns Covered Software.

1.2. Contributor Version

means the combination of the Contributions of others (if any) used by a Contributor and that particular Contributors Contribution.

1.3. Contribution

means Covered Software of a particular Contributor.

1.4. Covered Software

means Source Code Form to which the initial Contributor has attached the notice in Exhibit A, the Executable Form of such Source Code Form, and Modifications of such Source Code Form, in each case including portions thereof.

1.5. Incompatible With Secondary Licenses

means

- a. that the initial Contributor has attached the notice described in Exhibit B to the Covered Software; or
- b. that the Covered Software was made available under the terms of version 1.1 or earlier of the License, but not also under the terms of a Secondary License.

1.6. Executable Form

means any form of the work other than Source Code Form.

1.7. Larger Work

means a work that combines Covered Software with other material, in a separate file or files, that is not Covered Software.

1.8. License

means this document.

1.9. Licensable

means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently, any and all of the rights conveyed by this License.

1.10. Modifications

means any of the following:

- a. any file in Source Code Form that results from an addition to, deletion from, or modification of the contents of Covered Software; or

b. any new file in Source Code Form that contains any Covered Software.

1.11. Patent Claims of a Contributor

means any patent claim(s), including without limitation, method, process, and apparatus claims, in any patent Licensable by such Contributor that would be infringed, but for the grant of the License, by the making, using, selling, offering for sale, having made, import, or transfer of either its Contributions or its Contributor Version.

1.12. Secondary License

means either the GNU General Public License, Version 2.0, the GNU Lesser General Public License, Version 2.1, the GNU Affero General Public License, Version 3.0, or any later versions of those licenses.

1.13. Source Code Form

means the form of the work preferred for making modifications.

1.14. You (or Your)

means an individual or a legal entity exercising rights under this License. For legal entities, You includes any entity that controls, is controlled by, or is under common control with You. For purposes of this definition, control means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants and Conditions

2.1. Grants

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

- a. under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and
- b. under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

2.2. Effective Date

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

2.3. Limitations on Grant Scope

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

- a. for any code that a Contributor has removed from Covered Software; or
- b. for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or
- c. under Patent Claims infringed by Covered Software in the absence of its Contributions.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

2.4. Subsequent Licenses

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

2.5. Representation

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

2.6. Fair Use

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

2.7. Conditions

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in

Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

- a. such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and
- b. You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

5. Termination

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

6. Disclaimer of Warranty

Covered Software is provided under this License on an as is basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe

this License against a Contributor.

10. Versions of the License

10.1. New Versions

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses

If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

Exhibit A - Source Code Form License Notice

This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at <http://mozilla.org/MPL/2.0/>.

If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.

You may add additional accurate notices of copyright ownership.

Exhibit B - Incompatible With Secondary Licenses Notice

This Source Code Form is Incompatible
With Secondary Licenses, as defined by
the Mozilla Public License, v. 2.0.

1.2021 cssdb 4.4.0

1.2021.1 Available under license :

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an owner) of an original work of authorship and/or a database (each, a Work).

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works (Commons) that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the Affirmer), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights (Copyright and Related Rights). Copyright and Related Rights include, but are not limited to, the following:

1. the right to reproduce, adapt, distribute, perform, display, communicate, and translate a Work;
2. moral rights retained by the original author(s) and/or performer(s);
3. publicity and privacy rights pertaining to a persons image or likeness depicted in a Work;
4. rights protecting against unfair competition in regards to a Work, subject to the limitations in paragraph 4(i), below;
5. rights protecting the extraction, dissemination, use and reuse of data in a Work;
6. database rights (such as those arising under Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, and under any national implementation thereof, including any amended or successor version of such directive); and
7. other similar, equivalent or corresponding rights throughout the world based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of, applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and unconditionally waives, abandons, and surrenders all of Affirmers Copyright and Related Rights and associated claims and causes of action, whether now known or unknown (including existing as well as future claims and causes of action), in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the Waiver). Affirmer makes the Waiver for the benefit of each member of the public at large and to the detriment of Affirmers heirs and successors, fully intending that such Waiver shall not be subject to revocation, rescission, cancellation, termination, or any other legal or equitable action to disrupt the quiet enjoyment of the Work by the public as contemplated by Affirmers express Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be judged legally invalid or ineffective under applicable law, then the Waiver

shall be preserved to the maximum extent permitted taking into account Affirmers express Statement of Purpose. In addition, to the extent the Waiver is so judged Affirmer hereby grants to each affected person a royalty-free, non transferable, non sublicensable, non exclusive, irrevocable and unconditional license to exercise Affirmers Copyright and Related Rights in the Work (i) in all territories worldwide, (ii) for the maximum duration provided by applicable law or treaty (including future time extensions), (iii) in any current or future medium and for any number of copies, and (iv) for any purpose whatsoever, including without limitation commercial, advertising or promotional purposes (the License). The License shall be deemed effective as of the date CC0 was applied by Affirmer to the Work. Should any part of the License for any reason be judged legally invalid or ineffective under applicable law, such partial invalidity or ineffectiveness shall not invalidate the remainder of the License, and in such case Affirmer hereby affirms that he or she will not (i) exercise any of his or her remaining Copyright and Related Rights in the Work or (ii) assert any associated claims and causes of action with respect to the Work, in either case contrary to Affirmers express Statement of Purpose.

4. Limitations and Disclaimers.

1. No trademark or patent rights held by Affirmer are waived, abandoned, surrendered, licensed or otherwise affected by this document.
2. Affirmer offers the Work as-is and makes no representations or warranties of any kind concerning the Work, express, implied, statutory or otherwise, including without limitation warranties of title, merchantability, fitness for a particular purpose, non infringement, or the absence of latent or other defects, accuracy, or the present or absence of errors, whether or not discoverable, all to the greatest extent permissible under applicable law.
3. Affirmer disclaims responsibility for clearing rights of other persons that may apply to the Work or any use thereof, including without limitation any persons Copyright and Related Rights in the Work. Further, Affirmer disclaims responsibility for obtaining any necessary consents, permissions or other rights required for any use of the Work.
4. Affirmer understands and acknowledges that Creative Commons is not a party to this document and has no duty or obligation with respect to this CC0 or use of the Work.
