Figure 1.
Cisco Multi-head Cable 4K

Product overview

Cisco® multi-head cables provide flexibility and pleasing aesthetics in meeting rooms, and hassle-free content sharing for the user. The cables can connect a wide range of laptops to a Cisco video-conferencing system without the hassle of using multiple dongles. They clean up the meeting space with a sleek single-cable design while ensuring the quality of the signal up to a 29.5-foot range. And users don't need to worry about bringing the right dongles to the meetings.

The multi-head cables support audio and video from a laptop to Cisco video-conferencing endpoint via HDMI.

Features and benefits

Cisco offers 2 multi-head cable models delivering 4K resolution capability that are compatible with all devices in the Webex® Room Series and Board Series, to help you connect laptops to video conferencing systems a breeze (see Table 1).
