

Cisco Prime Collaboration Provisioning 12.6SU1 Release Notes

First Published: 2019-10-10

Cisco Prime Collaboration Provisioning Overview

Cisco Prime Collaboration Provisioning provides provisioning for Cisco Unified Communications initial deployments and implementations. It remains deployed to provide ongoing operational provisioning and activation services for individual subscriber changes.

See [Cisco Prime Collaboration 12.X Data Sheet](#) for further details. You can download the image from the Cisco Prime Collaboration [software download](#) site.

Note You can deploy OVAs on VMWare hosts running ESXi 6.0, ESXi 6.5, and ESXi 6.7. The vSphere thick client is not available anymore. Hence, if you are using ESXi 6.5 for deployment with the thin client, you need to use the OVA where the file name specifies 'With ESXi 6.5 using Web client'.

New Features and Enhancements

Cisco Prime Collaboration Provisioning 12.6SU1 supports the following new features:

Feature Name	Description
Support for Cisco Unified Communications Manager endpoints and Analog Voice Gateways.	<p>The following Cisco Unified Communications Manager endpoints are supported:</p> <ul style="list-style-type: none"> • Release 11.5, 12.0, and 12.5: <ul style="list-style-type: none"> • Cisco 8832NR • Cisco 8865NR • Cisco ATA 191 • Cisco Webex Room 70 Single G2 • Cisco Webex Room 70 Dual G2 • Cisco Webex Room 55 Dual • Cisco Webex Room Kit Mini • Cisco Webex Room Kit Pro • Release 10.5, 11.0, 11.5, 12.0, and 12.5: <ul style="list-style-type: none"> • Ascom IP-DECT <p>The following Cisco Unified Communications Manager Analog Voice Gateway is supported:</p> <ul style="list-style-type: none"> • Release 11.5, 12.0, and 12.5: <ul style="list-style-type: none"> • VG450

Managing provisioning orders during synchronization	Avoids failures by moving the system into maintenance mode on the initiation of a synchronization. During the maintenance mode, the other Cisco Prime Collaboration Provisioning Administrators are not allowed to begin any new device provisioning.

Cisco Prime Collaboration Provisioning Bugs

The following table lists the open bugs in Cisco Prime Collaboration Provisioning 12.6SU1:

Table 1: Open Bugs in Cisco Prime Collaboration 12.6SU1

Bug ID	Description
CSCvr55188	Change hunt pilot through batch is not working.
CSCvq87561	Directory number block not listing while selecting chosen line.
CSCvr59810	Error while ordering endpoint for user in custom provisioning with provision services access.

Using the Bug Search Tool

Use the Bug Search tool to search for a specific bug or to search for all bugs in a release.

Procedure

-
- Step 1** Go to <http://tools.cisco.com/bugsearch>.
- Step 2** At the Log In screen, enter your registered Cisco.com username and password; then, click Log In. The Bug Search page opens.
- Note** If you do not have a Cisco.com username and password, you can register for them at <http://tools.cisco.com/RPF/register/register.do>.
- Step 3** To search for a specific bug, enter the bug ID in the Search For field and press **Return**.
- Step 4** To search for bugs in the current release:
- In the Search For field, enter **Prime Collaboration Provisioning <Release Number >** and press **Return**. (Leave the other fields empty.)
 - When the search results are displayed, use the filter tools to find the types of bugs you are looking for. You can search for bugs by modified date, status, severity, and so forth.
- Tip** To export the results to a spreadsheet, click the **Export All to Spreadsheet** link.
-

Accessibility Features in Cisco Prime Collaboration

All product documents are accessible except for images, graphics, and some charts. If you would like to receive the product documentation in audio format, braille, or large print, contact accessibility@cisco.com.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly What's New in Cisco Product Documentation, which also lists all new and revised Cisco technical documentation, at <https://www.cisco.com/c/en/us/td/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as an RSS feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service. Cisco currently supports RSS Version 2.0.
